Subject Index to Volume 263

A

- A71623, behavioral effects, food intake and activity, R125
- Acarbose, food intake, digestion efficiency and, R852
- A5 cells, early response genes, differential expression of, G934
- A6 cells
amiloride-blockable sodium channels in, aldosterone effects, C825
sodium channel activity, amiloride-binding subunit, C1111
sodium channels, amiloride-blockable, F392
- ACE: see Angiotensin-converting enzyme
- Acetoacetate, epinephrine-induced ketogenesis and, E250
- Acetylcarnitine, metabolism, fat availability effects, skeletal muscle, C653
- Acetylcholine
antigen-evoked release, intestine, G847
bioassay of EDRF, diabetic aorta, H676
desensitization to, single sinoatrial node cells, heart, H1779
diacylglycerol and, M-current, gastric smooth muscle cells, C1274
EDRF-angiotensin II interactions, renal microvascular, F900
endothelium-dependent relaxation, pulmonary circulation, L194
hydrogen peroxide-induced modulation and, airway smooth muscle, L714
impaired release, inflammation and, G198
loci and roles of, temperature regulation (goldfish), R596
modulation of, femoral arteries, H103
modulation of cGMP, vascular cells, L113
myocardial ischemia-reperfusion, SPM-5185 effects on nitric oxide, H771
nitric oxide and, myocardial reactive hyperemia, H8
pancreatic secretion, CCK mechanism of, G102
release
measurement, trachea (guinea pig), L142
neurokinin receptors and, myenteric plexus, G659
resistance, heterogeneity of endothelium-dependent relaxation, H1090
stimulation, modulation of antral slow waves, G880
vascular reactivity, methylene blue and, lung, H587
vasopressin release and, sex differences, R1030
- Acetyl coenzyme A, metabolism, fat availability effects, skeletal muscle, C653
- N-Acetyltransferase, melatonin synthesis and, pineal gland, E481
- ACH: see Acetylcholine
- Acid-base balance
blood sampling, stress due to routine handling (bird), R775
lactate production, muscle acidity and, exhaustive exercise, R891
luminal pH, distal tubule (amphibian), R1254
pressure-drive hemorrhage, H1402
renal physiology (teleost), F49
- Acid-base transporters, characterization of, OMCD cells, F996
- Acidification
NHE-1 immunolocalization, kidney, F833
renal, acid-base physiology (teleost), F49
urinary, vacuolar hydrogen-ATPase, F171
urine, acid-base transporters in OMCD cells, F996
- Acidosis
ammonium chloride-induced, protein breakdown and amino acid oxidation, E735
bicarbonate role, calcium release, bone, F510
cortical collecting duct adaptation to, F749
maturation stages and, proximal tubule cells, F716
metabolic
high-energy phosphates during, heart, H903
serum concentration of vitamin D₃ and, E1164
sodium-hydrogen exchangers and, LLC-PK₁ cells, F83
protection from chemical hypoxia and, hepatocytes, C684
rubidium absorption and proton secretion via, outer medullary collecting duct, F849
transamination role in, LLC-PK₁ cultures, C47
- Acinar cells
salivary, regulation of electrolyte and fluid secretion, G823
submandibular, chloride fluxes, ammonium effects, G558
- Acrophase, shift of, feeding rhythms, obesity progression and, R1169
- ACTH: see Adrenocorticotropin
- Actin, cytoskeleton, dissociation of sodium-potassium-ATPase from, proximal tubules during ischemia, F488
- Actin-gelsolin, binding, endothelial cells, umbilical vein, L664
- Actinomycin D, cortical collecting duct adaptation to, F749
- Acylcarnitines, long-chain, voltage-dependent calcium current and, ventricular myocytes, H410
- Adenosine
basolateral and apical, AVP-stimulated cAMP formation, inner medullary collecting duct, F268
exogenously administered, renal hemodynamic effects of, F816
interstitial, dipyrindamole with, H552
ion transport and, medullary thick ascending limb, F482
juxtamedullary microvasculature and, pre- and postglomerular, F886
luminal and adventitial, responses, perfused arteries, H1437
maximum myocardial blood flow and, late gestation fetus (sheep), H1327
microvascular pericyte proliferation and, retinal, H634
modulation, prostacyclin production, heart, H218
- nitric oxide and, myocardial reactive hyperemia, H8
postischemic myocardial recovery and, H1460
postprandial and reactive hyperemia, jejunum, G487
prevention of myocardial infarction, H1107
production, extracellular, ectonucleotidases of ventricular myocytes, H40
reactive hyperemia, normal and stunned myocardium (pig), H1119
receptors: see Receptors
receptor-mediated pathways, LLC-PK₁ cells, C729
vasomotor effects, afferent arterioles, F1026
- Adenosine deaminase
cardiac interstitial adenosine and, H1322
postprandial and reactive hyperemia, jejunum, G487
- Adenosine diphosphate
extracellular nucleotide elevation of calcium, osteoblasts, C1040
platelet-released factor, endothelial barrier, L670
- Adenosine monophosphate, cyclic activity, skeletal muscle, E226
adenosine A₁ receptors, cell line (28A) from collecting tubule, C502
ANF and bradykinin interaction, transport of M-1 cortical collecting duct cell line, F1
angiotensin II effects, kidney cells (opossum), C1141
angiotensin II transduction pathways, proximal tubule, C750
ANP effects, E181
ANP release, stretch-dependent regulation, atrial cardiocytes, E231
apical membrane, cystic fibrosis, airway and intestinal epithelia, L1
atriopeptin and, increase in endothelial cell permeability, L363
AVP-stimulated formation, inner medullary collecting duct, F268
binding proteins, pancreas, G396
CFTR channels, airway cells, L692
control
beat cycle, respiratory tract cilia, L232
in adipose tissue, ectotherm vertebrates, R857
cultured smooth muscle cells, colonic, G365
extrarenal vasopressin receptors and, H1888
forskolin effects, conductive anion pathways, skin (toad), C166
insulin effects, β -adrenergic responses, lung, fetus, L562
intracellular signal transduction, C723
ion transport
apical membrane, gallbladder (*Necturus*), C187
mantle epithelium (clam), R76
medullary thick ascending limb, F482
isoproterenol and, synergistic actions, aorta, H1113
membrane permeability and, renal brush-border membrane, F144
messenger system, muscarinic receptors in MDCK cells, C1289

- Adenosine monophosphate, cyclic (*continued*)
 pepsinogen secretion, permeabilized chief cells, G452
 PG receptors and, myometrium, C257
 phosphates and, muscle fatigue (frog), C803
 production
 hormone and autacid regulation of, inner medullary collecting duct sub-segments, F319
 prostaglandin effects, CCD cells, C1208
 protein kinase C activation, development of tight junction after, F293
 protein kinase dependent on activation by cGMP, chloride transport, intestine, C607
 hydrosmotic effect of vasopressin and, collecting duct, C147
 PTH transduction pathways, pH effects, proximal tubules, C941
 relaxation induced by, smooth muscle, protein kinase A role in, G360
 surfactant protein C and, alternative splicing and regulation, fetus, L634
 system, bile duct cells, G527
 vasopressin-stimulated formation, cortical collecting tubules, F1093
- Adenosine triphosphatase
 activity, skeletal muscle response to hypothyroidism, C86
 calcium-dependent, transport activity, kidney cortex, F192
 cardiac myosin, sliding velocity of, H465
 cooperative activation of myosin, permeabilized smooth muscle, C210
 disulfide bonds and, β -subunit, C39
 magnesium myofibrillar, long-term coronary stenosis, H117
 mitochondrial, prevention of myocardial infarction, H1107
 production, extracellular, ectonucleotidases of ventricular myocytes, H40
 proton, plasma membrane, epididymis, C913
- Adenosine triphosphate
 calcium signaling, endothelial, C1029
 CCK binding affinity states and, pancreatic acini, G44
 changes, heart, phosphorus-31 NMR spectroscopy, H497
 contractile and conductive elements, heart, H168
 dicalciphor, KCN toxicity and, C405
 exogenously administered, renal hemodynamic effects of, F816
 extracellular
 calcium ion mobilization by, myocytes, C933
 chloride secretion and, nasal epithelia, C348
 mesangial cell proliferation and, F374
 extracellular nucleotide elevation of calcium, osteoblasts, C1040
 formation, energy demand and, anoxic heart muscle, H526
 glucose transporter expression, hypoxia and, endothelial cells, C326
 juxtamedullary microvasculature and, pre- and postglomerular, F886
 magnesium chloride and, effects on hepatic blood flow, G895
 oxidant injury and, alveolar epithelial cells, L430
 phosphonoformic acid action on, kidney cells (opossum), F301
 platelet-released factor, endothelial barrier, L670
 potassium channels sensitive to ophthalmic artery, H359
 pulmonary vascular tone, fetus, H1363
 proteolysis dependent on, protein deficiency and, muscle, E326
 turnover, forced dive effects, R1309
S-Adenosylmethionine decarboxylase, putrescine effects, small intestine crypt cell line, G494
- Adenylate cyclase
 calcium ion mobilization and, myocytes, C933
 cAMP messenger system, muscarinic receptors in MDCK cells, C1289
 chronic administration, energetics and transmembrane signaling (turkey), H1576
 fetal growth retardation, neonatal adaptation and, E575
 linkage, H_2 receptors and, G967
- Adenylyl cyclase
 activity, skeletal muscle, E226
 adrenergic regulation, brown fat, neonate, R34
 hormone signaling systems, inner medullary collecting ducts, F985
 kinetics, adipocytes, genetic diabetes, C121
 production, hormone and autacid regulation of, inner medullary collecting duct subsegments, F319
 sodium transport defect, spontaneous hypertension, F1105
 vasopressin-stimulated formation, cortical collecting tubules, F1093
- Adipocytes
 brown
 norepinephrine-stimulated protein synthesis, R1003
 proliferation, sympathetic innervation and, R1176
 epinephrine-induced lipolysis, recombinant human growth hormone effects, E467
 fatty acid triglyceride effects, isotopomer spectral analysis of, E667
 G protein levels in, genetic diabetes, C121
 3T3-L, glucose transporters, insulin-regulated sorting of, E383
- Adipose tissue
 brown: *see* Brown fat
 cellularity, reversal of high-fat diet-induced obesity, female, R790
 free fatty acid metabolism, insulin regulation of, E1063
 G protein levels in, genetic diabetes, C121
 hypercholesterolemia, adrenals and, E287
 linoleic acid-enriched triacylglycerols, retention during fasting, R233
 lipolysis
 control, ectotherm vertebrates, R857
 diet-induced obesity and, female, R1248
 postnatal expression of GLUT-4, E102
 somatotropin effects, lipid metabolism and IGF gene expression (pig), E637
 thermogenic response, epinephrine, E850
 triglycerides, glucose carbon uptake in, E473
 Adiposity, gender and equilibration time, deuterium and oxygen-18 dilution space ratio, E1119
- Adrenal cortex, aldosterone secretion, ANP inhibition of, E181
- Adrenalectomy
 5'-deiodinase circadian rhythm, harderian gland, E884
 endotoxin-induced fever, glucocorticoids and, R423
 intestinal anastomoses after, healing with corticosterone, R164
 sodium-potassium-ATPase mRNA expression and, distal nephron, C810
 sodium-potassium pump, potassium depletion in vasopressin resistance, F705
- Adrenal gland
 corticosteroid secretion, fetus (sheep), R936
 corticosterone release, interleukin-1-induced, E461
 fetal growth retardation, neonatal adaptation and, E575
 hypercholesterolemia and, E287
 muscarinic cholinergic receptors, H1208
- Adrenal medulla
 activation, catecholamines, R716
 chromaffin cells, calcium channels, permeation by calcium and manganese, C818
- Adrenal zona, glomerulosa cells, potassium ion channels in, E752, E760
- Adrenergic agonists, relaxation induced by, smooth muscle, protein kinase A role in, G360
- Adrenocorticotropin
 adrenal, secretion, fetus (sheep), R936
 aldosterone secretion, interleukin-1 stimulation of, R840
 ANP effects, E181
 chronic stress effects, hypoglycemia, E394
 extrapituitary secretion, prostaglandin E_2 and, fetus (sheep), R136
 hypovolemic shock and, head-up tilt, R156
 secretion, right heart receptor control of, R1071
 vasopressin and angiotensin II control of, water deprivation effects, R762
 vasopressin responses and, response to hypoglycemia, awake state, R382
- Adriamycin, nephropathy, pregnancy effects on renal disease, F711
- Aerobic fitness: *see* Exercise
- Afferents
 post-nerve stimulation hyperemia, intestine, G29
 renal, input to ventrolateral medulla, R412
 sensory, capsaicin-sensitive, body temperature and, R1215
- Afterload
 β -adrenergic blockade and, nonischemic myocardial contraction pattern and, H1716
 deterioration induced by, mechanical efficiency, dobutamine effects, H1201
 inner and outer wall thickening and, ventricular, H109
- Aging
 α_1 - and α_2 -chain type IV collagen mRNAs, glomerulus, F951
 baroreflex regulation and, sympathetic activity, H798
 calorie restriction and, microalbuminuria, F554

- changes induced by, zinc metabolism, R1162
- deglutition and respiration, coordination, G750
- endurance training effects, total energy expenditure, E950
- energy metabolism and, E448
- entrainment and resynchronization with, circadian locomotor activity, R1099
- feedback effects and, activity-rest cycle of circadian clock, R981
- gender and, insulin resistance, E780
- gender and body composition with, deuterium and oxygen-18 dilution space ratio, E1119
- GLUT-4 glucose transporters and, muscle, E362
- left ventricular filling and, rest and exercise, H1932
- orthostatic stress and, circulatory control during, R1147
- response to hypoxia, fetus (sheep), R880
- training interactions, myocardial interstitium, H778
- vascular contractility and, resistance arteries, H1190
- Agonists**, activation of calcium channels, airway smooth muscle cells, C106
- Airway**
- acetylcholine release, measurement of (guinea pig), L142
 - calcium channels, carbachol effects, C69
 - cells, CFTR channels in, L692
 - cystic fibrosis, chloride channels in apical membrane, L1
 - endothelin-1, regulation of smooth muscle cells, L317
 - epithelia, chloride secretion, ATP and, C348
 - epithelial cells
 - induction of intracellular adhesion molecule-1 by interferon- γ , L79
 - neutrophil chemotaxis by tachykinins, L226
 - goblet cell secretion, cigarette smoke-induced, L161
 - hyperresponsiveness, anti-Mo1 monoclonal antibody effects, L723
 - neutrophil accumulation, interleukin-8 effects, L708
 - secretion, tracheal gland cells in primary culture, L264
 - smooth muscle, hydrogen peroxide modulation of, L714
 - smooth muscle cells, agonists activated calcium channels in, C106
 - surface fluid, filter paper equilibration, L243
 - thromboxane-induced proliferation, smooth muscle cells, L555
- Alanine**
- metabolic acidosis, LLC-PK₁ cultures, C47
 - turnover, tracer methodology, E417
- β -Alanine, transporter, colon carcinoma cell line, G625
- Alanine aminotransferase, induction, exercise effects, muscle, E1157
- Alanine-proline pathway, gill (mussel), R226
- Albumin**
- binding
 - SPARC and gp60, SPARC antibodies and, microvascular endothelium, H1872
 - tubular uptake of enalaprilat and, F858
- coating, extracorporeal circuits and autoregulation, H1397
- dose-dependent effects, osteocalcin synthesis, osteoblast-like cells, E1113
- gene transcriptions of, oncotic pressure effects, hepatoma cells, C397
- infusion, response to hypervolemia, F284
- interstitial exclusion, continuous infusion method of measurement, H1222
- protein lymph flux, skin, during increased venous pressure, H895
- synthesis
- arginine effects, high-protein diets in nephrosis, F907
 - meal stimulation of, E794
- transendothelial flux, pulmonary artery, IL-1 effects, L128
- transport, blood-tissue, ANP infusion effects, R945
- transvascular, skin, after bradykinin infusion, H1064
- Albuminuria**
- angiotensin II receptor antagonist effects, Heymann nephritis, F311
 - arginine effects, high-protein diets in nephrosis, F907
 - enalapril and, obesity, F496
- Aldehyde reductase, polyol and, production, kidney, F799
- Aldose reductase, production, kidney, F799
- Aldosterone**
- amiloride-blockable sodium channels and, A6 epithelia, C825
 - ANP and angiotensin II, interactions, awake state, E537
 - ANP with, exercise in hypobaric conditions and, R647
 - dopamine receptors and, fetus (sheep), R868
 - glucocorticoid inhibition of, colon, F443
 - membrane conductance and, TBM cells, C384
 - membrane receptors for, mineralocorticoid action, E974
 - mineralocorticoid action and, protective mechanisms, F759
 - secretion
 - ANP-induced inhibition, E181
 - interleukin-1 stimulation of, R840
 - sodium-potassium-ATPase pumps, rapid recruitment of, cortical collecting tubule, C61
 - thyroid hormone effects, urinary and renal kallikreins, E430
- Alkaline phosphatase**
- gene expression, disuse osteopenia and, growth, E1029
 - mixed micelles, lytic effects of, G333
- Alkaline phosphatase cDNA, intestinal, Caco-2 cell transfection, G756
- Alkalinization, thrombin regulation of pH, Saos-2 cells, C1266
- Alkalosis**
- maturation stages and, proximal tubule cells, F716
 - potassium transport regulation and, cortical collecting tubule, model, F1076
- Allopurinol**
- posthypoxic injury, renal epithelial cells, F251
 - reperfusion of arrhythmias, isolated ventricles, H341
- Alloxan, blood perfusion and, pancreatic islets, E57
- Almitrine, hypoxic vasoconstriction and, lung, H383
- Altitude, adaptation, cerebral blood flow and tissue oxygenation in (geese), R221
- Alveolar epithelial cells**
- phospholipase activity in, oxidant injury effects, L430
 - type II
 - aminopeptidase N expression, during development, L460
 - binding of surfactant protein B, L333
 - distribution of liposome-entrapped antioxidant enzymes, L585
 - hydrophobic proteoglycan synthesis, L348
 - processing of surfactant protein B by cathepsin D-like protease, L95
 - surfactant-associated proteins in, L479
- Alveoli**
- formation, postnatal effects of prenatal dexamethasone, L37
 - surfactant turnover, lamellar bodies, L607
- Amiloride**
- activation of sodium-hydrogen exchange, lithium and, muscle fibers (barnacle), C246
 - heat-induced calcium increase, epidermoid A 431 cells, C30
 - histamine-induced chloride secretion and, nasal epithelium, C1190
 - lithium reabsorption and, kidney, F1128
 - melatonin synthesis and, pineal gland, E481
 - potassium restriction and, rubidium permeation, cortical collecting duct, F1134
 - short-circuit current stimulated by, calcium channel blocker effects, tadpole skin (frog), R827
 - sodium- and chloride-conductive pathways, tracheal epithelium, L519
 - sodium channels blockable by, aldosterone effects, A6 cells, C825
 - sodium channels blockable by, insulin effects, renal epithelium, F392
 - sodium channel subunit that binds, sodium channel activity and, C1111
 - sodium-hydrogen exchange, metabolic acidosis and, LLC-PK₁ cells, F83
 - sodium-potassium-ATPase pumps, rapid recruitment of, cortical collecting tubule, C61
 - sodium uptake sensitive to, ANP effects, brain, R279
- Amino acids**
- anion channels for, MDCK cells, C1200
 - degradation, suppression by dietary protein deficiency, E317
 - excitatory
 - parabrachial nucleus, R324
 - spinal stimulation to locate preganglionic neurons, H1026
 - hemodynamic responses to, endothelium-derived nitric oxide effects, R510
 - imbalance, clonidine and, prepyriform cortex, R885
 - infusion, thermogenic and hormonal responses in sepsis, E129
 - nutrient transport mechanisms, intestines, R458, R472
 - oxidation, ammonium chloride-induced acidosis and, E735
 - PAF effects, traumatic brain injury, R909

- Amino acids (*continued*)
 plasma membrane domain localization, glucagon-induced hepatic system A carrier, E1021
 stimulation of protein synthesis, skeletal muscle, E453
 tracer infusion, whole body and regional kinetics, E597
 transport
 ontogenetic development of, intestine, G593, G605
 transmucosal impedance and, small intestine, C480
 transport protein, renal localization of, F1087
 1-Aminobenzotriazole, cytochrome P-450 and, hypoxic pulmonary vasoconstriction, L446
 γ -Aminobutyric acid, transport systems, hepatocytes, G169
 Aminoglycosides, gentamicin, epidermal growth factor effects, model, F806
 p-Aminohippurate, uptake, renal tubules, F384
 5'-Aminolevulinate synthase, activity, anemia effects, skeletal muscle, C429
 Aminopeptidase N, expression, lung development, fetus, L460
 4-Aminopyridine
 hypoxic vasoconstriction and, lung, H383
 isosmotic cell swelling, vestibular dark cells, C616
 spiking electrical behavior, colonic longitudinal muscle, C237
 voltage-dependent potassium currents, colonic circular muscle, C226
 Ammonia
 Helicobacter pylori-associated production, gastric mucosal cell injury and, G719
 inflammation mediated by, hyperosmolality effects, renal medulla, R148
 Ammoniogenesis, transamination role in, LLC-PK₁ cultures, C47
 Ammonium
 chloride fluxes and, resting and stimulated submandibular acinar cells, G558
 maturation stages and, proximal tubule cells, F716
 Ammonium chloride, serum concentration of vitamin D₃ and, metabolic acidosis effects, E1164
 AMP deaminase
 altered kinetics, myosin binding and, C294
 binding, contracting skeletal muscle, C287
 Amphotericin, perforated-patch recordings, sodium channel kinetics, C1234
 Amphotericin B, block, basolateral potassium channels, HT-29 cells, C674
 Amylin, insulin and, soleus muscle, E274
 Anaphylatoxins, oxidant stress, sinusoidal glutathione efflux during, liver, G60
 Anaphylaxis, pulmonary vascular response to, lung, R1024
 Anemia
 5'-aminolevulinate synthase activity and, skeletal muscle, C429
 hypoxia, oxygen transport during (pig), H208
 Anesthesia
 basal coronary blood flow, glibenclamide decrease in, H399
 epidural, thermogenesis after surgery and, E441
 right ventricular isovolumic relaxation, open-chest, H1587
 Anesthetics, sympathetic responses and, cerebellar uvula in decerebration, H1285
 ANF: *see* Atrial natriuretic factor
 Angiogenesis, microvessel density and, cremaster muscle, H664
 Angiography
 cerebral circulation, H1616
 dynamic intramyocardial blood volume, H963
 Angiotensin
 ANP effects, E181
 buffer of renal vasoconstriction, genetic hypertension, F573
 central, hemodynamic effects, awake state, R845
 centrally infused, baroreceptor reflex modulation by, R89
 detection, myocytes and fibroblasts, C851
 intrarenal, obstruction of ureter and, F527
 localization and release, renal cortical cells, F363
 renin and, intracardiac detection of, neonate, C838
 salt appetite induced by, oxytocin effects, R1347
 Angiotensin-converting enzyme
 ACE gene expression, endothelial cells, C743
 angiotensin I and II detection, myocytes and fibroblasts, C851
 inhibition
 angiotensin I and II production (pig), H429
 regional angiotensin I metabolism, H418
 spared myocytes, after myocardial infarction, H841
 intestinal, G466
 stimulation by dexamethasone, pulmonary artery endothelial cells, L645
 Angiotensin-converting enzyme inhibitors, ACE gene expression and, endothelial cells, C743
 Angiotensin I
 metabolism, regional, different tissues, H418
 production, tissue sites (pig), H429
 Angiotensin II
 activation, sodium-hydrogen exchange, proximal tubules, F135
 α -adrenergic receptors and, estrogen-induced vasodilation, E837
 arteriolar contraction, skeletal muscle, H1847
 concentrations, interactions of, awake state, R537
 EDRF interactions, juxtamedullary afferent and efferent arterioles, F900
 endothelin sensitivities, renal arterioles, F894
 hypertension, sympathetic stimulation, cerebral blood flow and, H511
 hypertrophic growth, protein kinase C and, cardiomyocytes, C319
 induction of early growth response gene and, mesangial cells, F623
 inhibition, potassium ion channels in glomerulosa cells, E760
 massive sympathetic activation, left ventricular dysfunction and, H784
 microvessel density and, cremaster muscle, H664
 production, tissue sites (pig), H429
 prostaglandin production and, gravid uterus (sheep), H188
 proximal tubular cells, stably transfected with c-mas oncogene, F931
 receptors: *see also* Receptors
 subtypes, renal mesangial cells, F411
 reciprocal feedback regulations, kidney angiotensinogen and renin mRNA, E863
 reflex regulation and
 ACTH, glucocorticoids, and renin, R762
 heart rate, R756
 renal nerve activity and, spontaneous hypertension, R109
 renin and, intracardiac detection of, neonate, C838
 secretion of ANP and, fetus (sheep), E526
 signal transduction, diabetic, glomerular mesangial cells, F649
 S6 kinase activity and, proximal tubules, F127
 sodium-hydrogen exchange activity and, kidney cells (opossum), C1141
 transduction pathways and, proximal tubule, C750
 vasopressin release and, sex differences, R1030
 Angiotensinogen
 kidney, reciprocal feedback regulation of, angiotensin II, E863
 mRNA levels, stimulation by estradiol, pituitary, E355
 1,5-Anhydroglucitol, origin and disposal, human body, E268
 Anions
 activation and, permeabilized neutrophils, C78
 conductive pathways, forskolin effects, skin (toad), C166
 Anisomycin, cortical collecting duct adaptation to, F749
 Anisotropy, fluorescence, organic osmolytes and cytoplasmic viscosity, kidney cells, C901
 Anorexia
 dehydration, sodium chloride inhibition of gastric motility, R9
 induction, TNF- β , R703, R708
 Anoxia
 cerebral, tolerance (turtle), R1298
 heart muscle, ATP formation and energy demand in, H526
 membrane and synaptic activity during, cerebellum (turtle), R1057
 recovery and, catecholamines and corticosterone during (turtle), R770
 ANP: *see* Atrial natriuretic peptide
 Anthracene-9-carboxylic acid, cochlear outer hair cells, C1088
 Anthranilic derivatives, iodide channel, thyroid, C590
 Antidiuretic hormone: Vasopressin
 central control of, sex differences, R1030
 water channel retrieval, urinary bladder (toad), F163
 Anti-neutrophil serum, gastric mucosal injury, aspirin-induced, G920
 Antioxidant enzymes
 endothelial cell dysfunction and, elevated glucose and, H321

SUBJECT INDEX TO VOLUME 263

- gene regulation, lung, L466
glutathione oxidation in blood, exhaustive exercise, R992
glutathione *S*-transferase, immunolocalization, lung, L679
liposome-entrapped, alveolar distribution of, L585
lung injury induced by, food restriction effects, prematurity (guinea pig), L357
Antioxidant status, postischemic functional recovery and, blood-perfused heart, H1243
Antipyretics, TNF- α , interleukin-1 β and LPS fever, R987
Aorta
 calcium-independent isoforms, protein kinase C, C714
 calcium influx, via sodium-calcium exchange, myocytes, C628, C635
 chronic regurgitation, left ventricular performance during, H226
 diabetic
 bioassay of EDRF, H676
 spontaneous EDRF release, oxygen radicals and, H257
 endothelial cell dysfunction, free radical mediation of, H321
 hypoxia-elicited contractions, EDRF and EDCF, H1339
 impedance, pressure-flow relations and, fetus (sheep), H824
 occlusion, repolarization induced by, ventricular loading change effects, H816
 precontracted with endothelin-1, synergistic actions of cGMP and isoproterenol, H1113
 stenosis, left ventricular hypertrophy, H1137
Aortic arch, turnover of blood-borne compounds, tracers, E417
Apamin
 inhibition, ileal smooth muscle, G767
 neural control, electrophysiology and, gastric emptying, G887
 receptors: *see* Receptors
APE-LM, fluorochemical emulsion, cardiac preservation and, H730
Apolipoprotein, expression, Caco-2 intestinal cells, E374
Apolipoprotein B, gene transcriptions of, oncotic pressure effects, hepatoma cells, C397
Arachidonic acid
 activity, mast cell granules, L168
 effects, cytosolic calcium in GH₃ cells, E903
 hemoprotein-catalyzed peroxidation of, H1546
 metabolism, endotoxin effects, microvascular endothelial cells, H1213
 topical, hypercapnia, postischemic newborn brain (pig), H746
 uncoupling, cardiac myocyte pairs, neonate, C494
Area postrema, ANF binding sites, autoradiographic study, R747
Arecoline, cAMP messenger system and, MDCK cells, C1289
Arginine
 albumin and, high-protein diets in nephrosis, F907
 hydrolysis into urea and ornithine, nephron, F878
L-Arginine
 chronic hypoxic pulmonary hypertension and, L194
 collateral flow and, after arterial occlusion, ear, H752
 coronary venular permeability, flow modulation, H641
 dysfunction, after myocardial ischemia, H850
 endothelium-derived, hemodynamic response to amino acids and, R510
 infarct size and, middle cerebral arterial occlusion, spontaneous hypertension, H1632
 intracoronary, reperfusion injury, H1650
Arrhythmias
 atrial, chloride current, myocytes, H1967
 cardiac
 ventricular loading change effects, H816
 voltage-dependent calcium current and, ventricular myocytes, H410
 myocyte pairs, eicosanoid uncoupling of, C494
 stretch-induced depolarizations, left ventricle, H613
 ventricular
 action potential conduction between cells, calcium current effects (guinea pig), H1591
 allopurinol effects, H341
 fibrillation thresholds and, heart, H1306
 heptanol or potassium perfusion effects, H1382
Arterialized venous sampling, metabolic studies, E1010
Arterioles
 afferent
 ATP effects on juxtamedullary microvasculature, F886
 purinergic agonists in, vasomotor effects of, F1026
 afferent and efferent, juxtamedullary, EDRF-angiotensin II interactions in, F900
 blood flow control in, during intracellular recording, H1
 cerebral, cytochemical detection of superoxide, H1234
 dilation, sympathetic nerve stimulation, H1177, H1185
 efferent, endothelin effects, F103
 mesenteric, origin of myogenic response, H1486
 micromechanics study, force transducer for, C700
 pial, dilatation, topical arachidonic acid effects, postischemic newborn (pig), H746
 renal, sensitivities to endothelin, F894
Asbestos
 lung development, response to injury and, L308
 lung inflammation induced by, surface complexed iron in, L511
Aspartate, anion channels for, MDCK cells, C1200
Aspartate aminotransferase, induction, exercise effects, muscle, E1157
Aspirin
 blood flow and, ulcer site, stomach, G155
 gastric mucosal injury induced by, G920
Asthma
 endothelin-1 regulation, airway smooth muscle cells, L317
thromboxane-induced proliferation, airway smooth muscle cells, L555
Astrocytes, CNS, inflammatory cytokines in, C1
Atherosclerosis
 endothelin-1 mRNA, physiological shear downregulation, C389
 hypercholesterol diet and, carotid circulation (pig), H1919
ATP: *see* Adenosine triphosphate
ATPase: *see* Adenosine triphosphatase;
 Hydrogen-ATPase; Hydrogen-potassium-ATPase; Sodium-potassium-ATPase
Atrial natriuretic factor
 binding sites, area postrema, R747
 blood pressure control, brain, R301
 bradykinin and, transport of M-1 cortical collecting duct cell line, F1
 cardiac secretion, lower brain stem control of, H198
 divergent regulation of, high-output heart failure, H1790
 endopeptidase-mediated metabolism of, clearance receptor and, F546
 gene for, renal expression of, F974
 hormone secretion, right heart receptors and, R1071
 infusion, thoracic inferior vena caval constriction, heart failure, H951
 inhibition, norepinephrine-stimulated fluid absorption, proximal straight tubules, F581
 localization of, renal, F503
 response, hypoxia and hemorrhage, R664
 saline natriuresis and diuresis with, awake state, H792
 secretion
 endothelium-dependent, H1071
 gene expression and, corticoid regulation of, H1377
 urodilator and, pharmacokinetics of, E870
 volume-induced secretion, low-dose endothelin-1 and, H939
Atrial natriuretic peptide
 amiloride-sensitive sodium uptake and, brain, R279
 cGMP levels and, increase in endothelial cell permeability, L363
 concentrations, interactions of, awake state, R537
C-type
 growth factor-dependent DNA synthesis and, smooth muscle cells, C1001
 renal receptors for, F89
 effects on cGMP, aortic and coronary smooth muscle cells, H710
 high-output heart failure, chronic captopril and losartan effects, H833
 inhibition, aldosterone secretion, E181
 physiological concentrations of, renin release and, awake state, R529
 receptor subtypes, signal transduction mechanisms, C334
 secretion
 atrial myocytes, H722
 physical exercise in hypobaric conditions, R647
 synthesis, stretch-dependent regulation, atrial cardiocytes, E239
 tissue-specific effects, blood-tissue albumin transport, R945
 vasoconstrictor-induced secretion, fetus (sheep), E526
 vasopressin metabolism and, kidney, R273

Atrial natriuretic peptide (*continued*)
 volume depletion mediated by, renal responses and, R1303

Atrial natriuretic peptide-like substance, release, dexamethasone effects, cardiocytes (trout), R447

Atriopeptin: *see also* Atrial natriuretic peptide
 cGMP levels and, increase in endothelial cell permeability, L363
 gene for, renal expression of, F974
 localization of, renal, F503

Atriopeptin II, modulation of cGMP, vascular cells, L113

Atrioventricular node, regional distribution, extracellular space, H168

Atropine
 diaphragmatic contribution, gastroesophageal competence and reflux, G551
 release of intestinal hormones, pancreatic exocrine secretion, G12

Autoimmune sialoadenitis, salivary glands, functional changes in, E607

Autonomic nervous system
 circulatory control, during orthostasis, aging effects, R1147
 development of cardiac innervation, SIDS and, H1514
 intragastric copper sulfate effects (ferret), R284

Autophagy, hepatic, streptozotocin-induced diabetes, E856

Autoradiography
 ANF binding sites, area postrema, R747
 quantitative, regional distribution of renal blood flow, F958
 renal ANP, CNP receptors and, F89
 sympathetic innervation, brown adipocyte proliferation and, R1176

Autoregulation
 cerebral blood flow, changes, acute hypertension and sympathetic stimulation, H511
 coronary, oxygen transport and, H691
 extracorporeal circuits and, albumin coating effects, H1397
 mesenteric arterioles, origin of myogenic response, H1486
 passive, portal venous pressure, liver, G702
 tissue oxygen uptake effects, postnatal intestine (swine), G690

AVP: *see* Vasopressin, arginine

Awake state
 ANP and angiotensin II concentrations, interactions, R537
 antroduodenal resistance, changes induced by Cisapride, G202
 baroreflexes, chronic tachycardia and, H1084
 basal glucagon effects, hepatic glucose production, E541
 central angiotensin, hemodynamic effects of, R845
 differing insulin levels, response to equivalent hypoglycemia, E688
 dobutamine effects, myocardial contractility (sheep), H1250
 partial baroreceptor denervation, recovery of arterial pressure after, H697
 renal autoregulation, EDRF and, F208
 renin release, ANP effects, R529
 saline, natriuresis and diuresis, H792
 sympathetic nerve activity, blood pressure and, spectrum analysis, H1348

ventricular fibrillation, after coronary artery occlusion (pig), H479

B

Bacterial infection
 cortisone effects, sleep, R1339
 fever, vasopressin role in regulation of, R1235

Bafilomycin A₁, acid-base transporter, OMCD cells, F996

Barium
 block, basolateral potassium channels, HT-29 cells, C674
 chloride activity and, during osmotic stress, hepatocytes, G566
 isosmotic cell swelling, vestibular dark cells, C616
 potassium restriction and, rubidium permeation, cortical collecting duct, F1134

Basilar artery, vasopressin-induced constriction, protein kinase C inhibitor effects, H1643

BAY K 8644, calcium channels, portal vein myocytes, H453

Belching, diaphragmatic contribution, gastroesophageal competence and reflux, G551

Benzodiazepines, aging alterations, activity-rest cycle of circadian clock, R981

Benzofuran isophthalate, measurement of sodium efflux, ventricular myocytes, H866

Benzolamide, luminal pH, distal tubule (amphibian), R1254

Betaine, transport, gill (mussel), R226

Bethanechol, peristalsis, esophageal smooth muscle (opossum), G953

Bicarbonate
 absorption
 proton secretion and, outer medullary collecting duct, F849
 PTH transduction pathways and, proximal tubules, C941
 pH regulation, potassium conductance, proximal convoluted tubules, F453
 role in calcium release, bone, F510
 secretion
 adaptation of cortical collecting duct, F749
 intercalated cells, C521
 transport
 adenosine effects, renal thick ascending limb, F482
 oxidative metabolism relations, proximal tubule, F342
 sodium-dependent, cytoplasmic pH regulation and, esophageal cells, G407
 turnover, measurement, E676

Bicarbonate ions, intracellular, interleukin-1 β production and, monocytes, C1073

Bile
 flow, regulation by sphincter of Oddi, G683
 formation, hepatic, glutathione effects, G617
 neutral lipid assimilation and (bird), R389

Bile acids, fatty acids and, mixed micelles, lytic effects of, G333

Bile duct, ligation, PAF effects on liver after, G587

Bile duct cells, signal transduction systems in, G527

Bile salts
 hydrophobicity, biliary lipids and, G386
 wax ester assimilation, intestinal, R464

Biliary excretion, organic cation transport, liver plasma membrane vesicles, G775

Biominalization, mantle epithelium (clam), R76

Biotin, uptake, liver mitochondria, G81

2',7'-Bis(carboxyethyl)-5(6)-carboxyfluorescein
 acid-base transporter, OMCD cells, F996
 hydrogen secretion, OMCD cells, F1011

Blockade
 adenosine receptor, interstitial adenosine with dipyrindamole, H552
 α -adrenergic, baroreceptor reflex and venous capacitance, H1755
 β -adrenergic, nonischemic myocardial contraction pattern and, H1716
 ganglionic, vasopressin and exercise pressor reflexes, R1104

Blood
 conductance, oxygen transfer, digital image analysis (shark), R741
 constituents: *see* specific constituent
 endothelium, orosomucoid binding to, H48
 glutathione oxidation, exhaustive exercise and, R992
 oxygen content, catecholamine relations, during hypoxia (trout, eel), R240
 perfusion, alloxan effects, pancreatic islets, E57
 sampling, stress due to routine handling (bird), R775
 viscosity, tube flow, H1770
 volume: *see* Volume

Blood-brain barrier
 iron uptake, transferrin degradation relations, R924
 oxygen radicals, cerebral ischemia and, H1356

Blood flow: *see also* Circulation; Microcirculation
 basal coronary, glibenclamide decrease in, anesthesia, H399

cerebral
 changes, acute hypertension and sympathetic stimulation, H511
 during isovolemic hemodilution, H75
 hemorrhage after head trauma and, H1276
 nitric oxide effects, R1156
 periodic intracranial hypertension, fetus (sheep), R95
 pial caliber and, global ischemia, H533
 tissue oxygenation and, during hypoxia (geese), R221
 vasopressin and, fetus, R376

changes, spinal cord, laser-Doppler flowmetry, H285

control, arterioles, intracellular recording during, H1

coronary
 exercise training effects (pig), H372
 interstitial adenosine with dipyrindamole, H552
 ischemic preconditioning and, H1732
 thromboxane A₂ effects, H1045

coronary collateral, collateral growth and, awake state (pony), H1145

cortical, intracellular brain pH and, H565

SUBJECT INDEX TO VOLUME 263

- determination, microsphere and dilution techniques for, R728
- distribution, baroreflex control, α -adrenergic blockade and, H1755
- femoral artery, nitric oxide and endothelin effects, H103
- finger, local temperature effects on vasoconstriction, H1197
- forearm, baroreflex regulation of after exercise, H1523
- gastric mucosa
 - acid secretion and, in renal failure, G75
 - estimation by laser-Doppler velocimetry and reflectance spectrophotometry, G810
 - prostaglandin role in, G446
- intestine, ischemia-reperfusion injury, G301
- jejunum, adenosine effects, G487
- liver, adenosine triphosphate-magnesium-chloride effects, G895
- medullary, hypoxia, hyperoxia, and hypercapnia effects, H1839
- muscle
 - lactate after hemorrhage, E1035
 - training and insulin action, E1134
- myocardial, chronic hypoxemia and, late gestation fetus (sheep), H1327
- nerve, epineurial endothelin effects, H1806
- pancreatic, alloxan and streptozotocin effects, E57
- papillary, interstitial diltiazem infusion and, R1064
- postprandial, luminal nutrient composition effects, developing intestine, G254
- regional
 - cardiac bypass effects, fetus (sheep), H919
 - concurrent increase, diabetes, sorbinil effects, H945
 - nonradioactive microspheres and x-ray fluorescence, H1946
- renal
 - adenosine and polyadenylic acid effects, F816
 - ANP effects on renin release, awake state, R529
 - EDRF effects, F208
 - glomerular, capillary, network model, F562
 - hypertension, cyclooxygenase inhibition effects, F534
 - lipoxin actions and, F436
 - obstructive nephropathy and, F527
 - periodic intracranial hypertension, fetus (sheep), R95
 - regional distribution of, F958
 - skeletal muscle, in renal failure, G75
 - splanchnic, chronic portal hypertension, EDRF in, G149
- stomach
 - aspirin effects, ulcer site, G155
 - capsaicin-induced hyperemia, G209
 - sympathetic modulation, rhythmically contracting forearm muscle, H1078
- uterine
 - angiotensin II and indomethacin effects, pregnancy (sheep), H188
 - estrogen-induced vasodilation, E837
 - fetal growth retardation, R578
- Blood pressure: *see also* Pressure
 - age-related changes, resistance arteries, H1190
 - ANP effects on renin release, awake state, R529
 - ANP-mediated volume depletion and, R1303
 - arterial, during diving, baroreflex control (duck), R693
 - baroreceptor discharge, suppression by endothelin, R103
 - baroreflex control (sheep), H1819
 - after exercise, forearm, H1523
 - aging and, H798
 - baroreflex responsiveness, long-term calorie restriction effects, H1021
 - cardiac reflexes and, development of (frog), R602
 - central angiotensin and, awake state, R845
 - control
 - estrogen-induced vasodilation, E837
 - nucleus tractus solitarius and, in sinoaortic denervation, R258
 - hormone secretion, right atrial receptor control of, R1071
 - input to A1 neurons, projecting into supraoptic nucleus, R310
 - insulin release, hypertension and, E935
 - reflex regulation of, vasopressin and angiotensin II in, R756
 - renal, prostaglandin effects, genetic hypertension, F573
 - response
 - hypoxia, fetus (sheep), R880
 - hypoxia and hemorrhage, R664
 - spectral analysis of, awake state, H1348
 - sympathetic restraint, muscle blood flow, H1078
 - ureter obstruction and, obstructive nephropathy, F527
 - urinary output relations, pregnancy (sheep), R1141
- Blood vessels, ANF regulation, high-output heart failure, H1790
- Body
 - composition
 - gender and equilibration time effects, deuterium and oxygen-18 dilution space ratio, E1119
 - spontaneous physical activity and, E296
 - streptozotocin treatment of obesity, E550
 - total energy expenditure in aging, E950
 - underfeeding and, normal-weight young men, R251
 - fat: *see* Fat
 - weight: *see* Weight
- Bombesin
 - binding affinity states, ATP effects, pancreatic acini, G44
 - oncogene expression and, pancreatic acini, G327
 - receptors: *see* Receptors
 - satiety induced by, mediation by luminal somatostatin, R84
- Bombesin antagonists, endocrine effects of, E712
- Bone
 - calcium release, bicarbonate role in, F510
 - formation
 - differential suppression of (beagle), E136
 - phosphorus deficiency and (cattle), R656
- histology, magnesium deprivation, osteocalcin relations, E107
- longitudinal growth, dexamethasone effects, E489
- resorption
 - calcium, β_2 -microglobulin and, F540
 - osteoclasts, protein kinase C effects, C130
- Bone marrow, erythropoietin secretion rate, uremia effects, F939
- Bradycardia
 - control during diving, baroreflex and (duck), R693
 - diving, nasal water flow and, R1049
- Bradykinin
 - ANF and, transport of M-1 cortical collecting duct cell line, F1
 - biological activity, purification and (alligator), R400
 - calcium ion channels, aortic endothelial cells, H1827
 - calcium signaling, endothelial, C1029
 - infusion, after transvascular protein flux, H1064
 - vascular reactivity, methylene blue and, lung, H587
- Brain
 - amiloride-sensitive sodium uptake, ANF effects, R279
 - blood flow: *see* Blood flow, cerebral
 - blood volume: *see* Volume, blood, cerebral
 - delayed firing rate response, temperature, R679
 - infarct size, L-arginine effects, spontaneous hypertension, H1632
 - inflammation, cytochemical detection of superoxide, H1234
 - intracerebroventricular injections, coronary artery occlusion via, ventricular fibrillations after (pig), H479
 - iron uptake, transferrin degradation relations, R924
 - ischemia: *see* Ischemia, cerebral
 - neural networks in, thermosensitive, R670
 - opioid binding sites, ovarian hormone effects, castrated females, E507
 - protein kinase effects, sodium currents, *Xenopus* oocytes, C660
 - sodium-calcium exchanger, expression in diverse tissues, C1241
 - tissue, hematocrit, during isovolemic hemodilution, H75
 - traumatic injury
 - platelet-activating factor antagonists and, R909
 - progressive hypotension after, cerebrovascular responses, H1276
- Brain-gut axis, sensory pathways, jejunum, G673
- Brain natriuretic peptide, atrial granule localization, release into circulation, R301
- Brain stem
 - ANF binding sites, autoradiographic study, R747
 - control of ANF secretion, heart, H198
 - dorsal motor nucleus, TRH effects on motor neurons in, G508
 - input to parabrachial neurons, excitatory amino acid mediation, R324
 - nucleus tractus solitarius, chemoreceptor input to, R368
- Breathing: *see* Respiration

- Bretylium, insulin secretion and, during sympathetic stimulation, pancreas, E72
- Bronchi, responsiveness, hydrogen peroxide effects, L402
- Bronchoalveolar lavage
air- and fluid-filled, urea exchange in, L619
epithelial lining, lung, L617
- Bronchopulmonary dysplasia, oxygen inactivation of fibroblast growth factors, endothelial cell proliferation and, L370
- Brown fat
adenyl cyclase activity, sympathetic control of, neonate, R34
 α_1 -adrenoceptor density in, hypothyroidism, E654
glucose transport system, ventromedial hypothalamic stimulation effects, R1228
lipoprotein lipase gene expression, E500
protein synthesis, norepinephrine-stimulated, R1003
sympathetic innervation effects, R1176
thermogenic responses, strain differences in rats, R59
triiodothyronine conversion, before onset of obesity, E115
- Brush-border membrane
intestinal
angiotensin-converting enzyme in, G466
nutrient transport, R458, R472
nutrient transport during ontogeny, vertebrates, R503
sodium-D-glucose cotransport kinetics in (teleost), R1018
oligopeptide clearance, molecular structure and, F109
renal proximal tubule, hormonal regulation of ionic permeability, F144
uptake, nutrient transporters, intestine, G593, G605
- Bumetanide
 β_1 -adrenoceptors, sodium-potassium-chloride cotransport and, lymphocytes, C1015
inhibition of sodium transport, intrarenal pressure during, R1182
potassium transport sensitive to, preimplantation conceptuses, C773
- 2,3-Butanedione monoxime
contractile efficiency and, heart ventricle, H1811
negative inotropic effects, myocardium, H503
- Bypass, cardiac, fetus (sheep), H919
- C**
- C5a
contractile actions, myocardium (pig), H740
superoxide responses to, endothelial cells, L51
- Cachectin, systemic injection, interleukin-1 β and LPS fever, R987
- Caco-2 cells
bile acids and fatty acids, mixed micelles, lytic effects of, G333
expression of GLUT-5 in, small intestine and colon, G312
transfection, intestinal alkaline phosphatase cDNA, G756
- Caffeine, calcium overload, recovery from, cardiomyocytes, H1262
- Calcitropic hormone, cytosolic calcium elevated by, vitamin D₃ effects, osteoblast-like cells, E1070
- Calcitonin
C cell line, membrane currents in, C986
regulation of sodium-potassium-chloride cotransport, thick ascending limb cell line, C563
relaxation induced by, smooth muscle, protein kinase A role in, G360
- Calcitonin gene-related peptide
baroreflex and, heart rate and renal sympathetic nerve activity, R874
cultured smooth muscle cells, colonic, G365
neutrophil adherence and, endothelial cell monolayers, G678
somatostatin and, modulation of chronic hypoxic pulmonary hypertension, H681
vasodilation induced by, ophthalmic artery, H359
- Calcitriol, albumin effects on osteocalcin synthesis, osteoblast-like cells, E1113
- Calcium
adenosine A₁ receptors, cell line (28A) from collecting tubule, C502
ANP effects, E181
cell, modulation by epinephrine, hepatocytes (fish), E512
cell volume regulation and, proximal tubule cells, R1086
cGMP and, arterial smooth muscle relaxation, C461
clamp study, regulation of acute PTH release, E195
constant, transient myosin phosphorylation at, permeabilized arteries, C540
control, beat cycle, respiratory tract cilia, L232
cytoplasmic, eicosanoid modulation of, principal cells, F116
cytosolic
elevated, vitamin D₃ effects, osteoblast-like cells, E1070
excitation-contraction coupling, gastric smooth muscle, C1160
GH₃ cells, arachidonic acid effects, E903
interaction with magnesium-fura-2, C300
thrombin-induced increase in endothelial permeability, L219
cytosolic free
angiotensin II transduction pathways, proximal tubule, C750
regulation of prostacyclin production, aortic smooth muscle cells, E800
thapsigargin effects, atrial cells, H1689
- efflux
gene expression and, proximal tubule, F945
 β_2 -microglobulin-induced, F540
entry, antifreeze protein blockage of, parietal cells (fish), C1310
extracellular nucleotide elevation of, osteoblasts, C1040
fluorescence measurement, responses to endothelin, C1302
free concentration, cultured smooth muscle cells, C95
histamine-induced chloride secretion and, nasal epithelium, C1190
- influx
stretching effects, pulmonary arterial smooth muscle cells, L602
- via sodium-calcium exchange, aortic myocytes, C628, C635
volume-sensitive, gastric parietal cells, C584
- intracellular
2,3-butanedione monoxime effects, myocardium, H503
cerebral anoxia tolerance (turtle), R1298
homeostasis, chemical hypoxia effects, hepatocytes, C684
hydrogen peroxide-induced tubular cell injury, F214
modulation of, protein synthesis and, liver, E958
signal transduction, C723
stretch-induced increase, vascular smooth muscle cells, H1292
mobilization, signal transduction by T-cell receptors, C1119
okadaic acid effects, pancreatic stimulus-secretion coupling, C1172
overload, recovery from, cardiomyocytes, H1262
pepsinogen secretion, permeabilized chief cells, G452
permeation, adrenal chromaffin cell calcium channels, C818
photoreleased inositol trisphosphate, *Xenopus* oocytes, C154
physiological concentrations, arterial smooth muscle, C948
postischemic recovery and, preconditioned ischemic heart, C17
potassium channels activated by, myometrium, pregnancy, C1049
protein kinase C isoforms independent of, smooth muscle, C714
- release
bone, bicarbonate role in, F510
diabetic glomerular mesangial cells, F649
sarcoplasmic reticulum, contractions, H1161
- sensitivity, muscarinic stimulation of tracheal muscle, C1258
- signaling, endothelial, C1029
- signaling systems, H₂ receptors and, G967
- stored, inositol phosphate synthesis and, smooth muscle cells, C535
- superoxide responses to C5a and TNF- α , endothelial cells, L51
- transport
intestinal, changes induced by pregnancy and lactation, G127
kidney cortex, F192
unidirectional fluxes of, MDCK cells during junction formation, C313
volume regulatory decrease and, collapsed proximal convoluted tubule, F656
- waves
initiation and development, myocytes, H327
vascular smooth muscle cells, H576
- Calcium antagonists, sodium retention, reversal of, F642
- Calcium channels
adrenal chromaffin cell, calcium and manganese permeation effects, C818
agonist activation of, airway smooth muscle cells, C106
blockade, modulation of antral slow waves, G880

SUBJECT INDEX TO VOLUME 263

- carbachol monitoring of, bronchial smooth muscle, C69
- eicosanoid modulation of, principal cells, F116
- enhanced myogenic response, arterioles, during sympathetic nerve stimulation, H1185
- pulmonary artery relaxation mediated by, chronic hypoxia effects, L88
- renal hemodynamics and, after protein feeding, F1044
- ryanodine receptor isoforms, skeletal or cardiac muscle (frog), C365
- single currents, arterial smooth muscle, C948
- voltage-dependent, portal vein myocytes, H453
- voltage-gated, intracellular calcium, vascular smooth muscle cells, H1292
- volume-induced secretion of ANF and, H939
- Calcium ion channels
 - aortic endothelial cells, H1827
 - calcitonin-secreting C cell line, C986
- Calcium channel blocker
 - diverse effects, glucose transport, skeletal muscle, R70
 - hypoxic contraction, pulmonary arterial, L73
 - neurotensin-induced inhibition, ileal smooth muscle, G767
- Calcium currents
 - action potential conduction and, between ventricular cells (guinea pig), H1591
 - characteristics, portal vein myocytes, H453
 - L-type, temperature dependence of myocytes (guinea pig, squirrel), R177
- Calcium ionophore
 - activity, mast cell granules, L168
 - regulation of prostacyclin production, aortic smooth muscle cells, E800
 - whole cell current transients, RBL-2H3 cells, C736
- Calcium ions

SUBJECT INDEX TO VOLUME 263

Cystic fibrosis gene, expression and regulation, liver regeneration, C55
 Cystine dimethyl ester, sodium-dependent transport and, LLC-PK₁ cells, C516
 Cytochalasin B, protection from chemical hypoxia and, hepatocytes, C684
 Cytochalasin D, actin cytoskeleton and, bladder epithelial cell (toad), C995
 Cytochrome c oxidase, thyroid status effects, during chronic stimulation, C788
 Cytochrome oxidase activity, swimming performance and (fish), R1042
 dietary, mitochondrial function and, H1479
 Cytochrome P₄₅₀
 epoxygenase, cerebral circulation and, H519
 genes, intestinal crypt-villus axis, G215
 lung, hypoxic pulmonary vasoconstriction and, L446
 Cytokines
 albumin flux and, pulmonary artery transendothelial, L128
 antibodies to, liver regeneration after partial hepatectomy and, G579
 bioactive secretion, cigarette smoking effects, L471
 central actions, lipocortin inhibition, E632
 central regulation and, feeding, R1222
 differential effects, β -cell replication, fetus, C114
 enhancement, oxygen tolerance, L22
 fibrin turnover and, fibroblasts, L487
 increased endothelial permeability induced by, extracellular matrix effects, L627
 inflammatory
 magnesium deficiency and, R734
 within CNS, C1
 inhibition, hepatic ketogenesis, E897
 intrapulmonary production, during *Can-
 dida* sepsis, L526
 ketogenesis and, E301
 LPS fever suppression and, R653
 lymphocyte adhesion and, colonic carcinoma, G864
 neutrophil accumulation and, trachea, L708
 TNF- α -induced alterations and, cardiopulmonary function, H761
 Cytoskeleton
 actin, cytochalasin D effects, bladder epithelial cells (toad), C995
 leukocyte emigration, phalloidin prevention of, H1637

D

Decerebration, cerebellar uvula, sympathetic responses to anesthetics, H1285
 Defibrillation, electroporation, cardiac cell membrane, H1128
 Deglutition, coordination of, phases of respiration and, G750
 Dehydration, exercise thermoregulation effects (goat), R201
 Dehydroepiandrosterone, hypertension and, E210
 5'-Deiodinase, circadian rhythm, adrenergic regulation of, harderian gland, E884
 Deoxycorticosterone, regulation of ANF, gene expression and, H1377

Deoxycorticosterone acetate
 exercise-induced proteinuria and, hypertension (miniature swine), R954
 hypertension, diabetes, myocardial performance in, H1798
 thyroid hormone effects, urinary and renal kallikreins, E430
 Deoxycorticosterone acetate-salt, hypertension and, E210
 1-Deoxyglucose, origin and disposal, human body, E268
 2-Deoxyglucose, hypoxia and glycogenolysis, skeletal muscle, E1086
 2-Deoxy-D-glucose, uptake, exercise effects, skeletal muscle, E340
 Deoxyribonucleic acid, hepatocytes, insulin-induced changes, E1106
 Depolarizations, stretch-induced, arrhythmias in left ventricles, H613
 Desimipramine, depletion of diagonal band, baroreflex inhibition of supraoptic neurons and, R363
 Detrusor muscle, hyperplasia, obstructed bladder (guinea pig), R1284
 Deuterium, energy expenditure, doubly labeled water, precision and accuracy, E965
 Development: *see also* Growth; Maturation
 blood pressure, cardiac reflexes (frog), R602
 changes, hindlimb muscles and diaphragm (sheep), R900
 Escherichia coli heat-stable toxin expression, G816
 hard-wired, nutrient transporters, intestine, G593, G605
 intestinal
 postprandial blood flow and oxygenation, G254
 protein synthesis in (lamb), R1318
 lung
 aminopeptidase N expression, fetus, L460
 insulin effects, fetus, L562
 mechanical stretch effects, fetus, L376
 oxygen effect on endothelial cell proliferation, L370
 postnatal effects of prenatal dexamethasone, L37
 response to injury, L308
 TGF- β effects on elastin, L257
 oxytocin prohormone processing, alterations in, fetus (sheep), R738
 pressure, efficiency of, norepinephrine effects, heart, H715
 production of PTH-related protein, mammary gland, E1077
 sodium-calcium exchange during, heart, H1506
 transcriptional activation, jejunal and ileal gut epithelium, G853
 triiodothyronine conversion, before onset of obesity, E115
 Dexamethasone
 ANP-like substance release, cardiocytes (trout), R447
 differentiation induced by, atrial myocytes, H722
 glucose cycling and insulin release with, pancreatic islets, obesity, E663
 hypertension induced by, dehydroepiandrosterone prevention of, E210
 longitudinal bone growth and, E489
 prenatal, postnatal effects on alveoli formation, L37

regulation of ANF, gene expression and, H1377
 upregulation, vasopressin receptors, E1054
 Diabetes
 chronic, erectile and copulatory dysfunction in, E151
 creatine kinase subunit mRNAs in, striated muscle, E310
 DOCA-hypertension and, myocardial performance in, H1798
 functional recovery from cardiac ischemia, fatty acid levels and, E1046
 genetic, G protein levels in adipocytes, C121
 increase in hematocrit and blood flow, sorbinil effects, H945
 insulin-dependent, ketone body metabolism and, forearm, E261
 intensively treated, protein metabolism in, E173
 nocturnal lipolysis and mevalonate production, growth hormone effects, E168
 non-insulin-dependent
 plasma glutathione effects on glucose homeostasis, E435
 proinsulin and insulin dose-response study, E28
 phenylethanolamine *N*-methyltransferase in, hypothalamus, E335
 pressure-volume relations in, right atrium and venoatrial junction, H1017
 salivary glands, functional changes in, E607
 spontaneous EDRF release in, oxygen free radical effects, aorta, H257
 streptozotocin-induced
 cardiac α_1 -adrenoceptors in, E425
 genetic obesity, E550
 rough endoplasmic reticulum and lysosomes, liver, E856
 type 2, fasting and postmeal phenylalanine metabolism, E877
 Diabetes mellitus, bioassay of EDRF, aorta, H676
 Diacylglycerol
 ACh actions and, M-current, gastric smooth muscle cells, C1274
 phosphatidylcholine hydrolysis, type II pneumocytes, L42
 Dialysis, internal, intracellular lithium and, muscle fibers (barnacle), C246
 Diamine oxidase, inhibition, hydroxylamines, G632
 Diaphragm
 breathing dynamics, fractal properties of, fetus (sheep), R141
 developmental changes (sheep), R900
 exercise effects, cellular alterations, R1093
 gastroesophageal competence, reflux and, G551
 Diarrhea
 Escherichia coli heat-stable enterotoxin expression, during development, G816
 ionizing radiation effects, colonic motor activity, G518
 secretory, cGMP and chloride ion transport, intestine, C607
 Diastolic function
 aging effects, rest and exercise, H1932
 endocardial endothelium, intracavitary ultrasound effects, H857

- Diastolic function (*continued*)
 left ventricular, chronic experimental
 aortic regurgitation, H226
 stunned myocardium (pig), H544
 Diastolic properties, left ventricular, during global ischemia, H88
 Dicalciphor, KCN toxicity and, C405
 Dicarboxylates, citrate transport and, proximal cell line, C220
 Diencephalon
 delayed firing rate response, temperature, R679
 neural networks in, thermosensitive, R670
 α -Difluoromethylornithine, gastric mucosal healing and, model, G426
 Digestion, efficiency, reduced food intake and, R852
 Diglyceride, calcium-activated phosphatidylcholine-specific, MDCK cells, C1216
 Digoxin, metabolism and, oxygen transport (pig), H208
 Dihydropyridine
 calcium channels sensitive to, arterial smooth muscle, C948
 membrane currents, calcitonin-secreting C cell line, C986
 1,25-Dihydroxyvitamin D₃: *see* Vitamin D₃
 4,4'-Diisothiocyanostilbene-2,2'-disulfonic acid, ion transport, mantle epithelium (clam), R76
 Diltiazem
 absorptive capacity and, intestine, R19
 diverse effects, glucose transport, skeletal muscle, R70
 hepatic calcium regulation and, during sepsis, R553
 interstitial infusion, sodium and water excretion with, medullary, R1064
 Dimethylamine, chloride fluxes and, resting and stimulated submandibular acinar cells, G558
 Dinitrophenol, electrophysiological effects, Malpighian tubules, R609
 Dipalmitoylphosphatidylcholine
 adsorption and surface sorting, L210
 clearance, alveolar, lung cells, L201
 Dipyradomole
 interstitial adenosine with, H552
 postprandial and reactive hyperemia, jejunum, G487
 Disulfide, epi:ope mapping, prolactin, E520
 Disulfide bonds, gastric hydrogen-potassium-ATPase activity and, β -subunit, C39
 Diuresis
 cholinergic activation of subfornical organ, AV3V lesion and, R1277
 dopamine receptors and, fetus (sheep), R868
 high-output heart failure, chronic captopril and losartan effects, H833
 saline, awake state, H792
 Diving
 arterial blood pressure during, baroreflex control (duck), R693
 forced, metabolic responses (duck), R1309
 nasal water flow, cardiovascular response to, R1049
 Dobutamine
 afterload-induced deterioration, mechanical efficiency, H1201
 extent and velocity of contraction to, awake state (sheep), H1250
 hibernating myocardium, heart, model (pig), H20
 myocardial work and metabolism, post-ischemic, H1724
 Dopamine
 agonist actions, ontogeny of, R631
 content, chemoreceptor cells from carotid body, C1152
 receptors: *see* Receptors
 selective activation, adrenal medulla, R716
 Dose response study
 cosecreted noncompetitive antagonists, soleus muscle, E274
 insulin-mediated glucose uptake, epinephrine effects, muscle, E199
 proinsulin, non-insulin-dependent diabetes, E28
 Double labeled water method, comparison with calorimetry, determining energy expenditure in preterm infant, R685
 Doxazosin, sympathetic nerve stimulation and, α -adrenergic vasoconstriction in myocardium, H1682
 Drinking
 sodium chloride inhibition, gastric motility and food intake, R9
 thirst, angiotensin-induced salt appetite, oxytocin effects, R1347
 Drug-to-drug interaction, cation transport, hepatocyte basolateral membrane vesicles, G939
 Duodenal nerves, intramural, control of gastric emptying, G1
 Duodenum
 calcium transport, changes induced by pregnancy and lactation, G127
 preabsorptive origin, gustatory allies-thesis, R1013
 proximal, electrical activity and neural responses in, G887
 wall and tone, properties of, during migrating myoelectric complex, G795
 Dynorphin, cardiac nerve stimulation and, H153
- E**
- Ear artery, luminal and adventitial adenosine responses, H1437
 Echocardiography, diastolic and systolic performance, chronic experimental aortic regurgitation, H226
 Ectoenzymes
 aortic endothelial, PMA-activated neutrophil effects, L657
 pulmonary endothelial, PMA-activated neutrophil effects, L650
 Ectonucleotidases, ventricular myocytes, adenosine production in, H40
 Ectopeptidase, expression, lung development, fetus, L460
 EDCF: *see* Endothelium-derived contracting factor
 Edema
 cerebral, PAF effects on glycine changes, R909
 pulmonary, pulmonary vascular response to anaphylaxis, R1024
 EDRF: *see* Endothelium-derived relaxing factor
 EGF: *see* Epidermal growth factor
 Eicosanoids
 endothelin-1 and, airway smooth muscle cells, L317
 exercise-induced proteinuria and, hypertension (miniature swine), R954
 interactions, endotoxin, endothelial cells, H1213
 proliferation induced by, airway smooth muscle cells, L555
 release, growth oxygen level effects, lung cells, L454
 uncoupling, cardiac myocyte pairs, neonate, C494
 Elastance, time-varying, retrograde coronary flow, H484
 Elasticity, right atrial, pressure-volume relations, diabetes, H1017
 Elastin
 mesenteric resistance arteries, in pregnancy, R2
 TGF- β influence on, lung fibroblasts and aortic smooth muscle cells, L257
 Elastogenesis, IGF-I regulation of, aortic and lung cells, L276
 Electrical activity, patterns, proximal duodenum, G887
 Electrogastrography, erythromycin effects, gastric myoelectric activity, G24
 Electrolytes
 secretion, regulation of, salivary acinar cells, G823
 transport, galanin-induced alteration, intestine, G502
 Electrophysiology
 atrial, rate dependent differences (rabbit, human), H1747
 epithelial, dinitrophenol and, Malpighian tubules, R609
 identification of vagally innervated enteric neurons, stomach (guinea pig), G709
 outer medullary collecting duct cells, F1004
 postischemic, preconditioned heart, H1732
 Electroporation, cardiac cell membrane, H1128
 Embryo
 epithelial cells, calcium ion homeostasis, intestine (chick), G371
 two-cell, bumetanide-sensitive potassium transport, C773
 Embryology, endocardial endothelium, H985
 Emesis, intragastric copper sulfate effects (ferret), R284
 Enalaprilat
 EDRF-angiotensin II interactions, renal microvascular, F900
 handling, kidney, F858
 Endocardial endothelium, autoregulation, H985
 Endocardium, interstitial adenosine, adenosine deaminase effects, H1322
 Endocrine cells, differentiation, pathways of, colon, G174
 Endocytosis
 bladder epithelial cells, endosomes from (toad), F62
 receptor-mediated, hepatocyte growth factor and, G642
 Endopeptidase, metabolism mediated by, ANF, F546
 Endoplasmic reticulum, lysosomes and, streptozotocin-induced diabetes, E856
 β -Endorphin, pituitary-adrenal axis, central hypovolemia, R156

SUBJECT INDEX TO VOLUME 263

- Endosomes, epithelial cells, bladder (toad), F62
- Endothelial barrier, enhancement, platelet-released factor and, L670
- Endothelial cells
 - aortic
 - calcium ion channels in, H1827
 - PMA-activated neutrophil effects on ectoenzyme activities, L657
 - apical and basal surfaces, comparison of, C573
 - blood flow control, intracellular recording and dye transfer in, H1
 - C-type natriuretic peptides in, H1318
 - dysfunction, elevated glucose, free radical mediation of, H321
 - eicosanoid release, growth oxygen effects, L454
 - gene expression, converting-enzyme, C743
 - glomerular, PGE₂ synthesis in mesangial cells, C200
 - glucose transporters, hypoxia induction of, C326
 - hemoglobin-induced changes and, lymphatic pumping, H1880
 - heparin effects, endothelin-1 actions in hypertension, R1035
 - hypoxia-induced neutrophil adherence to, PAF role in, H956
 - microvascular
 - endotoxin effects on arachidonic acid metabolism, H1213
 - orosomucoid binding to, H48
 - monolayers, neutrophil adherence to, neuropeptides and, G678
 - myogenic vascular response, mechanisms of, H647
 - orosomucoid binding, H48
 - oxidant-stressed, ion transport in, H96
 - permeability: *see* Permeability
 - proliferation, oxygen effects, L370
 - protein kinase C, ICAM-1 expression and, C767
 - pulmonary artery, dexamethasone stimulation of ACE, L645
 - superoxide responses, C5a and TNF- α , L51
 - thrombin receptor peptide binds to, L595
 - umbilical vein, histamine, actin-gelsolin binding, and polyphosphoinositides in, L664
- Endothelin
 - activation, glomerular cGMP increase and, F1020
 - ANF secretion, endothelium-dependent, H1071
 - ANP with, exercise in hypobaric conditions and, R647
 - arterioles sensitive to, renal, F894
 - calcium and membrane potential responses to, simultaneous fluorescence measurement, C1302
 - calcium mobilization, aortic myocytes (hamster), H68
 - constriction induced by, basilar artery, protein kinase C and, H1643
 - coronary microvascular response to, H703
 - epineurial, endoneurial ischemia induced by, sciatic nerve, H1806
 - induction of water diuresis, F516
 - magnesium mobilization and, vascular smooth muscle cells, C873
 - modulation of, femoral arteries, H103
 - multiple responses and, ventricular myocytes, H1447
 - suppression of discharge, baroreceptors, high carotid sinus pressure, R103
 - thoracic inferior vena caval constriction model, heart failure, H951
 - tubuloglomerular feedback, renal hemodynamics and, F103
 - uterus, during pregnancy, E158
- Endothelin-1
 - action, thapsigargin effects, atrial cells, H1689
 - autocrine factor, inner medullary collecting duct, F607
 - cerebral circulation and (goat), R834
 - CGRP-induced vasodilation, ophthalmic artery, H359
 - circulation and, intrapulmonary arteries and veins (sheep), L15
 - coronary artery contractile response to, 17 β -estradiol effects, H271
 - DNA synthesis and, pulmonary artery smooth muscle cells, C1295
 - gene expression, normobaric hypoxia effects, R1260
 - heparin suppression of, spontaneous hypertension, R1035
 - low-dose, volume-induced secretion of ANF and, H939
 - receptors: *see* Receptors
 - regulation, airway smooth muscle cells, L317
- Endothelin-1 mRNA, downregulation of, fluid shear stress and, aortic endothelium, C389
- Endothelium
 - microvascular, orosomucoid binding to, H48
 - pulmonary vascular, platelet adhesion to, cGMP inhibition, H606
- Endothelium-derived constrictor factor, cGMP pathway and, carotid artery wall properties, H61
- Endothelium-derived contracting factor heterogeneity of, nitro-L-arginine resistance and, H1090
- hypoxia-elicited contraction, aorta and coronary artery, H1339
- Endothelium-derived relaxing factor
 - angiotensin II interactions, juxta-medullary afferent and efferent arterioles, F900
 - bioassay of, diabetes, aorta, H676
 - cerebrovasodilation and, cerebellar fastigial nucleus, R1156
 - cGMP pathway and, carotid artery wall properties, H61
 - circulation and, intrapulmonary arteries and veins (sheep), L15
 - collateral flow and, after arterial occlusion, ear, H752
 - contractile response to, 17 β -estradiol effects, coronary artery, H271
 - cysteine-containing, SPM-5185 effects, myocardial ischemia-reperfusion, H771
 - decreased serotonin contraction and, carotid and uterine arteries during pregnancy (guinea pig), H1764
 - dietary arginine effects, nephrosis, F907
 - dysfunction, after myocardial ischemia, H850
 - endothelin and cGMP, glomerulus, F1020
 - exogenous, transitional pulmonary circulation and, H875
 - hypoxia-elicited contraction, aorta and coronary artery, H1339
 - methylene blue effects, pulmonary vascular bed, L575
 - portal-systemic collaterals, portal hypertension, G544
 - potassium channel activation, pulmonary vasodilation and, H1363
 - prostacyclin and, myocardial ischemia, H1390
 - prostaglandins and, effects on lung, H660
 - release, endothelial cGMP and, L113
 - renal autoregulation and, awake state, F208
 - renin release and, F256
 - role in splanchnic blood flow, chronic portal hypertension and, G149
 - spontaneous, relaxation of release, diabetic aorta, H257
 - vascular function, hypoxic regulation of, R45
- Endotoxemia
 - cysteinyl leukotriene formation, serum complement mediation of, liver, G947
 - myocyte contractility in, nitric oxide effects, H1963
 - vascular tissue contractile function and, H1628
- Endotoxin
 - arachidonic acid metabolism and, microvascular endothelial cells, H1213
 - fever induced by, modulation by endogenous glucocorticoids, R423
 - glucose response to, modulation by granulocyte colony-stimulating factor, R1122
 - increased glucose uptake and, leukocyte depletion, R1324
 - ketogenesis and, E301
 - sustained exposure, vascular tissue contractile function and, H1628
- Energetics
 - cardiac, 2,3-butanedione monoxime effects, H1811
 - transmembrane signaling and, chronic administration of cardiovascular drugs (turkey), H1576
- Energy
 - expenditure
 - bicarbonate turnover measurement, E676
 - body temperature and metabolic rate variations, E730
 - daily, aerobic fitness level relations, E121
 - determination of, preterm infant, R685
 - doubly labeled water, precision and accuracy of, E965
 - endurance training effects, aging, E950
 - moderate cold exposure effects, women, E1040
 - resting, pregnancy, E624
 - sodium acetate and, R1271
 - visceral fat accumulation and, obesity, E913
 - intake, protein degradation, muscle, E1144
 - metabolism
 - aging and, E448
 - bicarbonate/carbon dioxide regulation of, F342
 - brain, anoxia tolerance (turtle), R1298

- Energy (*continued*)
 production, muscle acidity and, exhaustive exercise, R891
 regulation, underfeeding and, normal-weight young men, R250
 restriction, triacylglycerol depletion during fasting, R233
 status, exercise training effects on myocardial ischemia, H804
- Enkephalin, biosynthesis, myocytes, H1560
- Enteric nerves, inflammation, impaired acetylcholine release, intestine, G198
- Enteric nervous system
 cholinergic neurons, intestinal anaphylaxis and, G847
 electrolyte transport, galanin effects, intestine, G502
 5-hydroxytryptamine actions, gastric antrum (guinea pig), G838
 inhibitory junction potentials, guanylate cyclase inhibitor effects, G87
 nitric oxide synthase colocalization in, proximal colon, G277
 submucosal reflexes, distension-evoked ion transport (guinea pig), G91
 vagally innervated neurons, electrophysiological identification, stomach (guinea pig), G709
- Enterocytes, villus and crypt, band 3-related protein, ileum, G345
- Enterotoxin
 heat-stable
Escherichia coli, during development, G816
 stimulation of chloride ion transport, intestine, C607
- Entrainment, aging effects, circadian locomotor activity, R1099
- Epicardium
 interstitial adenosine, adenosine deaminase effects, H1322
 perfused, anisotropic conduction and reentry, left ventricle, H1466
- Epidermal growth factor
 endothelin-1 stimulation of DNA and pulmonary artery smooth muscle cells, C1295
 metabolic consequences, neonate, E920
 prohormone, secretion in urine, E142
 renal tissue repair and, model of gentamicin nephrotoxicity, F806
 S6 kinase activity and, proximal tubules, F127
 smooth muscle proliferation and, aortic, C420
- Epidermoid A 431 cells, calcium increase in, heat-induced, C30
- Epididymis, plasma membrane, proton ATPase in, C913
- Epinephrine
 blood oxygen content relations, during hypoxia (trout, eel), R240
 cerebrospinal fluid, behavioral arousal and myocardial ischemia, H83
 corticosterone and, role during anoxia and recovery (turtle), R770
 dietary obesity, adipose tissue lipolysis and, female, R1248
 free and sulfoconjugated, responses at birth (sheep), E23
 hypothalamic PNMT and, diabetes, E335
 hypoxia and, skeletal muscle, E1086
 insulin-mediated glucose uptake and, muscle, E199
- interleukin-1-induced corticosterone release and, adrenal gland, E461
 ketogenesis induced by, lipolysis and, E250
 lipolysis induced by, recombinant human growth hormone effects, E467
 lymphatic constriction, adrenoceptors and, H473
 mediation, sepsis-induced insulin resistance, E703
 modulation of cell calcium, hepatocytes (fish), E512
 platelet, trait anxiety and aerobic fitness, E245
 selective activation, adrenal medulla, R716
 thermogenesis after surgery and, E441
 thermogenic response to, adipose tissue, E850
- Epiphysis, longitudinal growth, dexamethasone effects, E489
- Epithelial cells
 airway, induction of intracellular adhesion molecule-1 by interferon- γ , L79
 alveolar type II, processing of surfactant protein B by cathepsin D-like protease, L95
 bladder
 cytochalasin D effects on actin cytoskeleton (toad), C995
 endosomes from (toad), F62
 bronchial, neutrophil chemotaxis by tachykinins, L226
 bronchiolar, intracellular calcium ion transport, L122
 embryonic and neonatal, calcium ion homeostasis in (chick), G371
 gastric, regulation of gene expression, G186
 nonciliated bronchiolar, surfactant protein D in, L60
 pancreatic, sulfate transport, cystic fibrosis transmembrane regulator, C176
 renal
 posthypoxic injury, xanthine oxidase effects, F251
 restricted diffusion of macromolecules, L27
 sodium-hydrogen exchangers, metabolic acidosis effects, F83
 respiratory, tracheal smooth muscle-constricting factor released by, L137
 tracheal, chloride-transporting membrane vesicles, C888
 tubular, altered proteoglycan synthesis, F697
- Epithelium, mantle, ion transport (clam), R76
- Eptirochlearis muscle
 exercise, IGF-I action on, E340
 glucose transport, calcium channel blocker effects, R70
- EPO: see Erythropoietin
- Epoxycosatrienoic acids, cerebral, action on cerebral arterial smooth muscle, H519
- Epoxygenase, cytochrome P₄₅₀, cerebral circulation and, H519
- Erectile dysfunction
 chronic diabetes, E151
 intercellular diffusion of calcium, corporal smooth muscle cells, C373
 kinetic contractions, corpus cavernosum smooth muscle, H15
- Erythrocytes
 cerebral, isovolemic hemodilution and, H75
 membranes, kidney sodium-potassium pumps in, C1007
 potassium-chloride cotransport, C917
 potassium fluxes in, oxygenation-activated (trout), C1057
 regional hematocrit and blood flow, diabetes, H945
- Erythromycin
 motor effects, upper gastrointestinal tract, G52
 myoelectric activity and, gastric, G24
- Erythropoietin
 formation, renal innervation role in, F925
 metabolism, pharmacokinetics and, experimental nephrosis, F812
 mRNA, feedback modulation, hepatic and renal, F474
 production, IGF and, hepatoma cells, C474
 secretion rate, uremia and, F939
- Escherichia coli*, heat-stable enterotoxin, during development, G816
- Esophageal cells, cytoplasmic pH regulation, G407
- Esophageal sphincter
 lower
 CCK-8 mechanism of action in, G419
 diaphragmatic contribution to competence, G551
- Esophagus
 circular smooth muscle, chloride-mediated inhibitory junction potentials in (opossum), G135
 cytoplasmic pH regulation, G407
 hiatus, diaphragmatic contribution, G551
 inhibitory junction potentials, guanylate cyclase inhibitor effects, G87
 lower sphincter
 guanylate cyclase inhibitor effects, G97
 tone and relaxation, chloride ion role in, G115
 smooth muscle, myogenic mechanism for peristalsis (opossum), G953
- Estradiol
 brain opioid binding sites and, castrated females, E507
 stimulation, angiotensinogen mRNA levels, pituitary, E355
- 17 β -Estradiol, contractile response to endothelin-1 and, coronary artery, H271
- Estrogen
 glucose use and, whole animal and tissue (trout), R1241
 phosphorus deficiency and (cattle), R656
 stimulation, angiotensinogen mRNA levels, pituitary, E355
 vasodilation induced by, angiotensin II and α -adrenergic receptors during, E837
- Ethylenediaminetetraacetic acid, coronary microvascular response to, H703
- Excitability, magnesium effects, heart, H622
- Exercise
 aerobic fitness
 daily energy expenditure relations, E121
 trait anxiety and, platelet catecholamines and, E245

cellular alterations induced by, diaphragm, R1093
 effects on IGF-I action, skeletal muscle, E340
 endurance training, total energy expenditure and, aging, E950
 exhaustive
 glutathione oxidation and, blood, R992
 muscle acidity and energy production during, R891
 forearm vascular resistance after, baroreflex regulation of, H1523
 free fatty acid-glucose cycle in, E646
 glucocorticoid-induced muscle atrophy, glutamine synthetase induction and, E1157
 GLUT-4 glucose transporters and, muscle, E362
 ischemia induced by, superoxide dismutase and catalase effects, H392
 muscle, forearm, intramuscular heterogeneity in, C357
 pericardial restraint, effects on heart size and cardiac output, H1675
 physical, hypobaric conditions, ANP secretion, R647
 pressor and vasoconstrictor responses, glycogen depletion lactate reductions and, H1499
 prolonged, peripheral metabolism and, E345
 protein degradation and, muscle, E1144
 proteinuria induced by, in hypertension, indomethacin effects (miniature swine), R954
 reflex cardiovascular responses to, circulating vasopressin effects, R1104
 rest and, aging effects on left ventricular filling, H1932
 rhythmic contraction, muscle, blood flow and oxygen uptake with, H1078
 spontaneous physical activity, obesity and, E296
 substrate oxidation in, E64
 swimming, performance correlates (fish), R1042
 thermoregulation, hydration state effects (goat), R201
 training
 aging interactions, myocardial interstitium, H778
 cardiac function after ischemia, H804
 GLUT-4 content and, muscle, obesity, E1015
 insulin-mediated glucose uptake and, muscle, E1134
 vasomotor reactivity and, coronary arteries (pig), H372
 ventricular inotropic response to, during pressure overload, H1011
 Extracellular matrix
 alveolar type II cell interaction, hydrophobic proteoglycans, L348
 degradation, plasmin and gelatinase release in, mesangial cells, F1112
 TNF- α -induced increase in endothelial permeability and, L627
 Extracellular space, regional distribution of, contractile and conductive elements, heart, H168

F

F-actin
 cytoskeleton, cytochalasin D effects, bladder epithelial cells (toad), C995

immunogold labeling, vasopressin effects, bladder granular cells (toad), C908
 Fasting
 cold exposure and, sympathetic nervous system activity and, kidney, F586
 hibernation and, ion secretion, intestine (squirrel), R1203
 hyperoxia-induced lung injury and, prematurity (guinea pig), L357
 insulin responsiveness and, isolated working heart, E556
 intraluminal content, migrating motor complex response to, G533
 maternal, hyperinsulinemia effects on fetal leucine kinetics (sheep), E696
 plasma creatine in, neonate (seal), E570
 postmeal phenylalanine metabolism and, type 2 diabetes, E877
 prolonged, glucose production during, glucagon effects, E541
 triacylglycerol retention during, liver and serum, R233
 Fat
 absorption, lymphatic flux of hyaluronan during, intestine, G6
 body weight regulation, underfeeding and, normal-weight young men, R251
 dietary
 diet selection and, serotonin effects, R559
 insulin sensitivity and, R785
 obesity, reversal of, female, R790
 sympathetic nervous system activity and, kidney, F586
 emulsion infusion, glucose kinetics after, neonates, E844
 visceral, accumulation, obesity, E913
 Fatty acids
 bile acids and, mixed micelles, lytic effects of, G333
 circulating, uptake, intestine, G927
 free
 control in adipose tissue, ectotherm vertebrates, R857
 epinephrine-induced ketogenesis and, E250
 glucose cycle, exercise and, E646
 growth hormone effects, E980
 interleukin-1 and tumor necrosis factor effects, E301
 metabolism, insulin effects, obesity, E79
 metabolism, regulation by insulin, E1063
 TNF- α and, liver, E897
 whole body and regional kinetics, E597
 high level, functional recovery of ischemia and, diabetic heart, E1046
 metabolism, fat availability effects, skeletal muscle, C653
 modulation, sodium conductance, skeletal muscle, C308
 nonesterified, metabolism, prolonged exercise and, E345
 plasma carnitine and, fasting neonates (seal), E570
 polyunsaturated, intestinal absorption, glutathione effects, G665
 triglyceride, synthesis, 3T3-L1 cells, spectral analysis of, E667
 uptake, hepatic, sex differences, G380

Feedback
 aging alterations of, activity-rest cycle of circadian clock, R981
 mechanoelectrical
 arrhythmias in left ventricles, H613
 ventricular loading and repolarization, H816
 modulation, renal and hepatic erythropoietin mRNA, F474
 tubuloglomerular
 adenosine receptor gene expression, F991
 after protein feeding, F1044
 EDRF effects on renin release, F256
 endothelin effects, F103
 Feedback pathways, pyloric motility, duodenal intramural nerves and, G1
 Feeding
 amino acid imbalance and, prepyriform cortex, R885
 bone appetite, phosphorus depletion effects (cattle), R656
 CCK satiety effects, abdominal vagal mediation of, R1354
 central regulation, interferons and, R1222
 cholesterol, adverse effects of, macrophage mediation, nephrosis, F776
 cyclic myoelectric activity after, small intestine, G248
 diet, calorie restriction, baroreflex responsiveness and, H1021
 dietary control, intestinal nutrient transport, R496
 dietary fish oil, mitochondrial function and, H1479
 dietary protein deficiency
 muscle protein turnover and amino acid degradation with, E317
 proteolytic pathways and, E326
 energy metabolism, aging and, E448
 fish and safflower oil, subcellular glucose transporter in adipocytes and, E94
 food intake
 A71623 effects, R125
 bombesin-induced satiety, somatostatin and, R84
 capsaicin effects on body temperature reduction, R1215
 digestion efficiency and, R852
 early insulin response after (geese), R782
 intraventricular CCK-8 effects (baboon), R863
 lesions of hypothalamic paraventricular nucleus and, R39
 sodium chloride inhibition of, R9
 suppression of, near-arterial CCK, R572
 TNF- β regulation of sleep, fever, and anorexia, R703, R708
 food restriction
 absence of suprachiasmatic nucleus and (hamster), R353
 hyperoxia-induced lung injury and, prematurity (guinea pig), L357
 food selection, serotonin effects, dietary fat and, R559
 high-fat diet
 incorporation of triacylglycerol into hepatic VLDL, E615
 obesity induced by, reversal of, female, R790
 high-protein diet
 arginine effects on albumin synthesis, nephrosis, F907

Feeding (*continued*)

- renal concentration capacity and, F1051
- renal growth and renin expression with, F427
- high-starch diet, digestion efficiency and, R852
- hunger and fullness, CCK-8 effects, women, R452
- hypercholesterol diet, changes in viscoelastic properties of carotid artery (pig), H1919
- intra-gastric, gastric emptying during and after, R813
- intra-hypothalamic metallothioneins, weight loss and, R805
- low- or high-fat diet, whole body insulin sensitivity, R785
- meal-associated conditioning, insulin secretion, R615
- meals, stimulation of albumin synthesis, E794
- nutrient composition effects, postprandial blood flow and oxygenation, developing intestine, G254
- prolonged food restriction, glucose and insulin in, E1
- protein, control of renal hemodynamics after, F1044
- rhythm, advance shift of, obesity progression and, R1169
- schedules, circadian rhythms and (hamster), R116
- selenium-deficient diet, glomerular disease, experimental, F56
- thermic effect of food, fitness level and energy expenditure relations, E121
- underfeeding, energy regulation and, normal-weight young men, R250
- Femora, bone proteins, tissue-specific expression, growth and, E724
- Femoral artery
 - blood flow increase in, modulation of nitric oxide and endothelin by, H103
 - smooth muscle, isometric biaxial tension of, H30
- Femoral bed, albumin coating, extracorporeal circuits and autoregulation, H1397
- Femoral vein, myogenic tone, H315
- Fenoldopam, dopamine receptor-mediated natriuresis and, R631
- Fetuin, fetal serum (calf), C551
- Fetus: *see also* Lactation; Placenta; Pregnancy
 - acute hypoxia, insulin-like growth factors and their binding proteins in (sheep), E1151
 - breathing dynamics, fractal properties of (sheep), R141
 - cardiac bypass effects (sheep), H919
 - β -cell replication, cytokines and, C114
 - cerebrovascular regulation, vasopressin and, R376
 - chemoreceptor responsiveness (sheep), H162
 - chronic urine loss, fetal-maternal fluid and electrolyte relations (sheep), F671
 - circulatory dynamics, periodic intracranial hypertension (sheep), R95
 - corticosteroid secretion, adrenal (sheep), R936
 - dopamine receptor activation, renal function (sheep), R868

- endocrinology, peptide processing during development (sheep), R738
- extrapituitary ACTH secretion, prostaglandin E_2 stimulation of (sheep), R136
- fetuin in serum (calf), C551
- glycosaminoglycan synthesis, PDGF effects, lung cells, L495
- growth retardation
 - heat-induced, glucose transport and, R578
 - single umbilical artery ligation-induced, E575
- hepatic and placental growth, ontogeny of (sheep), R619
- insulin effects, β -adrenergic responses in lung cultures, L562
- late gestation, maximum myocardial blood flow enhanced by hypoxemia (sheep), H1327
- lung cell proliferation, mechanical stretch effects, L376
- lung development
 - aminopeptidase N expression in, L460
 - origin and lineage of macrophages, L299
- nonlethal hypoxia, hindlimb metabolic adaptation to, R113
- pulmonary vascular tone, ATP-sensitive potassium channels and, H1363
- response to hypoxia, heart rate, vasopressin, and renin (sheep), R880
- secretion of ANP, vasoconstrictor-induced (sheep), E526
- surfactant protein C, alternative splicing and regulation, lung, L634
- transcriptional activation, jejunal and ileal gut epithelium, G853
- transitional pulmonary circulation, exogenous nitric oxide effects, H875
- vascular impedance in, thoracic aortic pressure-flow relations and (sheep), H824
- Fever
 - bacterial infection, vasopressin role in regulation of, R1235
 - central actions of cytokines, lipocortin inhibition, E632
 - endotoxin-induced, modulation by endogenous glucocorticoids, R423
 - growth hormone-releasing hormone antibodies, sleep and, R1078
 - induction, TNF- β , R703, R708
 - influenza virus, sleep and acute phase response changes, R1115
 - interferons, central regulation of feeding and, R1222
- LPS
 - interleukin-1 suppression of, R653
 - TNF- α attenuation of, R987
- Fiber radius, values for, hydraulic conductivity of basement membrane, H1417
- Fibrillation, thresholds, acute ventricular dilatation effects, heart, H1306
- Fibrin, turnover, cytokines and, fibroblasts, L487
- Fibrinogen, albumin synthesis, meal stimulation of, E794
- Fibrinolysis, cytokines and, fibroblasts, L487
- Fibroblast growth factors, oxygen inactivation of, endothelial cell proliferation and, L370

Fibroblasts

- β_2 -adrenoceptor density in, sodium-chloride sensitivity and, C623
- angiotensin detection in, C851
- fibrin turnover, cytokines and, L487
- gap junctions, differences, C959
- glycosaminoglycan synthesis, PDGF effects, fetus, L495
- lung, spontaneous production of PDGF, L185
- orbital, interferon- γ as plasminogen activator inhibitor, C24
- pulmonary, monocyte chemotactic peptide derived from, L536
- Fibronectin
 - differential production, lung fibroblast subpopulations, L283
 - extracellular permeability to, extracellular matrix effects, L627
 - synthesis, tissue injury and ischemia, G437
- Filters, small-pore, restricted diffusion of macromolecules, L27
- Filtration
 - dynamics, response to volume expansion, F284
- glomerular
 - adenosine and polyadenylic acid effects, F816
 - after protein feeding, calcium channels and, F1044
 - ANP and angiotensin II interactions, awake state, R537
 - EDRF effects, F208
 - lipoxin actions and, F436
 - urea and water, glucagon effects, F24
- Fish oil
 - dietary
 - mitochondrial function and, H1479
 - subcellular glucose transporter in adipocytes and, E94
- Fitness: *see* Exercise
- Flow
 - coronary
 - adenosine for reactive hyperemia (pig), H1119
 - autoregulation and oxygen transport, H691
 - chronic hypoxemia, late gestation fetus (sheep), H1327
 - perfusion, nasal mucosa (seal), R1291
 - transphincteric, bile, sphincter of Oddi regulation, G683
- Flowmetry
 - laser-Doppler
 - microcirculatory changes, spinal cord, H285
 - microvascular perfusion in sepsis, G38
 - prostaglandins in gastric blood flow, G446
- Fluid
 - airway, filter paper equilibration, L243
 - amniotic, electrolyte relations, chronic urine loss and (sheep), F671
 - cerebrospinal: *see* Cerebrospinal fluid
 - fetal-maternal, electrolyte relations, chronic urine loss and (sheep), F671
 - interstitial, intestinal, oxidant stress effects, G573
 - secretion, regulation of, salivary acinar cells, G823
 - suction effusion, skin surface, H1623
- Fluorescence, x-ray, measurement of regional blood flow, H1946
- Fluorocarbon, APE-LM emulsion with, cardiac preservation and, H730

Fodrin, cytoskeleton, dissociation of sodium-potassium-ATPase from, proximal tubules during ischemia, F488

Folate, transport, proximal tubule cells, F841

Force, rate of rise, fatigue effects, muscle, C1065

Force-frequency relations, response toryanodine and, failing heart, H1710

Force transducer, micromechanics studies, C700

Force-velocity relations, skeletal muscle, response to hypothyroidism, C86

Forearm, metabolism, epinephrine, thermogenesis, E850

Formate, volume absorption and, proximal tubule, F37

Forskolin
conductive anion pathways and, skin (toad), C166
control in adipose tissue, ectotherm vertebrates, R857
cultured smooth muscle cells, colonic, G365
phorbol ester effects and, potassium and chloride conductance, HT-29c1.19a cells, C759

Frank-Starling mechanism, contractile performance, ventricular ischemia (pig), H135

Freezing, cryomicroscopic analysis, liver (wood frog), R185

Fructose, hypoxic injury and, liver, G293

Fructose 6-phosphate, cycle, glucose turnover and, E17

Fura-2
calcium entry and, parietal cells (fish), C1310
calcium signaling, endothelial, C1029
calcium waves and calcium release, vascular smooth muscle cells, H576
cell calcium, modulation by epinephrine, hepatocytes (fish), E512
histamine-induced chloride secretion and, nasal epithelium, C1190

Furosemide
cochlear outer hair cells, C1088
inhibition of sodium transport, intrarenal pressure during, R1182
ischemia, cardiac, H333
lithium reabsorption and, kidney, F1128

G

Gadolinium, calcium influx and, pulmonary arterial smooth muscle cells, L602

Galactol, aldehyde reductase and polyol production, kidney, F799

Galactose, oral load, glycogen synthesis regulation after, E43

Galanin
alteration of electrolyte transport, intestine, G502
norepinephrine and, release, pancreatic sympathetic nerves during hypoglycemia, E8

Gallbladder
ion transport regulation, apical membrane (*Necturus*), C187
mucosal function, absorption and secretion (human, dog), G69

Ganglionectomy, superior cervical, 5'-deiodinase circadian rhythm, E884

Gas
blood
aspirin effects on blood flow, stomach, G155
cardiac bypass effects, fetus (sheep), H919
during pregnancy, awake state, H1911
exchange, postnatal effects of prenatal dexamethasone, L37
hydrogen, clearance, gastric mucosa, G810

Gas chromatography mass spectrometry, tracer analysis, stable isotopes, model, E584

Gaseous metabolism, hypoxia and ambient temperature effects, newborn, R267

Gastric acid
output, hypothalamic neuropeptide Y effects, G726
secretion
CCK inhibition of, G287
H₂ histamine receptors and, G967
histamine release and, oxyntic mucosal cells, G460
inhibition of, interleukin-1 β effects, hypothalamic sites, G414
mucosal blood flow and, in renal failure, G75
prostaglandin role in, G446
structural requirements of peptide YY, G695

Gastric antrum
gastrin secretion, somatostatin restraint of, G908
myenteric neurons, 5-hydroxytryptamine actions in (guinea pig), G838
slow waves, electrical activity, G880

Gastric distension, CCK-8 effects on hunger, women, R452

Gastric emptying
axial forces during, measurement of, G230
Cisapride and, awake state, G202
control, duodenal intramural nerves, G1
dynamics of, during and after stomach fill, R813
electrical patterns and neural responses, proximal duodenum, G887
pylorus innervation in control of, G161

Gastric mucosa
blood flow: see Blood flow
cell injury, *Helicobacter pylori*-associated ammonia production and, G719
damage, ischemia-reperfusion injury, G301
growth
IGF-I inducement of, E282
protein kinase C and ornithine decarboxylase, G742
healing, migration of IEC-6 cells, model, G426
hyperemia, capsaicin-induced, mast cells in, G209
injury
aspirin effects on blood flow, G155
aspirin-induced, G920
ion secretion
after jejunal bypass (squirrel), R1209
hibernation and fasting effects (squirrel), R1203
total parenteral nutrition, systemic sepsis and glutamine effects, E368

Gastrin
glycine-extended, pharmacokinetics of, G802

induction, histamine release, oxyntic mucosal cells, G460
secretion, somatostatin restraint of, G908

Gastrocnemius muscle, fat availability effects, acetyl-CoA and acetylcarnitine metabolism, C653

Gastroesophageal reflux, cytoplasmic pH regulation and, G407

Gastrointestinal tract
fasting, varying intraluminal content effects, G533
sodium-D-glucose cotransport kinetics in (teleost), R1018
upper, motor effects of erythromycin, G52

GC-MS: see Gas chromatography mass spectrometry

Gelatinase, extracellular matrix degradation and, mesangial cells, F1112

Gel electrophoresis, two-dimensional, insulin-induced changes in hepatocytes, E1106

Genes
early growth response
differential expression, A5 cells, G934
induction, vasoactive agent effects, mesangial cells, F623
pulmonary, cloning, L546

Gene expression
adenosine receptor, kidney, F991
adenyl cyclase activity, skeletal muscle, E226
ANF secretion and, corticoid regulation of, H1377
cardiac, thyroid hormone effects, E534
CCK, bombesin, and carbachol effects, pancreatic acini, G327
chloride conductance, *Xenopus* oocytes, F979
choroid plexus, conservation of, R195
endothelin-1, normobaric hypoxia effects, R1260
feedback modulation, liver and kidney, F474
glucose transporters, regulation of, heart, E562
mitochondrial, anemia and, skeletal muscle, C429
myocardial, stretch-dependent regulation of ANP synthesis, E239
ODC, keratinocytes, C1103
regulation of, gastric epithelial cell populations, G186
sodium-calcium exchanger, proximal tubule, F945
surfactant, pulmonary, cloning, L546

Gene regulation
antioxidant enzyme, lung, L466
disuse osteopenia, bone proteins in growth, E1029
fluid shear stress and, aortic endothelium, C389

Gene transcription, albumin and apolipoprotein B, oncotic pressure effects, hepatoma cells, C397

Gentamicin, nephrotoxicity, epidermal growth factor effects, model, F806

Gestation
late, serine fluxes in fetus (sheep), E786
signal transduction pathway, PG receptors and, myometrium, C257

GH₃ pituitary cells, anterior, chemical modification of calcium ion-activated potassium channels, C1081

- Gills, oxygen transfer, digital image analysis (shark), R741
- Glial cells
brain, osmoregulation of sodium-inositol cotransporter, C1282
CNS, inflammatory cytokines in, C1
inositol loss, volume regulatory, C412
- Glubenzamide
basal coronary blood flow and, anesthesia, H399
CGRP-induced vasodilation, ophthalmic artery, H359
insulin secretion and, during sympathetic stimulation, pancreas, E72
- Glomerulonephritis
cyclooxygenase inhibition and, F228
iron toxicity, tubule, F637
- Glomerulopathy
membranous, extent of glomerular injury in, F1034
progressive, macrophage mediation of cholesterol effects, F776
- Glomerulosa cells
adrenal zona, potassium ion channels in, E752, E760
DHP-sensitive calcium conductance, ANP receptor subtypes, C334
- Glomerulosclerosis
enalapril and, obesity, F496
lipoproteins, mesangial cell function and, F686
macrophage mediation of cholesterol effects, experimental nephrosis, F776
- Glucagon
basal, hepatic glucose production and, awake state, E541
glomerular filtration rate and, urea and water excretion, F24
protein synthesis and, skeletal muscle, E453
receptors: *see* Receptors
signal transduction system, bile duct cells, G527
- Glucocorticoids
adrenal, secretion, fetus (sheep), R936
albumin synthesis, meal stimulation of, E794
differentiation induced by, atrial myocytes, H722
glucose cycling and insulin release with, pancreatic islets, obesity, E663
healing of intestinal anastomoses, after adrenalectomy, R164
inhibition, aldosterone, colon, F443
insulin interactions, genetic obesity, E550
longitudinal bone growth and, E489
modulation of fever, endotoxin-induced, R423
osteopenia induced by (beagle), E136
regulation
ANF, gene expression and, H1377
cyclooxygenase synthesis, mesangial cells, F97
sleep modulation, bacterial infection and, R1339
surfactant protein C and, alternative splicing and regulation, fetus, L634
upregulation, vasopressin receptors, E1054
vasopressin and angiotensin II control of, water deprivation effects, R762
- Gluconeogenesis
endotoxin effects, granulocyte colony-stimulating factor and, R1122
- glucose production and, prolonged fast, awake state, E541
rate of, carbon dioxide use in estimation, hepatic, E36
stimulation, hepatocyte membrane potential, G319
ureagenesis and, liver, E493
- Glucoregulation
central, stress hyperglycemia and, E823
free fatty acid-glucose cycle in, insulin absence during exercise, E646
- Glucose
binding, sodium alteration of, renal brush-border membranes, C509
blood, meal-associated conditioned insulin secretion and, R615
contractile and conductive elements, heart, H168
cycling, glucocorticoid effects, pancreatic islets, obesity, E663
endothelial cell dysfunction and, free radical mediation of, H321
food intake, early insulin response after (geese), R782
free fatty acid cycle, exercise and, E646
gastric emptying, during and after stomach fill, R813
glucose 6-phosphate cycle, insulin action and, growth hormone effects, E980
GLUT-4 transporters, aging and exercise effects, E362
homeostasis, plasma glutathione effects, diabetes, E435
hypocapnic-hypoglycemic interactions, cerebrum, H1864
insulin-mediated uptake, epinephrine effects, muscle, E199
insulin release induced by, pancreatic islets, E890
insulin secretion and, hyperglycemia and, athymic nude mice, E1131
ion recovery and, during reperfusion, ischemic heart, C17
kinetics, low-birth-weight neonates, E844
labeled, measurement of glucose turnover and, E17
lipoxygenase localization and, pancreatic islets, E828
measurement, suction effusion fluid, skin surface, H1623
metabolic adaptation, pregnant-lactating females, E766
metabolic response to endotoxin, modulation by granulocyte colony-stimulating factor, R1122
metabolism
gender and aging effects, E780
insulin effects, obesity, E79
insulin responsiveness and, working heart, E556
oral load, glycogen synthesis regulation after, E43
production
hepatic, basal glucagon effects, awake state, E541
rate of appearance in non-steady state, model, E400
regulation, hormones, anoxia and recovery (turtle), R770
tracer infusion, whole body and regional kinetics, E597
transport
cDNA and, kidney, F459
intestines, R458, R472
- muscle, calcium channel blocker effects, R70
muscle, obesity, E1015
pathways for, type II pneumocytes, adult lung (guinea pig), L612
sodium-dependent, renal brush-border membrane, F144
- transporter
expression, hypoxia and, endothelial cells, C326
GLUT-1 and GLUT-4, sorting of, insulin-regulated, adipocytes, E383
postnatal expression of, E102
red and white muscle, C443
subcellular, fish and safflower oil effects, adipocytes, E94
transport system, ventromedial hypothalamic stimulation effects, R1228
turnover, proinsulin dose-response study, non-insulin-dependent diabetes, E28
- uptake
insulin-mediated, training effects, muscle, E1134
muscle glycogen and adipose tissue triglycerides, E473
sepsis- and endotoxin-induced, leukocyte depletion and, R1324
sepsis-induced insulin resistance, E703
use, whole animal and tissue, estrogen effects (trout), R1241
utilization, prolonged food restriction and, E1
- D-Glucose
L-glutamine with, stimulation of oxidative metabolism, G960
kinetic heterogeneity, gastrointestinal tract (teleost), R1018
- Glucose-6-phosphatase, cycling, glucocorticoid effects, pancreatic islets, obesity, E663
- Glucose tolerance test, role of sympathetic nervous system activity, insulin release and hypertension, E935
- Glucose transporter, Caco-2 cells, small intestine and colon, G312
- GLUT-4
content, muscle, obesity, E1015
glucose transporter, insulin-regulated, adipocytes, E383
postnatal expression, E102
- GLUT-5, expression and localization, Caco-2 cells, small intestine and colon, G312
- Glutamate
anion channels for, MDCK cells, C1200
nucleus tractus solitarius input, parabrachial neurons, R324
turnover, tracer methodology, E417
- L-Glutamate, cardiac ANF, brain stem control of, H198
- Glutamate dehydrogenase, metabolic acidosis, LLC-PK₁ cultures, C47
- Glutaminase, phosphate-dependent, LLC-PK₁ cultures, C47
- Glutamine, gastric mucosa and, E368
- L-Glutamine, D-glucose with, stimulation of oxidative metabolism, G960
- Glutamine medium, functional differentiation, proximal tubular cells, F152
- Glutamine synthetase, induction, exercise effects, muscle, E1157
- γ -Glutamylcysteine synthetase, low cell density, hepatocytes, C1181
- γ -Glutamyl transferase, bile formation and, liver, G617

SUBJECT INDEX TO VOLUME 263

- Glutaraldehyde, albumin coating, extracorporeal circuits and autoregulation, H1397
- Glutathione
lung injury induced by, food restriction effects, prematurity (guinea pig), L357
osmotic driving force, bile formation, hepatic, G617
oxidation of, exhaustive exercise and, blood, R992
peroxidized lipid absorption and, intestine, G665
plasma, glucose and insulin actions affected by, E435
sinusoidal efflux, endotoxin-induced oxidant stress, liver, G60
synthesis
low cell density, hepatocytes, C1181
stimulation by thiols, R348
- Glutathione peroxidase
gene regulation, lung, L466
glutathione *S*-transferase, immunolocalization, lung, L679
- Glutathione *S*-transferase, antioxidant enzymes and isozymes from, immunolocalization, lung, L679
- Glycerol
control in adipose tissue, ectotherm vertebrates, R857
epidermal growth factor and, neonate, E920
insulin regulation, free fatty acid metabolism, E1063
metabolism, sites of infusion and sampling effects, E817
- Glycine
gastrin extended by, pharmacokinetics of, G802
PAF effects, traumatic brain injury, R909
production, placental, late gestation (sheep), E786
- Glycogen
depletion, lactate reductions, metaboreceptor responses and H1499
insulin responsiveness and, isolated working heart, E556
peripheral metabolism, prolonged exercise, E345
synthesis
regulation, after galactose vs. glucose, E43
soleus muscle, E274
- Glycogenolysis
amylin and insulin, soleus muscle, E274
hypoxia as a cause of, skeletal muscle, E1086
labeled glucose measurement, glucose turnover, E17
nerve stimulation and zymosan effects, cold-exposed liver, G353
- Glycogen synthase, muscle, glucose carbon uptake in, E473
- Glycolysis, anaerobic, hypoxic liver injury, G293
- Glycoproteins
fetuin, fetal serum (calf), C551
membrane, thyroxine regulation, intestine, G538
mucous, tracheal gland cells in primary culture, L264
- P-Glycoprotein, photoaffinity labeling of, renal digoxin secretion and, F613
- Glycoprotein CD11/CD18, leukocyte adhesion, hemorrhage-induced ischemia, H810
- Glycosaminoglycan, synthesis, PDGF effects, lung cells, fetus, L495
- Glycyrrhizic acid, hypertensinogenic effects, central, E1125
- Goblet cells, secretion, cigarette smoke-induced, airway, L161
- G proteins
adrenergic regulation, brown fat, neonate, R34
calcium mobilization, signal transduction by T-cell receptors, C1119
heterotrimeric, activation by bombesin, G240
levels, adipocytes in genetic diabetes, C121
PG receptors and, myometrium, C257
- Gracilis muscle, posts ischemic, phospholipid peroxidation in, H1695
- Granular cells, bladder, vasopressin effects on immunogold actin labeling (toad), C908
- Granulocyte colony-stimulating factor, modulation, glucose metabolic response to endotoxin, R1122
- Growth: *see also* Development; Maturation
bone proteins in
gene expression, disuse osteopenia and, E1029
tissue-specific expression of, femora, E724
cardiac, thyroid hormone effects on gene expression, E534
cardiomyocytes, acceleration, protein kinase C and, C319
CCK, bombesin, and carbachol effects, gene expression, pancreatic acini, G327
cell, thromboxane A₂ effects, H1331
detrusor hyperplasia, obstructed bladder (guinea pig), R1284
differentiation, fetuin and, fetal serum (calf), C551
fast and slow, genetic selection for, growth hormone secretion differences, E748
functional differentiation, proximal tubular cells, F152
longitudinal, bone, dexamethasone effects, E489
lung, origin and lineage of macrophages, L299
metabolic adaptation, pregnant-lactating females, E766
mucosal, IGF-I induction of, E282
myosin degradation, contractile arrest and, heart cells, neonate, C642
oxygen effects, eicosanoid release and, lung endothelial cells, L454
phosphorus depletion effects (cattle), R656
placenta and liver, ontogeny of, fetus (sheep), R619
retardation
acute hypoxia effects, fetus (sheep), E1151
heat-induced, fetus, plasma glucose transport and, R578
single umbilical artery ligation-induced, fetus, E575
vascular smooth muscle, TGF- β and, C420
- Growth factor
central regulation and, feeding, R1222
- DNA synthesis-dependent on, C-type ANP and, smooth muscle cells, C1001
fetuin and, fetal serum (calf), C551
hepatocyte, liver handling of, G642
- Growth hormone
albumin synthesis, meal stimulation of, E794
glucose-glucose 6-phosphate cycle, insulin action and, E980
nocturnal lipolysis, mevalonate production and, E168
recombinant human, epinephrine-induced lipolysis and, E467
secretion, genetic selection for fast and slow growth, E748
somatotropin effects, adipose tissue (pig), E637
- Growth hormone-releasing hormone antibodies, sleep, sleep deprivation and, R1078
- Growth plate, longitudinal growth, dexamethasone effects, E489
- Growth substances, downregulation of, fluid shear stress and, aortic endothelium, C389
- GTP: *see* Guanosine triphosphate
- Guanosine monophosphate, cyclic activation of cAMP-dependent protein kinase, chloride transport, intestine, C607
amiloride-sensitive sodium uptake, ANP effects, R279
ANF and bradykinin interaction, transport of M-1 cortical collecting duct cell line, F1
ANP effects, E181
aortic and coronary smooth muscle cells, H710
atrioventricular and, increase in endothelial cell permeability, L363
calcium and, arterial smooth muscle relaxation, C461
content, lower esophageal sphincter, G97
C-type ANP inhibition, smooth muscle cell growth, C1001
endothelial, release of EDRF and, L113
Escherichia coli heat-stable enterotoxin expression and, during development, G816
glomerular, endothelin ET_B receptors in, F1020
high-output heart failure, chronic captopril and losartan effects, H833
inhibition, norepinephrine-stimulated fluid absorption, proximal straight tubules, F581
isoproterenol and, synergistic actions, aorta, H1113
methylene blue effects, pulmonary vascular bed, L575
pathway, carotid artery wall properties and, H61
platelet, adhesion to pulmonary vascular endothelium, H606
pulmonary artery relaxation mediated by, chronic hypoxia effects, L325
response to hypoxia and, pulmonary arteries, H141
- Guanosine triphosphate, pancreatic binding proteins, activation by bombesin, G240
- Guanylate cyclase
activation of cAMP-dependent protein kinase, chloride transport, intestine, C607

- Guanylate cyclase (*continued*)
atrioepit-like hormone, localization of, renal, F503
Escherichia coli heat-stable enterotoxin expression and, during development, G816
exogenous nitric oxide and, transitional pulmonary circulation, fetus, H875
hormone signaling systems, inner medullary collecting ducts, F985
inhibitors
inhibitory junction potentials of esophageal smooth muscle and, G87
lower esophageal sphincter cGMP content, G97
modulation of cGMP, vascular cells, L113
receptors coupled by, ANP and C-type natriuretic peptides, F89
Guanylyl cyclase
C-type ANP inhibition, smooth muscle cell growth, C1001
pulmonary artery relaxation mediated by, chronic hypoxia effects, L325
Gustatory alliesthesia, duodenal preabsorptive origin of, R1013
Gustatory response, salt, chorda tympani denervation and, R169
Gut: see Intestine

H

- Halogens, interactions, cortical collecting duct, F870
Harderian gland, type II 5'-deiodinase circadian rhythm, adrenergic regulation, E884
Heart
adaptation, sarcomere dynamics to arterial load, H1054
ANF secretion, lower brain stem control of, H198
ANP effects on cGMP, H710
beating, myocardial sarcomere lengths, H293
chloride potential in, nuclear magnetic resonance spectroscopy, H1958
conduction and contractions, magnesium actions on, H622
contractile and conductive elements, distribution of extracellular space, H168
contractility
capillary geometry and, H1369
response to exercise in pressure overload, H1011
developing, sodium-calcium exchange in, H1506
exercise training effects, function after ischemia, H804
failing, force-frequency relations and ryanodine in, H1710
failure
angiotensin II receptor antagonism in (sheep), H250
chronic tachycardia and baroreflexes, awake state, H1084
congestive, isoproterenol clearance in, H56
congestive, ventricular dilatation and, H1306
evolving, left ventricular shape changes during, H266
long-term coronary stenosis and, H117
thoracic inferior vena caval constriction, endothelin effects, H951

- fluorescence spectroscopy, suppression of motion artifacts, H972
function, intracavitary ultrasound effects, H857
gene expression, thyroid hormone effects, E534
glucose transporters, regulation in hypobaric hypoxia, E562
glucose transport system, ventromedial hypothalamic stimulation effects, R1228
high-output failure
chronic captopril and losartan, H833
regulation of ANF in, H1790
hypobaric hypoxia, regulation of glucose transporters in, E562
innervation, development of, SIDS and, H1514
interstitial adenosine, adenosine deaminase effects, H1322
ischemic: see Ischemia, cardiac
 β -isomyosin expression, aortic perfusion pressure as determinant of, H1537
linoleic acid-enriched triacylglycerols, retention during fasting, R233
mechanics
2,3-butanedione monoxime effects, H1811
sonomicrometry in measurement of, H968
metabolic acidosis, high-energy phosphates during, H903
metabolic state, during severe hypoxia (trout), R798
myocyte pairs, eicosanoid uncoupling of, C494
norepinephrine, economy of pressure development and, H715
performance
chronic coronary arterial stenosis effects, H929
portal vein stenosis, G181
perfused, lipoprotein lipase turnover (guinea pig), H438
postischemic dysfunction, ischemic preconditioning effects, H887
postischemic functional recovery, PEG-SOD improvement of, H1243
postnatal expression of GLUT-4, E102
preconditioned, postischemic electrophysiology, H1732
preservation, fluorochemical emulsion of APE-LM, H730
prostacyclin production, adenosine modulation of, H218
renin-angiotensin system in, neonate, C838, C851
size, pericardial restraint, H1675
sodium-calcium exchanger expression, cloned, C1241
sodium-potassium-ATPase isoforms, expression, neonatal and adult (ferret), H1430
substrate and contractility changes, phosphorus-31 NMR spectroscopy, H497
surface, calculation of oxygen diffusion, H1003
venous endothelial dysfunction, after myocardial ischemia, H850
working
insulin responsiveness, fasting and lactate effects, E556
sodium modulation of hypertonicity, H1154

- Heart atria
right, pressure-volume relations in diabetes, H1017
transient outward current, species differences in rate dependent (rabbit, human), H1747
Heart cells: see also Cardiomyocytes; Myocytes
atrial, thapsigargin effects on endothelin-1 action, H1689
membrane, electroporation of, H1128
myosin degradation, contractile arrest and, neonate, C642
sodium-calcium exchanger in, immunofluorescence localization, C545
ventricular, action potential conduction between, calcium current effects (guinea pig), H1591
Heart rate
age and blood pressure effects, response to hypoxia, fetus (sheep), R880
ANP secretion, exercise in hypobaric conditions and, R647
baroreflex control of, CGRP effects, R874
control, baroreflex modulation by angiotensin peptides, R89
coronary regulation response to, perfusion changes and, H447
development and (frog), R602
estrogen-induced vasodilation, E837
reflex regulation of, vasopressin and angiotensin II in, R756
renal nerve activity and, baroreflex control of (sheep), H1819
Heart ventricles
acute dilatation, effect on fibrillation thresholds, heart, H1306
contractile efficiency, 2,3-butanedione monoxime effects, H1811
contractility, M-cholinoceptor stimulation of, antiadrenergic effect of, H1927
dysfunction, chronic coronary arterial stenosis effects, H929
fibrillation
after coronary artery occlusion (pig), H479
SIDS and, H1514
function
arterial hypertension after recovery, H559
dobutamine effects on myocardial contractility (sheep), H1250
endocardial endothelium, H985
force-frequency relations and ryanodine in, H1710
interference, sonomicrometry in measurement of, H968
loading, abrupt changes, effects on repolarization, H816
pacing, angiotensin II antagonism, heart failure (sheep), H250
reperfusion arrhythmias in, allopurinol effects, H341
wall thickening, changing afterload and inotropic state effects, H109
Heart ventricles, left
adaptation to arterial load, model, H1054
arrhythmias, stretch-induced depolarizations, H613
collagen characteristics, aging- and training-induced alterations, H778
deformation, myocardial sarcomere lengths, H293

- diastolic and systolic performance, chronic experimental aortic regurgitation, H226
- dimension, during hemorrhagic shock, H1554
- dysfunction, after massive sympathetic activation, H784
- end-diastolic pressure, chronic captopril and losartan effects, H833
- filling, rest and exercise, aging effects, H1932
- hypertrophy: *see* Hypertrophy
- inotropic response, exercise, pressure overload and, H1011
- intracavitary ultrasound effects, endocardial endothelium and, H857
- mass, sodium excretion and, hypertension, H177
- mechanical vibration of, during global ischemia, H88
- perfused epicardium, anisotropic conduction and reentry in, H1466
- shape changes, evolving heart failure, H266
- wall stress, time-varying, H597
- Heart ventricles, right
- hypertrophy, regulation of glucose transporters, E562
- ischemia, contractile performance during (pig), H135
- isovolumic relaxation, open-chest anesthesia, H1587
- Heat
- cytosolic free calcium concentration and, epidermoid A 431 cells, C30
- growth retardation induced by, fetus, glucose transport and, R578
- perioperative conservation, thermogenesis after surgery and, E441
- Heated dorsal hand vein, sampling, metabolic studies, E1010
- Heat shock proteins: *see* Proteins
- Helicobacter pylori*, ammonia production associated with, gastric mucosal cell injury and, G719
- Hematocrit
- blood viscosity in tube flow and, H1770
- blood volume changes, lower body suction and, H1270
- determination, microsphere and dilution techniques for, R728
- regional, concurrent increase, diabetes, sorbinil effects, H945
- Hematopoiesis, lung growth, origin and lineage of macrophages, L299
- Hemodilution, isovolemic, cerebral blood flow and volume during, H75
- Hemodynamics, systemic, pregnancy, awake state, H1911
- Hemoglobin
- changes induced by, lymphatic pumping, endothelial cells and, H1880
- production of neutrophil-activating factor, from arachidonic acid, H1546
- Hemorrhage
- after head trauma, cerebrovascular response to, H1276
- hypoxia and, renin response to, R664
- ischemia induced by, leukocyte adhesion and, H810
- lactate after, skeletal muscle, E1035
- pressure-driven, physical and physiological characteristics, H1402
- Hemorheology, blood viscosity, tube flow, H1770
- Henle's loop
- CHIP28 water channel, localization in, C1225
- lithium reabsorption, micropuncture study, F1128
- thick ascending limb, EGF prohormone in urine, E142
- thin ascending limb, cell volume regulation in, F353
- thin limb segments, water permeability in (chinchilla), F417
- Heparin, endothelin-1 action and, spontaneous hypertension, R1035
- Hepatectomy
- liver regeneration, expression of cystic fibrosis gene during, C55
- partial, regeneration after, TNF- α antibodies and, G579
- Hepatocytes
- basolateral membrane vesicles, organic cation transport, G939
- cell calcium, modulation by epinephrine (fish), E512
- changes, insulin-induced, E1106
- fatty acid uptake, sex differences, G380
- growth factor, plasma clearance and, liver, G642
- lineage system, G139
- low cell density, glutathione synthesis and, C1181
- membrane potential
- chloride activity and, during osmotic stress, G566
- gluconeogenesis effects, G319
- phospholipid metabolism, chemical hypoxia effects, C684
- potassium ion conductance, hyperosmotic solution, G913
- resting and regenerating livers, polyamine transport systems in, G169
- VLDL triacylglycerol secretion, after fat feeding, E615
- Hepatoma cells
- erythropoietin production, insulin-like growth factors, C474
- gene transcription in, oncotic pressure regulation of, C397
- Heptanol, coronary perfusion effects, conduction and ventricular arrhythmias, H1382
- HETE: *see* 12-Hydroxyeicosatetraenoic acid
- Hibernation
- fasting and, ion secretion, intestine (squirrel), R1203
- jejunal bypass and, ion secretion after (squirrel), R1209
- myocardium, heart, model of (pig), H20
- nutrient transport during, maintenance of, R517
- temperature dependence, myocytes (guinea pig, squirrel), R177
- Hindlimb
- metabolic adaptation, severe, nonfatal hypoxia, fetus, R1130
- serine fluxes across, fetus in late gestation (sheep), E786
- Hip joint, torque profile of, muscle, joint, and tendon contributions to (frog), R586
- Hippocampus, opioid binding sites, ovarian hormone effects, castrated females, E507
- Hirudin, regulation, intracellular pH, Saos-2 cells, C1266
- Histamine
- antigen-evoked release, intestine, G847
- C5a contractile actions and, isolated myocardium (pig), H740
- chloride secretion induced by, nasal epithelium, C1190
- endothelial cells, umbilical vein, L664
- mast cell mediation, tobacco smoke effects, L67
- potentiation, hydroxylamines, G632
- release, gastrin induction of, oxyntic mucosal cells, G460
- Histamine antagonists, hypovolemic shock and, head-up tilt, R156
- Hormones: *see* specific hormone
- Hormonal regulation, ionic permeability, renal brush-border membrane, proximal tubules, F144
- Hyaluronan, lymphatic flux of, intestine, during fat absorption, G6
- Hydration state, exercise thermoregulation effects (goat), R201
- Hydrogen
- cerebrospinal fluid, reversal of phorbol ester-induced arteriolar constriction (piglet), H1455
- clearance method, hypocarbia (geese), R221
- secretion, β -adrenergic regulation of, OMCD cells, F1011
- Hydrogen-ATPase
- vacuolar

- β -Hydroxybutyrate, epinephrine-induced ketogenesis and, E250
- 6-Hydroxydopamine, depletion of diagonal band, baroreflex inhibition of supraoptic neurons and, R363
- 12-Hydroxyeicosatetraenoic acid
- inhibition of renin secretion, renal cortical slices, F665
- selective expression, pancreatic islets, E828
- Hydroxylamines, histamine potentiation, G632
- Hydroxyl radical, cerebral ischemia and, H1356
- Hydroxylslypyridinolone, evaluation of collagen, aging- and training-induced changes, myocardial interstitium, H778

- Hydroxyproline, evaluation of collagen, aging- and training-induced changes, myocardial interstitium, H778
- 11 β -Hydroxysteroid dehydrogenase, mineralocorticoid action and, protective mechanisms, F759
- 5-Hydroxytryptamine: *see also* Serotonin actions, myenteric neurons, gastric antrum (guinea pig), G838
ascending contraction mediated by, small intestine, G306
portal-systemic collaterals, portal hypertension, G544
- Hypercapnia
chemoreceptor responsiveness, fetus (sheep), H162
effects on graded responses, cerebral ischemia, H1839
input to A1 neurons, projecting into supraoptic nucleus, R310
postischemic newborn brain, topical arachidonic acid effects on pial arterioles (pig), H746
- Hypercholesterolemia
development of, adrenals and, E287
macrophage mediation of, experimental nephrosis, F776
- Hypercontractility, postischemic, stunned myocardium (pig), H544
- Hyperemia
capsaicin-induced, stomach, mast cells in, G209
gastric, acid secretion and, in renal failure, G75
myocardial reactive
model of hibernating myocardium in heart (pig), H20
role of endothelium-derived nitric oxide in, H8
post-nerve stimulation, intestine, peptidergic nerve mediation of, G29
postprandial and reactive, adenosine effects, jejunum, G487
reactive, adenosine for, myocardium (pig), H1119
- Hyperfibronectinemia, tissue injury, ischemia and, G437
- Hyperglycemia
insulin secretion, athymic nude mice, E1131
noradrenergic neuronal activity and, central nervous system, E823
- Hyperinsulinemia, fetal leucine kinetics and, prolonged maternal fasting (sheep), E696
- Hyperkinesis, contractile performance, ventricular ischemia (pig), H135
- Hyperlipidemia, peripheral catabolism, in nephrosis, F335
- Hyperosmolality
ammonia-mediated inflammation and, renal medulla, R148
vasopressin and ACTH responses to hypoglycemia, awake state, R382
- Hyperosmolality, inotropic response to, sodium modulation of, working heart, H1154
- Hyperosmolar saline dextran, attenuation, postischemic microvascular disturbances, striated muscle, H1411
- Hyperoxia
effects on graded responses, cerebral ischemia, H1839
- gastric blood flow, laser-Doppler velocimetry and reflectance spectrophotometry, G810
- lung injury induced by, food restriction effects, prematurity (guinea pig), L357
- oxygen inactivation of fibroblast growth factors, endothelial cell proliferation and, L370
- surfactant proteins and lipids during, L291
- Hyperplasia
high protein diet, renal growth and renin expression with, F427
smooth muscle
endothelin-1 and, airway, L317
thromboxane and, airway, L555
- Hyperpolarization, CGRP-induced vasodilation and, ophthalmic artery, H359
- Hypertension
acute, sympathetic stimulation and, H511
arterial, myocardial recovery after ischemic injury and, H559
arterial baroreflex, transfer function analysis of, R524
baroreflex modulation, angiotensin peptides, R89
blood pressure and sympathetic nerve activity, awake state, spectrum analysis of, H1348
chronic hypoxic pulmonary, endothelium-dependent relaxation in, L-arginine and, L194
chronic portal
intestinal myoelectric activity, G474
splanchnic blood flow in, EDRF role in, G149
dexamethasone-induced, dehydroepiandrosterone prevention of, E210
DOCA, diabetes, myocardial performance for, H1798
exercise-induced proteinuria in, indomethacin effects (miniature swine), R954
genetic
aortic smooth muscle proliferation and TGF- β , C420
prostaglandin buffer of renal vasoconstriction, F573
glycyrrhizic acid and carbenoxolone, central effects of, E1125
hypoxic pulmonary, CGRP and somatostatin modulation of, H681
insulin release and, sympathetic nervous system activity role in, E935
mineralocorticoid, cAMP formation, cortical collecting tubule, F1093
ouabainlike factor in, F739
periodic intracranial, circulatory dynamics during, fetus (sheep), R95
portal
cardiac performance in, G181
portal-systemic collaterals in, G544
pregnancy effects, adriamycin nephropathy model, F711
pulmonary
endothelin-1 and (sheep), L15
endothelin-1 gene expression and, R1260
exogenous nitric oxide effects, H875
pulmonary artery relaxation, hypoxia and, L88
pulmonary vasodilation, ATP-sensitive potassium channel and, neonate (pig), H1532
- renal blood flow autoregulation, cyclooxygenase inhibition effects, F534
short-term reduction in pressure, renin response to, R405
sodium-chloride sensitivity, β_2 -adrenoceptor density in fibroblasts and, C623
sodium excretion, left ventricular mass and, H177
- spontaneous
brain infarct size, L-arginine effects, H1632
heparin suppression of endothelin-1 actions, R1035
renal dopamine receptors and sodium transport defect in, F1105
renal nerve activity, converting enzyme inhibitor effects, R109
vascular resistance after exercise, forearm, baroreflex regulation of, H1523
- Hyperthermia, heat-induced calcium increase, epidermoid A 431 cells, C30
- Hypertonicity
chronic, volume regulatory inositol loss, glial cells, C412
sodium modulation of, working heart, H1154
- Hypertrophy
cardiac
model, H1054
renin-angiotensin system, neonate, C838
glomerular, extent of glomerular injury in, F1034
left ventricular, volume overload versus pressure overload, H1137
renal, high protein diet and, F427
ventricular, force-frequency relations and ryanodine in, H1710
ventricular cardiomyocytes, trophic effects of catecholamines and PTH, H1739
- Hypocapnia, regional cerebral blood flow, tissue oxygenation and (geese), R221
- Hypocarbica, regional cerebral blood flow, tissue oxygenation and (geese), R221
- Hypochlorous acid, interstitial fluid and, intestine, G573
- Hypoglycemia
insulin response, awake state, E688
vasopressin, chronic stress effects, E394
- Hypotension, vasopressin and ACTH responses to hypoglycemia, awake state, R382
- Hypothalamus
anterior, interleukin-1 β effects on gastric acid secretion, G414
delayed firing rate response, temperature, R679
diabetic, phenylethanolamine N-methyltransferase in, E335
medial nuclei, cobalt protoporphyrin injection into, weight loss and, R805
neural networks in, thermosensitive, R670
noradrenergic neuronal activity, stress hyperglycemia and, E823
opioid binding sites, ovarian hormone effects, castrated females, E507
paraventricular nucleus
lesions, gastric motility after, R39
neuropeptide Y from, gastric acid output and, G726

- suprachiasmatic nucleus, isoperiodic neuronal activity in, R51
- supraoptic neurons, baroreflex inhibition of, catecholamines and, R363
- supraoptic nucleus, A1 neurons projecting into, inputs to, R310
- sympathetic responses, medulla, R544
- ventromedial nucleus
- brown fat responses, strain differences in rats, R59
 - stimulation effects, glucose transport system, R1228
- Hypothalamus-pituitary-adrenal system, hypoglycemia, CRF and AVP secretion after stress, E394

 changes induced by, hepatocytes, E1106
 control, creatine kinase mRNAs, striated muscle, E310
 dose-response, glucose turnover and, E17
 early response, after food intake (geese), R782
 genetic diabetes, G protein levels in adipocytes, C121
 glucocorticoid interaction, genetic obesity, E550
 glucose and free fatty acid metabolism, obesity, E79
 glucose-glucose 6-phosphate cycle, growth hormone effects, E980
 glucose transport and, skeletal muscle, R70
 glucose transport system, ventromedial hypothalamic stimulation effects, R1228
 glucose uptake mediated by
 epinephrine effects, muscle, E199
 training effects, muscle, E1134
- GLUT-4 content, exercise training and, obesity, E1015
 hypocapnic-hypoglycemic interactions, high-energy phosphates and pH, H1864
 inulin and, uptake, skeletal muscle, H1170
 levels, response to equivalent hypoglycemia, awake state, E688
 lipoprotein lipase gene expression, brown fat, E500
 lipoxygenase localization and, pancreatic islets, E828
 metabolic adaptation, pregnant-lactating females, E766
 proinsulin and, dose-response study, non-insulin-dependent diabetes, E28
 rate of appearance, posthepatic, E772
 regulation, free fatty acid metabolism, E1063
 release
 glucocorticoid effects, pancreatic islets, obesity, E663
 glucose-induced, pancreatic islets, E890
 hypertension, role of sympathetic nervous system activity in, E935
 structural requirements of peptide YY, G695
 resistance
 fish and safflower oil feeding effects, adipocytes, E94
 sepsis-induced, catecholamine effects, E703
 responsiveness, fasting and lactate effects, isolated working heart, E556
 secretion
 β -cell replication and, fetus, C114
 conditioned, meal-associated, R615
 hyperglycemia and, athymic nude mice, E1131
 plasma glutathione effects, non-insulin-dependent diabetes, E435
 sympathetic neurotransmitters and, E72
 sensitivity, whole body, low- or high-fat diet effects, R785
 sorting regulated by, glucose transporters, adipocytes, E383
 total absence, free fatty acid-glucose cycle and, during exercise, E646
- Insulin-like growth factor
 acute hypoxia effects, fetus (sheep), E1151
 erythropoietin production and, hepatoma cells, C474
 gene expression, somatotropin effects, adipose tissue (pig), E637
- Insulin-like growth factor I
 action, prior exercise effects, skeletal muscle, E340
 intraileal infusion, trophic action of, E282
 regulation of elastogenesis, aortic and lung cells, L276
- Interferon
 central regulation and, feeding, R1222
 differential effects, β -cell replication, fetus, C114
 influenza virus, sleep induced by, R1115
- Interferon- γ
 induction of intracellular adhesion molecule-1, airway epithelial cells, L79
 lymphocyte adhesion and, colonic carcinoma, G864
- plasminogen activator inhibitor type 1, orbital fibroblasts, C24
- Interleukin-1
 albumin flux and, pulmonary artery transendothelial, L128
 aldosterone secretion and, R840
 corticosterone release induced by, adrenergic mechanism, adrenal gland, E461
 differential effects
 β -cell replication, fetus, C114
 ketogenesis, E301
 expression, osteoblastic cells, C194
 radioimmunoassay to detect, peripheral circulation, E1092
 receptors: *see* Receptors
 regulation, cyclooxygenase synthesis, mesangial cells, F97
 superoxide dismutase and, oxygen tolerance, L342
 superoxide dismutase mRNA increase induced by, interleukin-6 effects, L22
- Interleukin-1 β
 fever, TNF- α attenuation of, R987
 induction of ICAM-1
 after protein kinase C, endothelial cells, C767
 airway epithelial cells, L79
 inhibition of gastric acid, hypothalamic sites, G414
 lymphocyte adhesion and, colonic carcinoma, G864
 production, lipopolysaccharide-activated monocytes, C1073
 pulmonary fibroblast-derived, expression and regulation of, L536
- Interleukin-6
 antibodies to, liver regeneration after partial hepatectomy and, G579
 bioactive secretion, cigarette smoking effects, L471
 differential effects, β -cell replication, fetus, C114
 enhancement, oxygen tolerance, L22
- Interleukin-8, neutrophil accumulation and, trachea, L708
- Interstitium, suction effusion fluid, skin surface, H1623
- Intestinal cells, Caco-2, apolipoprotein expression, E374
- Intestinal diverticula, nutrient absorption, invertebrates, R472
- Intestine
 absorptive capacity, sepsis depression of, R19
 acetylcholine release, neurokinin receptors and, G659
 albumin, interstitial exclusion of, H1222
 alkaline phosphatase cDNA, Caco-2 cell transfection, G756
 anaphylaxis, cholinergic neurons in, G847
 anastomoses, healing with corticosterone, R164
 calcium transport, changes induced by pregnancy and lactation, G127
 β -carotene uptake, lymphatic absorption and (ferret), G480
 carotid sinus baroreflex, blood volume changes and, H1939
 chloride ion transport, stimulation by heat-stable enterotoxin, C607
 circulating fatty acid uptake, G927
 crypt-villus axis, regulation of cytochrome P-450 genes along, G215

- developing
 - postprandial blood flow and oxygenation, G254
 - protein synthesis in (lamb), R1318
- distension, response to stimulation of sensory pathways, G673
- electrolyte transport, galanin effects, G502
- epithelia
 - cystic fibrosis, chloride channels in apical membrane, L1
 - transcriptional activation, fetus, G853
- increased oxygen uptake effects, autoregulation, postnatal (swine), G690
- inflamed, impaired acetylcholine release, G198
- ion secretion
 - after jejunal bypass (squirrel), R1209
 - hibernation and fasting effects (squirrel), R1203
- ischemia-reperfusion, lung neutrophil sequestration after, oxygen radicals and, L394
- lactase, regulation by thyroxine, G538
- lymphatic flux of hyaluronan, during fat absorption, G6
- macromolecular transport, synthetic trypsin inhibitor effects, suckling, R996
- muscle cells, opioid receptors in, G269
- myoelectric activity, chronic portal hypertension, G474
- nutrient absorption, basolateral membrane, R482
- nutrient transport, R457
 - apical membrane mechanisms of, R458
 - dietary control of, R496
 - during ontogeny, vertebrates, R503
 - maintenance during hibernation, R517
- nutrient transporters, ontogenetic development of, G593, G605
- obstruction, distension-induced secretion, colon, G108
- peroxidized lipid absorption, glutathione effects, G665
- post-nerve stimulation hyperemia, peptidergic nerve mediation of, G29
- preganglionic neuron control of, spinal stimulation, H1026
- reflux, bile and lipid assimilation (bird), R389
- sepsis effects, E368
- sodium-D-glucose cotransport kinetics in (teleost), R1018
- sodium-glucose transport, comparative studies, R489
- transepithelial permeability, TNF-induced increase in, F915
- Intestine, small
 - angiotensin-converting enzyme in, G466
 - ascending contraction, 5-hydroxytryptamine-mediated, G306
 - crypt cell line, putrescine effects on S-adenosylmethionine decarboxylase, G494
 - cyclic myoelectric activity, after feeding, G248
 - GLUT-5 expression in, Caco02 cells, G312
 - impedance, sodium-coupled transport and, C480
 - ischemia-reperfusion injury, G301
 - neural control, electrophysiology and, G887
 - sodium-glucose cotransporter, kidney cDNA, F459
 - Intracellular adhesion molecule 1 expression, protein kinase C and, C767
 - lymphocyte adhesion and, colon cancer cells, G864
 - selective induction of, interferon- γ , airway epithelial cells, L79
 - Inulin
 - contractile and conductive elements, heart, H168
 - insulin and, uptake, skeletal muscle, H1170
 - Iodide channel, thyroid, plasma membrane vesicle study, C590
 - Iodoantipyrine, quantitative autoradiography with, distribution of renal blood flow, F958
 - Ion channels
 - distribution, polarized endothelial cells, C573
 - epithelial, regulation by direct phosphorylation, C172
 - modulation, skeletal muscle, C308
 - regulation, airway smooth muscle cells, C106
 - Ionomycin
 - control, beat cycle, respiratory tract cilia, L232
 - intracellular calcium ion transport, Clara cells, L122
 - phorbol ester effects and, potassium and chloride conductance, HT-29c1.19a cells, C759
 - whole cell current transients, RBL-2H3 cells, C736
 - Ionophore A23187, endothelium-dependent relaxation, pulmonary circulation, L194
 - Ions
 - epithelial, transport, histamine potentiation, G632
 - transport
 - adenosine effects, renal thick ascending limb, F482
 - CFTR protein effects, C267
 - mantle epithelium (clam), R76
 - oxidant stress effects, vascular endothelial cells, H96
 - Iron
 - surface complexed, oxidant generation and lung inflammation, silicate-induced, L511
 - toxicity, tubule, nephrotic syndrome, F637
 - uptake, transferrin degradation relations, brain, R924
 - Irradiation, microwave, during isovolemic hemodilution, H75
 - Ischemia
 - cardiac
 - extracellular potassium role in, H333
 - function after, exercise training effects, H804
 - functional recovery, fatty acid levels and, diabetes, E1046
 - recovery, metabolic substrate effects, C17
 - cerebral
 - L-arginine effects, spontaneous hypertension, H1632
 - cytochemical detection of superoxide, H1234
 - graded responses, H1839
 - oxygen radicals and, H1356
 - topical arachidonic acid effects, newborn (pig), H746
 - endoneurial, epineurial endothelin and, sciatic nerve, H1806
 - global cerebral, blood flow and pial vessel caliber in, H533
 - intestinal, interstitial fluid in oxidant stress, G573
 - ischemia-reperfusion injury
 - no reflow in, H1892
 - reflow paradox in, H1901
 - liver, complement-mediated leukotriene formation, G947
 - muscle, attenuation by hyperosmolar saline dextran, H1411
 - myocardial
 - action potential conduction between, calcium current effects (guinea pig), H1591
 - adenosine for reactive hyperemia (pig), H1119
 - arterial hypertension after recovery, H559
 - catecholamines in cerebrospinal fluid, H83
 - chloride potential, nuclear magnetic resonance spectroscopy determination of, H1958
 - during sympathetic nerve stimulation, H1682
 - exercise-induced, superoxide dismutase and catalase effects, H392
 - global, diastolic vibration effects, H88
 - hemorrhage-induced, leukocyte adhesion and, H810
 - PEG-SOD and postischemic recovery, H1243
 - postischemic recovery, adenosine receptors and, H1460
 - preconditioned heart, H1732
 - preconditioning, postischemic dysfunction and, H887
 - prevention of infarction, H1107
 - prostacyclin as a tissue protective factor, H1390
 - reperfusion injury, no reflow in, H1892
 - reperfusion injury, reflow paradox in, H1901
 - venous endothelial dysfunction after, H850
 - voltage-dependent calcium current and, ventricular myocytes, H410
 - work and metabolism after, H1724
 - renal
 - heat shock proteins after, F769
 - sodium-potassium-ATPase redistribution during, F488
 - right ventricular, contractile performance during (pig), H135
 - spinal cord, laser-Doppler flowmetry in, H285
 - tissue injury and, fibronectin synthesis in, G437
 - Islets of Langerhans, metabolic adaptation, pregnant-lactating females, E766
 - Isocitrate, respiratory activities supported by, oxygen exposure effects, lung mitochondria, L439
 - Isoforms, α_1 - and α_3 -, sodium-potassium-ATPase, heart (ferret), H1430
 - Isometric force, fatigue effects, fast- and slow-twitch muscles, C1065
 - β -Isomyosin, expression, aortic perfusion pressure as early determinant of, heart, H1537

Isoproterenol

- ACh actions and, M-current, gastric smooth muscle cells, C1274
 - β_1 -adrenoceptors, sodium-potassium-chloride cotransport and, lymphocytes, C1015
 - cerebrospinal fluid, phorbol ester-induced arteriolar constriction and (piglet), H1455
 - clearance, congestive heart failure, H56
 - guanosine monophosphate, cyclic, synergistic actions, aorta, H1113
 - hydrogen secretion and, OMCD cells, F1011
 - portal-systemic collaterals, portal hypertension, G544
 - portal vein stenosis, cardiac performance in, G181
 - potassium channels activated by, myometrium, pregnancy, C1049
 - pressure-dependent renin release, β -adrenoceptors and, hypertension, R405
 - thermoregulatory responses to, β -adrenergic antagonists and, R915
- Isotonic properties, skeletal muscle, response to hypothyroidism, C86

Isotopes

- stable
 - fatty acid synthesis, 3T3-L1 cells, E667
 - heated dorsal hand sampling, E1010
 - lactose digestion, premature infants, E1002
 - tracer analysis by GC-MS, model, E584
- Isotopomer
 - mass distribution analysis, E988
 - spectral analysis, triglyceride fatty acid synthesis, 3T3-L1 cells, E667
- Isozymes, glutathione S-transferase, immunolocalization, lung, L679

J

- Jaundice, obstructive, PAF effects on hepatic responses, G587
- Jejunum
 - electrolyte transport, galanin effects, G502
 - ion secretion
 - after jejunal bypass (squirrel), R1209
 - hibernation and fasting effects (squirrel), R1203
 - lipid-induced mucosal injury, polyamines and, G224
 - postprandial and reactive hyperemia in, adenosine effects, G487
 - sensory pathways in, symptomatic responses to stimulation, G673
 - transcriptional activation, spatial analysis of, fetus, G853
- Joint, torque profile and, hip joint (frog), R586
- Junction
 - choledochoduodenal, sphincter of Oddi regulation of bile flow, G683
 - gap, differences, myocytes, fibroblasts, and heterologous pairs, C959
 - intercellular, endocardial endothelium, H985
 - tight
 - after protein kinase C activation, F293
 - MDCK cells, unidirectional calcium fluxes, C313
 - permeability, TNF-induced increase, F915

- venoatrial, pressure-volume relations in diabetes, H1017
- Juxtaglomerular apparatus, adenosine receptor gene expression, F991
- Juxtaglomerular cells, localization and release, angiotensin and renin, F363

K

- Kaliuresis, cholinergic activation of subfornical organ, AV3V lesion and, R1277
- Kallikreins
 - biological activity, purification and (alligator), R400
 - plasma, intravenous injection, proteolytic effects of, H405
 - urinary and renal, thyroid hormone effects, E430
- Kallikrein-kinin system, renal, pressure-induced natriuresis, F77
- KCN, toxicity, mitochondria, hepatocytes, C405
- Keratinocytes, ODC gene expression in, TPA and ultraviolet B radiation interaction, C1103
- Ketogenesis
 - epinephrine-induced, lipolysis and, E250
 - hepatic, inhibition by TNF- α , E897
 - insulin-dependent diabetes and, forearm, E261
 - tumor necrosis factor, interleukin-1 and, differential effects, E301
- α -Ketoglutarate
 - PAH countertransport, PAH uptake in renal tubules and, F384
 - respiratory activities supported by, oxygen exposure effects, lung mitochondria, L439
 - sodium-dependent uptake, liver, G871
- α -Ketoisocaproic acid, rates of hepatic gluconeogenesis, carbon dioxide use in estimation of, E36
- Ketone bodies
 - interleukin-1 and tumor necrosis factor effects, E301
 - metabolism, forearm, insulin-dependent diabetes and, E261
- α -KG: see α -Ketoglutarate
- Kidney
 - acid-base physiology (teleost), F49
 - adenosine and polyadenylic acid, exogenously administered, hemodynamic effects of, F816
 - adenosine receptor, gene expression in, F991
 - ANF regulation, high-output heart failure, H1790
 - angiotensinogen, reciprocal feedback regulation of, angiotensin II, E863
 - atriopeptin in, F503
 - autoregulation, EDRF and, awake state, F208
 - brush-border membrane, glucose and phosphate binding, C509
 - calcium ion-ATPase pump, localization of mRNA's coding, F7
 - CHIP28 water channel, localization in, C1225
 - clearance, oligopeptides, molecular structure and, F109
 - collecting duct
 - endosomes from bladder epithelial cells (toad), F62
 - hyposmotic effect of vasopressin, cAMP-dependent protein kinase and, C147
 - potassium depletion in vasopressin resistance, F705
 - water diuresis, induction by endothelin, F516
 - concentration capacity, high-protein diet effects, F1051
 - denervation, sodium-hydrogen exchange and, F328
 - digoxin secretion, cyclosporin and quinidine inhibition of, F613
 - enalaprilat handling, barrier-limited cell entry, F858
 - erythropoietin mRNA, feedback modulation of, F474
 - expression, gene for ANF, F974
 - failure
 - acute, heat shock protein 72 after, F769
 - increase of gastric mucosal blood flow and acid secretion, G75
 - function
 - angiotensin II receptor antagonist effects, nephritis, F311
 - dopamine receptor activation, fetus (sheep), R868
 - glutathione synthesis, thiol stimulation, R348
 - growth, high protein diet and, F428
 - hemodynamics
 - control after protein feeding, F1044
 - endothelin effects, F103
 - lipoxin actions, F436
 - remnant, autoregulation and renin secretion in, F1057
 - responses to amino acids, endothelium-derived nitric oxide effects, R510
 - sodium retention, reversal by verapamil, F642
 - injury, obesity and, enalapril effects, F496
 - innervation, erythropoietin formation and, F925
 - kinin antagonism, pressure-induced natriuresis, F77
 - lithium reabsorption, micropuncture study, F1128
 - localization, amino acid transport protein, F1087
 - osmolytes, dietary protein and salt effects, F594
 - oxidative metabolism, bicarbonate transport and, F342
 - polycystic, cyst-derived cells from, proteoglycan altered synthesis, F697
 - preganglionic neuron control of, spinal stimulation, H1026
 - proximal cell line, citrate transport in, C220
 - proximal tubular cells, functional differentiation, F152
 - rapid potassium adaptation, F1098
 - reduced mass, OMCD cellular morphology and, F1119
 - regional distribution of blood flow, quantitative autoradiography, F958
 - remnant
 - autoregulation and renin secretion in, F1057
 - distribution and content of renin in, F731
 - responses
 - ANP-mediated volume depletion and, R1303
 - to volume expansion, kinin receptor antagonist effects, R1136

- sodium-calcium exchanger
 - expression in diverse tissues, C1241
 - identification by polymerase chain reaction, F680
- sodium-glucose transport, comparative studies, R489
- sodium-hydrogen exchange
 - angiotensin II effects, F135
 - immunocytochemical characterization, F833
- sympathetic nervous system activity in, cold exposure and nutrient effects, F586
- sympathetic outflow, vasopressin suppression of, R1187
- thick ascending limb
 - antinatriuretic action of insulin, F175
 - development in, sodium-potassium-ATPase and oxidative enzyme effects, F237
- thick ascending limb cell line, calcitonin regulation of sodium-potassium-chloride cotransport, C563
- tissue repair, EGF effects, model of gentamicin nephrotoxicity, F806
- transepithelial permeability, TNF-induced increase in, F915
- transport, ANF and bradykinin effects, F1
- vasoconstriction, prostaglandin buffer of, genetic hypertension, F573
- vasopressin metabolism, ANP effects, R273
- Kidney cells
 - amiloride-blockable sodium channels in, aldosterone effects, C825
 - cortical, colocalization and release of angiotensin and renin, F363
 - cortical collecting duct
 - chloride channels in, F243
 - prostaglandin effects on cAMP production, C1208
 - cytoplasmic viscosity, organic osmolyte effects, C901
 - inner medullary collecting duct, basolateral sodium-independent chloride-bicarbonate exchange, F401
 - intercalated
 - cellular morphology, nephrectomy and potassium depletion effects, F1119
 - halogen interactions, F870
 - mesangial, angiotensin II receptor subtypes, F411
 - occluding junctions, protein kinase C activation and, F293
 - outer medullary collecting duct
 - acid-base transporters in, F996
 - electrophysiological properties in, F1004
 - hydrogen secretion, β -adrenergic regulation of, F1011
 - proximal tubular
 - cell volume regulation, calcium role in, R1086
 - differentiation, glucose-free media, F152
 - folate transport and binding, F841
 - transfected with c-mas oncogene, angiotensin II effects, F931
 - sodium-hydrogen exchange activity, angiotensin II modulation of (oposum), C1141
 - sodium-phosphate cotransport, phosphonoformic acid action on (oposum), F301
 - thick ascending limb, calcitonin regulation of sodium-potassium-chloride cotransport, C563
 - tubular, hydrogen peroxide-induced injury, calcium effects, F214
 - Kidney cortex
 - calcium ion-ATPase pump, localization of mRNA's coding, F7
 - calcium transport, reconstitution and partial purification of, F192
 - collecting duct
 - adaptation, acid incubation, F749
 - chloride and other halogen interaction in, F870
 - prostaglandin effects on cAMP production, C1208
 - rubidium efflux, hydrogen-potassium-ATPase enhancement of, F43
 - rubidium permeation during potassium restriction, F1134
 - membrane fraction, chloride channel-enriched, C879
 - regional distribution of blood flow, quantitative autoradiography, F958
 - renin secretion, inhibition by HETE, F665
 - thick ascending limb, basolateral membrane potassium channels in, F262
 - Kidney epithelium
 - membrane fraction, chloride channel-enriched, C879
 - sodium channels, amiloride-blockable, F392
 - Kidney glomerulus
 - α_1 - and α_2 -chain type IV collagen mRNAs, aging effects, F951
 - calcium and membrane potential, simultaneous measurement, C1302
 - calcium ion-ATPase pump, localization of mRNA's coding, F7
 - capillary network, model, F562
 - cGMP, endothelin ET_B receptors in, F1020
 - dynamics, response to hypervolemia, F284
 - experimental disease, selenium-deficient diet, F56
 - hemodynamic alterations, enalapril and, F496
 - injury, extent of, membranous glomerulopathy, F1034
 - mesangial cells
 - angiotensin II receptor subtypes, F411
 - reactive oxygen species, F466
 - responses to volume expansion, kinin receptor antagonist effects, R1136
 - Kidney medulla
 - ammonia-mediated inflammation, hyperosmolality and, R148
 - basolateral membranes, chloride channels in, F979
 - collecting duct, hydrogen secretion, β -adrenergic regulation of, F1011
 - diltiazem infusion, sodium and water excretion alteration, R1064
 - hypertonic, high-protein diet effects, renal concentration capacity, F1051
 - inner collecting duct
 - basolateral and apical actions of adenosine, F268
 - basolateral sodium-independent chloride-bicarbonate exchange, F401
 - endothelin-1 is an autocrine factor in, F607
 - inner collecting duct segments
 - cAMP production, F319
 - hormone signaling systems in, F985
 - outer collecting duct
 - cellular morphology in, F1119
 - rubidium absorption and proton secretion, F849
 - regional distribution of blood flow, quantitative autoradiography, F958
 - thick ascending limb, ion transport, adenosine effects, F482
 - thick ascending limb of Henle, sodium-potassium-ATPase and oxidative enzyme effects, F237
 - Kidney papilla
 - plasma flow, high-protein diet effects, renal concentration capacity, F1051
 - responses to volume expansion, kinin receptor antagonist effects, R1136
 - Kidney tubules
 - calcium ion-ATPase pump, localization of mRNA's coding, F7
 - cell injury, hydrogen peroxide-induced, intracellular calcium role in, F214

 - cell volume regulation, calcium role in, R1086
 - chloride transport, model, F784
 - flow rate, endothelin effects, F103
 - folate transport and binding, F841
 - glucagon effects on glomerular filtration, F24
 - hormonal regulation of ionic permeability, F144
 - intracellular pH regulation, maturation effects, F716
 - ischemia, sodium-potassium-ATPase during, F488
 - lithium reabsorption, micropuncture study, F1128
 - localization of CHIP28 water channel, C1225
 - oxidative metabolism, bicarbonate transport relations, F342
 - PTH transduction pathways, pH effects on, C941
 - S6 kinase activity, F127

Kidney tubules (*continued*)
 sodium-calcium exchanger gene in, F945
 sodium-hydrogen exchange, activation by angiotensin II, F135
 sodium-potassium-ATPase expression, low potassium and, C436
 urea and ornithine production, F878
 proximal convoluted
 collapsed, volume regulatory decrease in, F656
 pH regulation of potassium conductance, F453
 proximal straight, ANF effects on nor-epinephrine-stimulated fluid absorption, F581
 regeneration, EGF and gentamicin nephrotoxicity, model, F806
 Kinase, S6, regulation of activity, proximal tubules, F127
 Kinins
 antagonism, renal, pressure-induced natriuresis, F77
 receptors: *see* Receptors,
 Kininogen, biological activity, purification and (alligator), R400
 Kupffer cells
 endotoxin-induced oxidant stress, sinusoidal glutathione efflux during, G60
 migration, liver sinusoids, G17
 PAF effects, after bile duct ligation, G587

L

Lactase, intestinal, ontogeny of, regulation by thyroxine, G538
 Lactate
 after hemorrhage, skeletal muscle, E1035
 blood sampling, stress due to routine handling (bird), R775
 glycogen depletion reductions, metaboreceptor responses and, H1499
 insulin responsiveness and, isolated working heart, E556
 metabolism, sites of infusion and sampling effects, E817
 oxygen transport, metabolism and (pig), H208
 phosphates and, muscle fatigue (frog), C803
 production, muscle acidity and, exhaustive exercise, R891
 release, cerebral, habituation to stressful stimuli and, R722
 severe hypoxia, metabolic state of heart during (trout), R798
 tracer infusion, whole body and regional kinetics, E597
 turnover, tracer methodology, E417
 uptake, insulin-mediated, training effects, muscle, E1134
 Lactate dehydrogenase, mixed micelles, lytic effects of, G333
 Lactation: *see also* Fetus; Placenta;
 Pregnancy
 changes induced by, intestinal calcium transport, G127
 metabolism adapted to pregnancy, E766
 production of PTH-related protein, mammary gland, E1077
 Lactic acid, nonlethal hypoxia, hindlimb adaptation to, fetus, R1130
 Lactose, digestion, premature infants, stable tracer technique, E1002
 Lamellar bodies, surfactant protein C recycled to alveoli, L607

Lamellar transit time, blood, digital image analysis (shark), R741
 Laryngeal nerve, stimulation, chemoreceptor drive and, R1049
 Lecithin, bile salt hydrophobicity and, G386
 Lectins, lung growth, origin and lineage of macrophages, L299
 Lethality, TNF, cardiovascular dysfunction and, H668
 Leucine
 albumin synthesis, meal stimulation of, E794
 kinetics
 fetal, hyperinsulinemia effects, prolonged maternal fasting (sheep), E696
 low-birth-weight infants, E214
 oxidation, ammonium chloride-induced acidosis and, E735
 plasma kinetics, intensively treated diabetes mellitus, E173
 protein metabolism and, whole body and skeletal muscle, E928
 turnover, tracer methodology, E417
 Leucovorin, aspirin-induced injury and, gastric mucosa, G920
 Leukocytes
 adhesion, hemorrhage-induced ischemia and, H810
 depletion, glucose uptake, sepsis and endotoxin effects, R1324
 emigration, phalloidin prevention of, mesentery, H1637
 neutrophil activation, chloride and, C78
 polymorphonuclear
 adherence, airway epithelial cells, L79
 SPM-5185 effects on nitric oxide, H771
 postischemic microvascular disturbances, striated muscle, attenuation by hyperosmolar saline dextran, H1411
 Leukopenia, glucose uptake, sepsis- and endotoxin-induced increase in, R1324
 Leukotrienes
 complement-mediated formation, liver, G947
 hemoprotein-dependent production of, from arachidonic acid, H1546
 Leukotriene B₄
 glomerulonephritis, cyclooxygenase inhibition and, F228
 leukocyte emigration and, endothelial cell cytoskeleton, H1637
 Leukotriene C₄, secretion and metabolism, vascular compartment, H244
 Leukotriene E₄, secretion and metabolism, vascular compartment, H244
 Leydig cells, testes, endothelin-1-specific receptors in, R15
 Lidocaine
 block, basolateral potassium channels, HT-29 cells, C674
 isosmotic cell swelling, vestibular dark cells, C616
 Light
 exposure, adrenergic regulation, harderian gland, E884
 high-intensity, circadian adaptation, R428
 irradiance responsivity, unequivocal type-1 phase responsivity and, R1110
 Lineage relations, endocrine cell differentiation, pathways of, colon, G174

Linoleic acid, triacylglycerols enriched with, retention, liver and serum during fasting, R233
 Lipase
 digestion, wax ester assimilation, R464
 pancreatic secretion, CCK mechanism of, G102
 Lipids
 absorption, intestine, G927
 biliary, bile salt hydrophobicity and, G386
 digestion, wax ester assimilation, R464
 long-chain, voltage-dependent calcium current and, ventricular myocytes, H410
 metabolism, somatotropin effects, adipose tissue (pig), E637
 mucosal injury induced by, jejunum, polyamines in, G224
 neutral, assimilation, bile and (bird), R389
 nutrient composition effects, postprandial blood flow and oxygenation, developing intestine, G254
 peroxidation
 detection of, thioarbituric acid reaction and, H981
 nephron segments, F201
 peroxidized, intestinal absorption, glutathione effects, G665
 signaling, sodium conductance, skeletal muscle, C308
 surfactant proteins and, during hyperoxia, L291
 Lipocortin, inhibition, cytokine action, E632
 Lipogenesis, somatotropin effects, adipose tissue (pig), E637
 Lipolysis
 adipose tissue
 control, ectotherm vertebrates, R857
 diet-induced obesity and, female, R1248
 epinephrine-induced, recombinant human growth hormone effects, E467
 free fatty acid metabolism and, insulin regulation, E1063
 hepatic, TNF- α inhibition of, E897
 interleukin-1 and tumor necrosis factor effects, E301
 nocturnal, mevalonate production and, growth hormone effects, E168
 Lipopolysaccharides
 eicosanoid interactions and, microvascular endothelial cells, H1213
 endotoxin exposure, vascular tissue contractile function and, H1628
 fever
 interleukin-1 suppression of, R653
 TNF- α attenuation of, R987
 induction of ICAM-1, after protein kinase C, endothelial cells, C767
 monocytes activated by, interleukin-1 β production and, C1073
 production, myocytes, contractility in endotoxemia and, H1963
 pulmonary fibroblast-derived, expression and regulation of, L536
 radioimmunoassay to detect, peripheral circulation, E1092
 Lipoproteins
 actions, mesangial cells, F686
 low-density, retinal microvascular pericyte proliferation and, H634

- very-low-density, incorporation of triacylglycerol into, high-fat diet and, E615
- Lipoprotein lipase, synthesis and transport, perfused heart (guinea pig), H438
- Lipoprotein lipase gene, expression, brown adipose tissue, E500
- Lipoxins, actions, renal hemodynamics, F436
- Lipoxygenase
 - localization, pancreatic islets, E828
 - uncoupling, cardiac myocyte pairs, neonate, C494
- Lisinopril
 - ACE gene expression and, endothelial cells, C743
 - renal nerve activity and, spontaneous hypertension, R109
- Lithium
 - intracellular, activation of sodium-hydrogen exchange, muscle fibers (bar-nacle), C246
 - reabsorption, renal, micropuncture study, F1128
- Liver
 - acinus, development, connexin and glucagon receptors in, G650
 - autophagy, streptozotocin-induced diabetes, E856
 - bile formation, glutathione as osmotic driving force in, G617
 - blood flow: *see* Blood flow
 - chylomicron uptake, in nephrosis, F335
 - cold-exposed, glycogenolysis, nerve stimulation and zymosan effects, G353
 - endotoxin-induced oxidant stress, sinusoidal glutathione efflux during, G60
 - erythropoietin mRNA, feedback modulation of, F474
 - fatty acid uptake, sex differences, G380
 - freezing, freeze-tolerance and (wood frog), R185
 - glucose production, prolonged food restriction effects, E1
 - glutathione synthesis, thiol stimulation, R348
 - growth, ontogeny of, fetus (sheep), R619
 - hypercholesterolemia, adrenals and, E287
 - hypoxic injury, fructose effects, G293
 - leukotriene formation, complement-mediated, G947
 - linoleic acid-enriched triacylglycerols, retention during fasting, R233
 - membrane potential, gluconeogenesis effects, G319
 - mitochondria, biotin uptake by, G81
 - PAF effects, after bile duct ligation, G587
 - peripheral metabolism, prolonged exercise, E345
 - plasma clearance, hepatocyte growth factor and, G642
 - plasma membrane vesicles
 - organic cation transport, G775
 - phthalein uptake, G338
 - portal hypertension, intestinal myoelectrical activity and, G474
 - potassium ion conductance, hepatocytes in hyperosmotic solution, G913
 - protein synthesis, modulation of intracellular calcium effects, E958
 - rate of gluconeogenesis, carbon dioxide use in estimation of, E36
- regeneration
 - after partial hepatectomy, TNF- α antibodies and, G579
 - expression of cystic fibrosis gene during, C55
- regulation, septic shock, R553
- resting and regenerating, polyamine transport systems in, G169
- serine fluxes across, fetus in late gestation (sheep), E786
- sinusoids, Kupffer cell migration, G17
- sodium-calcium exchanger, expression in diverse tissues, C1241
- sodium-dicarboxylate cotransport, G871
- stem cells, lineage system and, G139
- system A carrier, glucagon-induced, E1021
- thyroid hormone intracellular transport, G733
- triiodothyronine conversion, before onset of obesity, E115
- ureagenesis, stimulation by gluconeogenic substrates, E493
- LLC-PK₁ cells
 - adenosine receptor-mediated pathways, localization of, C729
 - ammoniogenesis, transamination role in, C47
 - hydrogen peroxide-induced injury, intracellular calcium role in, F214
 - occluding junctions, protein kinase C activation and, F293
 - sodium-dependent transport, cystine dimethyl ester effects, C516
 - transepithelial permeability, TNF-induced increase in, F915
- Locomotor activity, circadian, aging effects, R1099
- Losartan
 - angiotensin II receptor antagonism, heart failure (sheep), H250
 - chronic administration, high-output heart failure and, H833
- LPS: *see* Lipopolysaccharides
- Lung
 - β -adrenergic responses, insulin effects, fetus, L562
 - air- and fluid-filled, urea exchange in, L619
 - aminopeptidase N expression, fetus, L460
 - anaphylaxis, pulmonary vascular response to, R1024
 - antioxidant enzyme, gene regulation, L466
 - bronchiolar epithelial cells, surfactant protein D in, L60
 - cytochrome P-450, hypoxic pulmonary vasoconstriction and, L446
 - development: *see* Development; Growth, epithelial lining, fluid, L617
 - fibroblasts: *see also* Lung cells
 - differential production of collagen and fibronectin, L283
 - IGF-I regulation of elastogenesis, L276
 - spontaneous production of PDGF, L185
 - TGF- β effects on elastin, L257
 - glucose transport pathways, type II pneumocytes (guinea pig), L612
 - hyperoxia-induced injury, food restriction effects, prematurity (guinea pig), L357
 - hypoxic vasoconstriction, almitrine mimic of, H383
- immunolocalization of antioxidant enzymes and isozymes, from glutathione S-transferase, L679
- inflammation, silicate-induced, surface complexed iron in, L511
- injury
 - downregulation of blood and bone marrow neutrophils in (sheep), H1492
 - IL-1 effects, albumin flux, L128
 - mitochondria, respiratory activity in oxygen exposure, L439
 - novel prostaglandin effects, H660
 - orosomucoid binding to, H48
- perinatal
 - ATP-sensitive potassium channels in, H1363
 - exogenous nitric oxide effects, H875
 - periodic inflation, entrainment of respiratory rhythm by, R292
 - processing of surfactant protein B, cathepsin D-like protease, L95
 - surfactant protein B, alveolar type II cells, L333
 - surfactant protein C, alternative splicing and regulation, fetus, L634
 - surfactant SP-A gene, cloning, sequence, and transcription, L546
 - tissue, blood peptide levels and, hypertension, H681
 - vasodilation, ATP-sensitive potassium channel and, neonate (pig), H1532
 - vasoreactivity, methylene blue effects, H587
- Lung cells
 - glycosaminoglycan synthesis, PDGF effects, fetus, L495
 - hydrophobic proteoglycan synthesis, multiple core proteins with, L348
 - proliferation, mechanical stretch effects, fetus, L376
 - surfactant clearance, alveolar, L201
- Lymph
 - hyaluronan flux, intestine, during fat absorption, G6
 - IgG transport into, neonate (pig), R976
 - intestinal, oxidative modification of, G573
 - measurements, transport parameter estimation from, H1972
 - protein flux, bradykinin infusion effects, H1064
- Lymphatics
 - constriction, catecholamine-mediated, H473
 - pumping, hemoglobin-induced changes, endothelial cells and, H1880
- Lymphocytes
 - CNS, inflammatory cytokines in, C1
 - cystic fibrosis phenotype to, antisense oligonucleotides to CFTR, C1147
 - inflammation, impaired acetylcholine release, intestine, G198
 - mineralocorticoid action, aldosterone membrane receptors, E974
 - sodium-potassium-chloride cotransport, β -adrenergic inhibition of, C1015
- Lymphotoxin, sleep, fever, anorexia and, R703, R708
- Lysis, cell, sialic acid removal effects, H147
- Lysophosphatidic acid, responses, *Xenopus* oocytes, C896
- Lysosomes
 - ATP-dependent proteolysis, protein deficiency and, muscle, E326

SUBJECT INDEX TO VOLUME 263

Lysosomes (*continued*)
rough endoplasmic reticulum and, streptozotocin-induced diabetes, E856

M

Macromolecules
restricted diffusion, monolayers and small-pore filters, L27
transport of
plasma and lymph (pig), R976
precocious cessation by synthetic trypsin inhibitor, intestine, suckling, R996
Macronutrients, selection, serotonin effects, R559
Macrophages
alveolar
interleukin-6 secretion, cigarette smoking effects, L471
origin and lineage, L299
surfactant clearance, L201
interleukin-1, peripheral circulation, E1092
mediation, cholesterol feeding effects, experimental nephrosis, F776
Magnesium
actions, cardiac conduction and contractions, H622
cytosolic, cytosolic calcium interference with, C300
deficiency, pathobiology of, R734
deprivation, bone histology, osteocalcin relations, E107
intracellular free, during acidosis, heart, H903
mobilization of, vasopressin and endothelin effects, vascular smooth muscle cells, C873
Magnesium-chloride, adenosine triphosphate and, effects on hepatic blood flow, G895
Magnetic resonance imaging: *see also* Nuclear magnetic resonance
Major histocompatibility complex, cytokines, CNS, C1
Malnutrition, prolonged, glucose and insulin in, E1
Malondialdehyde, mechanisms, isolated nephron segments, F201
Malonyl coenzyme A, ketogenesis and, E301
Malpighian tubules, dinitrophenol effects, R609
Mammary gland, production of PTH-related protein, pregnancy and lactation, E1077
Manganese, permeation, adrenal chromaffin cell calcium channels, C818
Mast cells
granules, cyclooxygenase activity in, L168
histamine release, gastrin induction of, G460
mediators, tobacco smoke effects, L67
whole cell current transients, substance P-induced, C736
Maturation: *see also* Development; Growth
breathing dynamics, fractal properties of, fetus (sheep), R141
changes, respiratory control, creatine kinase in heart and, C453
different stages, intracellular pH regulation in renal proximal tubule cells, F716

inositol 1,4,5-trisphosphate receptor binding, tracheal smooth muscle, L501
perinatal, sodium-calcium exchange, heart, H1506
sperm, proton ATPase in plasma membrane, C913
thyroxine regulation, lactase ontogeny, intestine, G538
MDCK cells
amino acids, anion channels for, C1200
during junction formation, unidirectional calcium fluxes, C313
muscarinic receptors in, cAMP messenger system, C1289
phosphatidylcholine-specific phospholipases, calcium activated, C1216
Meals: *see* Feeding
Meclofenamate, thromboxane actions and, placental arteries, E718
Medulla, PNMT in, diabetic hypothalamus, E335
Medulla oblongata
control of ANF secretion, heart, H198
sympathoexcitatory neurons, midbrain central gray effects, R24
Medullary raphe, stimulation, sympathetic nerve rhythms and, R564
Megakaryocyte, differential desensitization, platelet agonists, C864
Melatonin, synthesis, pineal, stimulus-evoked, sodium-hydrogen exchange and, E481
Membrane
apical
adenosine receptor-mediated pathways, renal cells, C729
airway and intestinal epithelia, chloride channels in, L1
chloride conductance, phorbol ester effects, HT-29c1.19a cells, C759
histamine-induced chloride secretion, nasal epithelium, C1190
ion transport, regulation, gallbladder (*Necturus*), C187
nutrient transport mechanisms, intestines, R458
proton pump, epididymis, C913
apical and basolateral, chloride channels in, cortical collecting duct cells, F243
basal, bumetanide-sensitive potassium transport, preimplantation conceptuses, C773
basement, hydraulic conductivity of, H1417
basolateral
adenosine receptor-mediated pathways, renal cells, C729
calcium transport, kidney cortex, F192
cation channels in, parotid secretory cells (sheep), G786
citrate transport, C220
hepatic sodium-dicarboxylate cotransport, G871
hepatocyte, organic cation transport in, G939
histamine-induced chloride secretion, nasal epithelium, C1190
nutrient absorption, intestine, R482
potassium channels, cortical thick ascending limb, F262
potassium conductance, phorbol ester effects, HT-29c1.19a cells, C759
cardiac cell, conductance, H1128

plasma
domain localization, hepatic system A carrier, E1021
iodide channel, thyroid, C590
Membrane currents, photoreleased inositol trisphosphate, *Xenopus* oocytes, C154
Mesangial cells
actions of lipoproteins, mitogenic vasoconstrictor effects, F686
angiotensin II receptor subtypes, F411
calcium and membrane potential, simultaneous measurement, C1302
cyclooxygenase synthesis in, regulation by cytokines and glucocorticoids, F97
early growth response genes in, vasoactive agent effects, F623
extracellular matrix degradation, plasmin and gelatinase role in, F1112
glomerular
angiotensin II signal transduction, diabetes, F649
reactive oxygen species on, F466
PGE₂ synthesis, glomerular endothelial cell effects, C200
proliferation, extracellular ATP stimulation of, F374
Mesenteric artery, permeabilized, transient myosin light chain phosphorylation in, C540
Mesenteric resistance arteries, composition and mechanics, in pregnancy, R2
Mesentery, proinflammatory stimuli in, leukocyte emigration induced by, phalloidin prevention of, H1637
Metabolic clearance, insulin, posthepatic, E772
Metabolic enzymes, thyroid status effects, during chronic stimulation, C788
Metabolic rate
aging effects, E448
amino acid infusion, sepsis, E129
body temperature and, variations in, E730
resting
fitness level and energy expenditure relations, E121
visceral fat accumulation and, obesity, E913
thermogenesis after surgery and, E441
Metabolites, imaging, exercise skeletal muscle, forearm, C357
Metalloporphyrins, intrahypothalamic, weight loss and, R805
Metamorphosis, amiloride-stimulated short-circuit current, calcium channel blockers and, tadpole skin (frog), R827
Methimazole, α_1 -adrenoceptor density, brown fat, hypothyroidism, E654
Methotrexate, aspirin-induced injury and, gastric mucosa, G920
N-Methyl-D-aspartate, nucleus tractus solitarius input, parabrachial neurons, R324
Methylene blue
bioassay of EDRF, diabetic aorta, H676
neurogenic cerebrovasodilation, nitric oxide and, R1156
neurogenic cholinergic vasodilator responses, pulmonary vascular bed, L575
vasoreactivity and, lung, H587
3-Methylhistidine, protein degradation, exercise effects, muscle, E1144

SUBJECT INDEX TO VOLUME 263

- Methylnorepinephrine, lymphatic constriction, adrenoceptors and, H473
- Methylpalmitate, suppression of free fatty acid-glucose cycle, exercise, E646
- N-Methylscopolamine, cultured smooth muscle cells, colonic, G365
- 5-Methyltetrahydrofolic acid, transport, proximal tubule cells, F841
- Metirapone, cytochrome P-450 and, hypoxic pulmonary vasoconstriction, L446
- Mevalonate, production, nocturnal lipolysis and, growth hormone effects, E168
- Microalbuminuria, calorie restriction effects, aging, F554
- Microangiography, collateral perfusion, EDRF and, ear, H752
- Microcirculation: *see also* Blood flow; Circulation
- albumin transport, blood-tissue, ANP infusion effects, R945
 - angiotensin II effects, skeletal muscle, H1847
 - blood volume changes in, intestine, carotid sinus baroreflex effects, H1939
 - cerebral, oxygen radicals and, H1356
 - changes, spinal cord, laser-Doppler flowmetry, H285
 - control, arterioles, intracellular recording during, H1
 - coronary
 - modulation by a nitric oxide-related mechanism, H641
 - response to endothelin and, H703
 - heart, capillary geometry and, H1369
 - hepatic, Kupffer cell migration, microscopy, G17
 - lower body suction, H1270
 - mesenteric arterioles, origin of myogenic response, H1486
 - microvascular perfusion in sepsis, various organs, G38
 - renal
 - ATP effects, F886
 - EDRF-angiotensin II interactions, F900
 - topical arachidonic acid effects, hypercapnia, postischemic newborn brain (pig), H746
- Microdialysis
- interstitial adenosine, dipyrindamole with, H552
 - thermogenic response to epinephrine, adipose tissue, E850
- Microdialysis probe, lactate after hemorrhage, skeletal muscle, E1035
- Microfilaments, cultured osteoclasts, protein kinase C effects, C130
- Microfluorimetry, arachidonic acid effects, cytosolic calcium, GH_3 effects, E903
- β_2 -Microglobulin, calcium efflux and, neonatal calvariae, F540
- Micromechanics studies, force transducer for, C700
- Microneurography, baroreflex regulation of sympathetic activity, aging and, H798
- Micropuncture, fractional techniques, intrarenal handling of proteins, F601
- Microscopy
- confocal, sodium-calcium exchanger, heart cells, C545
 - digital imaging
 - calcium signaling, epithelia, C1029
 - protein kinase C isoforms in smooth muscle, C714
- electron
- ANF binding sites, area postrema, R747
 - cytochemical detection of superoxide, H1234
 - pulmonary surfactant protein B, endosomal/lysosomal compartment, L479
 - fluorescence, sodium in ventricular cells, H866
 - imaging, vascular smooth muscle cells, H576
 - immunofluorescence, glucose transporters, red and white muscle, C443
 - immunogold electron, localization of CHIP28 water channel, kidney, C1225
 - intravital, L-selectin function, H1034
 - Kupffer cell migration, liver sinusoids, G17
 - light, bile salt hydrophobicity and biliary lipids, G386
 - scanning electron, thyrocyte response to TSH, E231
- Microspheres
- nonradioactive, measurement of regional blood flow, H1946
 - radiolabeled
 - cardiac bypass, fetus (sheep), H919
 - determination of blood flow and volume, R728
 - hepatic blood flow, G895
- Microvasculature, juxtamedullary, pre- and postglomerular, ATP effects, F886
- Microvessels
- aortic coronary, hypoxia-induced neutrophil adherence, PAF effects, H956
 - density, salt and angiotensin II effects, cremaster muscle, H664
- Midbrain, central gray, sympathoexcitation and, R24
- Migrating myoelectric complex, phase I and II, duodenal wall and tone during, G795
- Mineralocorticoids
- action
 - membrane receptors for aldosterone, E974
 - protective mechanisms, F759
 - hypertensinogenic effects, central, E1125
 - membrane conductance and, TBM cells, C384
 - regulation of ANF, gene expression and, H1377
- Mitochondria, function, response to ischemia and, dietary fish oil effects, H1479
- Mitogenesis, endothelin-1-induced, airway smooth muscle cells, L317
- Mitose, sympathetic innervation, brown adipocyte proliferation and, R1176
- Mitral valve, regurgitation, left ventricular hypertrophy, H1137
- Models
- adriamycin nephropathy, pregnancy effects on renal disease, F711
 - basement membrane, hydraulic conductivity, H1417
 - cardiac hypertrophy, H1054
 - chloride transport, proximal tubule, F784
 - chronic coronary stenosis, hibernating myocardium (pig), H20
- compartmental
- aging changes in zinc metabolism, R1162
 - non-steady-state insulin kinetics, E772
- coronary circulatory, awake state (pony), H1145
- enalaprilat handling, kidney, F858
- gastric mucosal healing, migration of IEC-6 cells, G426
- gentamicin nephrotoxicity, epidermal growth factor effects, F806
- heteroporous membrane, glomerular injury, F1034
- hypertension, ouabainlike factor, F739
- mathematical
- calculation of oxygen diffusion, H1003
 - cortical collecting tubule, F1063, F1076
- metabolic, coronary regulation, response of heart rate, H447
- multiple indicator-dilution, intracellular transport of thyroid hormone, G733
- network
- glomerular functions, F562
 - respiratory rhythmogenesis, R962
- noncompartmental, sites of infusion and sampling effects, E817
- organ perfusion, kinetic modeling and scintigraphy, F963
- oxygen transfer, gill, digital image analysis (shark), R741
- physiological, whole body and regional kinetics, E597
- population, comparing responses when each response is a curve, R206
- thoracic inferior vena caval constriction, endothelin effects, heart failure, H951
- two-compartmental, rate of appearance in, E400
- Molybdate, stimulation, ovulation and signal transduction pathways (goldfish), E943
- Monochloramine, *Helicobacter pylori* and, gastric mucosal cell injury and, G719
- Monoclonal antibodies
- anti-Mol, airway hyperresponsiveness and, L723
 - bidirectional peritoneal transport, tissue concentration profiles, F15
 - epitope mapping of, prolactin, E520
 - immunoneutralization, somatostatin restraint of gastrin secretion, G908
- Monocyte chemoattractant protein-1, regulated expression, osteoblastic cells, C194
- Monocytes, lipopolysaccharide-activated, interleukin- 1β production and, C1073
- Monolayers, small-pore filters and, restricted diffusion of macromolecules, L27
- Morphine, localization and secretion, brain, R301
- Motility
- antral, measurement during gastric emptying, G230
 - cardiac myosin, in vitro assay, H465
 - cell, force transducer for micromechanics studies, C700
 - colonic, spontaneous depolarizations in, C691
 - esophageal
 - cGMP content, guanylate cyclase inhibitor effects, G97

- Motility (*continued*)
 inhibitory junction potentials, guanylate cyclase inhibitor effects, G87
 myogenic mechanism for (opossum), G953
 gastric
 erythromycin effects, G24, G52
 lesions of hypothalamic paraventricular nucleus and, R39
 sodium chloride inhibition of, R9
 vagal control of pyloric function, G161
 gastrointestinal
 cyclic myoelectric activity after feeding, G248
 electrophysiology and neural control, G887
 enteric neurons, nitric oxide synthase in, G277
 ionizing radiation effects, G518
 parameters, fasting and, G533
 spiking electrical behavior, colonic longitudinal muscle, C237
 voltage-dependent potassium currents, colonic muscle, C226
 pyloric, control by duodenal intramural nerves, G1
 Motion artifacts, suppression, fluorescence spectroscopy, heart, H972
 Motor activity, colonic, ionizing radiation effects, G518
 Motor complex, migrating, variation of fasting intraluminal content, G533
 Mucins, pulmonary disease and, L413
 Multidrug resistance, liver regeneration, expression of cystic fibrosis gene during, C55
 Multiple-indicator dilution technique
 digoxin secretion, renal, F613
 enalaprilat handling, kidney, F858
 Muscle
 acidity, energy production and, exhaustive exercise, R891
 albumin, interstitial exclusion of, H1222
 ATP-dependent proteolysis, protein deficiency and, E326
 atrophy, glucocorticoid-induced, exercise effects, E1157
 epinephrine effects, insulin-mediated glucose uptake, E199
 exercising, forearm, intramuscular heterogeneity in, C357
 fast- and slow-twitch, regulation of oxygen consumption, C598
 fatigue, phosphate role in (frog), C803
 GLUT-4 content, exercise training and, obesity, E1015
 GLUT-4 glucose transporters, aging and exercise effects, E362
 glycogen, glucose carbon uptake in, E473
 insulin-mediated glucose uptake, exercise training effects, E1134
 mechanics, myosin phosphorylation, C540
 metaboreceptors, glycogen depletion and, H1499
 peripheral metabolism, prolonged exercise, E345
 protein degradation, exercise effects, E1144
 protein turnover, suppression by dietary protein deficiency, E317
 respiratory, exercise effects on cellular alterations, R1093
 rhythmically contracting, sympathetic modulation of blood flow and oxygen uptake, H1078
 striated
 creatine kinase subunit mRNAs in, diabetes, E310
 ischemia-reperfusion injury, no reflow in, H1892
 ischemia-reperfusion injury, reflow paradox in, H1901
 oxygen diffusion in (hamster), H35
 postischemic microvascular disturbances, hyperosmolar saline dextran, H1411
 torque profile and, hip joint (frog), R586
 Muscle, heart
 anoxic, ATP formation and energy demand in, H526
 C5a contractile actions (pig), H740
 collagen characteristics, aging- and training-induced alterations, H778
 contractility, portal vein stenosis and, G181
 endocardial endothelium, H985
 isoforms, ryanodine receptor relations (frog), C365
 myocytes, cytosolic pH in, H276
 Muscle, skeletal
 adenylate cyclase activity in, electrical pacing and, E226
 5'-aminolevulinate synthase activity, anemia effects, C429
 AMP deaminase kinetics, myosin binding and, C294
 apamin receptors, colchicine-induced increase, C794
 arteriolar contraction, angiotensin II and, H1847
 blood flow: see Blood flow
 clenbuterol anabolic effects, β_2 -adrenoceptor activation and, E50
 contracting, AMP deaminase binding in, C287
 developmental changes, hindlimb and diaphragm (sheep), R900
 exercise, IGF-I action on, E340
 fat availability effects, acetyl-CoA and acetylcarnitine metabolism, C653
 fatigue effects, isometric force development, C1065
 forced dive effects, indirect calorimetry and ^{31}P -NMR (duck), R1309
 function, hypothyroidism effects, C86
 glucose transport, calcium channel blocker effects, R70
 glycogenolysis, hypoxia and, E1086
 isoforms, ryanodine receptor relations (frog), C365
 lactate, after hemorrhage, E1035
 postischemic, phospholipid peroxidation in, H1695
 postnatal expression of GLUT-4, E102
 protein metabolism, leucine as regulator of, E928
 protein synthesis, stimulation by amino acids, E453
 red and white
 glucose transporters in, C443
 insulin and inulin uptake, H1170
 sodium-calcium exchanger, expression in diverse tissues, C1241
 sodium conductance, fatty acid modulation of, C308
 Muscle, smooth
 airway
 hydrogen peroxide effects on responsiveness, L402
 hydrogen peroxide modulation of, L714
 measurement of acetylcholine release (guinea pig), L142
 aortic, TGF- β_1 and, C420
 arterial
 isometric biaxial tension of, H30
 relaxation, myoplasmic calcium ions, C468
 relaxation, nitrovasodilators and, C461
 single calcium channel currents, C948
 bronchial, calcium channels in, carbachol effects, C69
 calcium and potassium channel-mediated relaxation, pulmonary artery, chronic hypoxia effects, L88
 calcium-independent isoforms, protein kinase C, C714
 calcium influx, via sodium-calcium exchange, aortic myocytes, C628, C635
 cerebral arterial, epoxycosatrienoic acid actions on, H519
 chloride channel, lower esophageal sphincter, G115
 circular
 colonic, characterization of cells in culture, G365
 opioid receptors in, G269
 colonic circular, voltage-dependent potassium currents, C226
 colonic longitudinal, outward currents, spiking electrical behavior and, C237
 coronary venous, EDRF in reperfusion injury, H850
 corpus cavernosum, α_1 -adrenergic contractions in, H15
 esophageal
 cGMP content, guanylate cyclase inhibitor effects, G97
 inhibitory junction potentials, guanylate cyclase inhibitor effects, G87
 myogenic mechanism for peristalsis (opossum), G953
 esophageal circular, chloride-mediated inhibitory junction potentials in (opossum), G135
 gastric
 monolayers, intercellular coupling by gap junctions in, G261
 negative-feedback control of excitation-contraction coupling, C1160
 hemoglobin-induced changes, lymphatic pumping, H1880
 hyperplasia, obstructed bladder (guinea pig), R1284
 ileal, neurotensin-induced inhibition, G767
 lymphatic, adrenoceptors and, H473
 myometrium, calcium-activated potassium channels in pregnancy, C1049
 permeabilized, cooperative activation of myosin, C210
 plasmalemmal vesicles, calcium ion uptake, calmodulin stimulation of, H366
 pulmonary and systemic vascular, mechanics, newborn (sheep), H881
 relaxation, protein kinase A and, G360
 tracheal
 maturation of 1,4,5-trisphosphate receptor binding, L501
 muscarinic stimulation of, calcium sensitivity during, C1258
 respiratory epithelium interaction, L137
 ureter, twitch contraction, ureter (guinea pig), C953

SUBJECT INDEX TO VOLUME 263

- vascular
 - age-related changes, H1190
 - calcium currents, portal vein myocytes, H453
 - intercellular diffusion of calcium ions in, C373
 - myogenic response, cellular mechanisms in, H647
- Muscle cells
 - aortic and coronary smooth, ANP effects on cGMP, H710
 - aortic smooth
 - IGF-I regulation of elastogenesis, L276
 - regulation of prostacyclin production, E800
 - TGF- β effects on elastin, L257
 - circular smooth, colonic, characterization in culture, G365
 - corporal smooth, intercellular diffusion of calcium ions in, C373
 - gastric smooth, M-current, diacylglycerol effects on ACh, C1274
 - heart
 - after myocardial infarction, captopril effects, H841
 - enkephalin peptide biosynthesis, H1560
 - intestinal, opioid receptors in, G269
 - respiration, control of, C598
 - smooth
 - airway, agonists activate calcium channels in, C106
 - airway, endothelin-1 regulation of, L317
 - airway, thromboxane-induced proliferation of, L555
 - blood flow control, intracellular recording and dye transfer in, H1
 - calcium mobilization, aorta (hamster), H68
 - coronary artery, potassium channel activities, vasopressin effects (pig), H491
 - differences in nuclear and cytoplasmic calcium transients, C95
 - growth, C-type ANP inhibition, C1001
 - inositol phosphate synthesis, calcium modulation of, C535
 - modulation of cGMP in, L113
 - nucleocytoplasmic calcium transients in, C978
 - pulmonary arterial, stretching effects on calcium influx, L602
 - pulmonary artery, contractile responses of, L384
 - pulmonary artery, endothelin-1 effects on DNA synthesis, C1295
 - spontaneous depolarizations, colon, C691
 - vascular smooth
 - calcium waves and calcium release, H576
 - heparin suppression of endothelin-1 actions, hypertension, R1035
 - magnesium mobilization, vasopressin and endothelin effects, C873
 - stretch-induced increase in intracellular calcium, H1292
 - thromboxane A₂ effects on proliferation, H1331
- Muscle fibers
 - glycogen, glucose carbon uptake in, E473
 - red and white, glucose transporters in, C443
 - sodium-hydrogen exchange, activation by lithium (barnacle), C246
- types
 - AMP deaminase binding in, C287
 - insulin and inulin uptake, H1170
- Myenteric plexus
 - acetylcholine release, neurokinin receptors and, G659
 - myenteric neurons, 5-hydroxytryptamine actions in (guinea pig), G838
- Myocardial wall, thickness, response to exercise in pressure overload, H1011
- Myocardium
 - α -adrenergic vasoconstriction in, during sympathetic nerve stimulation, H1682
 - alterations, coronary artery narrowing and, H117
 - 2,3-butanedione monoxime negative inotropic effect, cellular basis of, H503
 - capillary length, tortuosity, and spacing, during cardiac cycle, H1369
 - conduction, heptanol or potassium perfusion effects, H1382
 - dysfunction
 - after multiple brief coronary occlusion, H1703
 - exercise training and, H804
 - TNF and, H668
 - extent and velocity of contraction, dobutamine determination of, awake state (sheep), H1250
 - hibernating, model of chronic coronary stenosis (pig), H20
 - interstitium, aging and training effects, H778
 - infarction: *see* Infarction
 - ischemia: *see* Ischemia
 - ischemia-reperfusion, SPM-5185 effects on nitric oxide, H771
 - isolated, C5a contractile actions (pig), H740
 - mechanics, VIP effects, closed-chest, H1300
 - nonischemic contraction pattern, afterload and β -adrenergic blockade effects, H1716
 - normal and stunned, reactive hyperemia, adenosine for (pig), H1119
 - oxygen consumption, coronary autoregulation and, H691
 - performance, diabetic DOCA-hypertension, H1798
 - protection
 - adenosine A₁ receptors and, H1460
 - PEG-SOD and, H1243
 - reactive hyperemia, role of endothelium-derived nitric oxide in, H8
 - sarcomere lengths, beating hearts, H293
 - stunned, mechanical dysfunction in (pig), H544
 - work and metabolism, recruitment of, H1724
- Myocytes: *see also* Cardiomyocytes; Heart cells
 - angiotensin detection in, C851
- aortic
 - altered calcium mobilization in (hamster), H68
 - calcium influx via sodium-calcium exchange, C628, C635
- atrial
 - chloride current in, H1967
 - dexamethasone-induced differentiation, H722
 - calcium ion mobilization, extracellular ATP, C933
 - calcium waves in, H327
- colonic, spontaneous depolarizations in, C691
- contractility, endotoxemia, nitric oxide effects, H1963
- cytosolic pH in, H276
- electrophysiological properties of, temperature dependence (guinea pig, squirrel), R177
- enkephalin peptide secretion, translation of heart preproenkephalin mRNA and, H1560
- gap junctions, differences, C959
- pairs, eicosanoid uncoupling of, C494
- portal vein, calcium current characteristics in, H453
- sodium-hydrogen exchange, α -adrenergic stimulation of, C1096
- spared, after myocardial infarction, captopril effects, H841
- ventricular
 - ectonucleotidases of, adenosine production and, H40
 - endothelin stimulation of multiple responses, H1447
 - sodium-calcium exchange-mediated contractions, H1161
 - sodium efflux mechanisms, H866
 - voltage-dependent calcium current in, acylcarnitine effects, H410
- Myoelectric activity
 - cyclic, after feeding, small intestine, G248
 - gastric, erythromycin effects, G24
 - intestinal, chronic portal hypertension, G474
- Myogenic response
 - arterioles, sympathetic nerve stimulation, H1185
 - autoregulation of flow, sympathetic nerve stimulation, H1177
 - origin of, mesenteric arterioles, H1486
- vascular
 - cellular mechanisms involved in, H647
 - intracellular calcium, vascular smooth muscle cells, H1292
- Myogenic tone, venous, H315
- Myoid cells, peritubular, endothelin-1-specific receptors in, R15
- Myometrium
 - calcium-activated potassium channels in, pregnancy, C1049
 - signal transduction pathways in, diverse prostaglandin receptors and, C257
- Myosin
 - binding, altered AMP deaminase kinetics, C294
 - cardiac, sliding velocity of, H465
 - content, vascular smooth muscle, newborn (sheep), H881
 - cooperative activation of, permeabilized smooth muscle, C210
 - degradation, contractile arrest and, neonatal heart cells, C642
 - developmental changes, hindlimb muscles and diaphragm (sheep), R900
 - phosphorylation
 - agonist activation of permeabilized arteries, C540
 - uncoupling stress from, arterial smooth muscle relaxation, C461
- Myosin isoenzymes, coronary artery narrowing, myocardial alterations and, H117
- Myosin isoforms, maximal shortening velocity and, muscle response to hypothyroidism, C86

Myotonia, apamin receptors, skeletal muscle, C794

N

NADPH diaphorase, colocalization, enteric neurons, proximal colon, G277
 Naloxone, cardiac nerve stimulation and, H153
 Nasal epithelium
 chloride secretion
 extracellular ATP and, C348
 histamine-induced, C1190
 Nasal mucosa, adrenergic vasomotor responses in (seal), R1291
 Nasal vein, drainage, adrenergic vasomotor responses (seal), R1291
 Natriuresis
 ANP-mediated volume depletion and, R1303
 cholinergic activation of subformal organ, AV3V lesion and, R1277
 dopamine receptor-mediated
 fetus (sheep), R868
 ontogeny of, R631
 high-output heart failure, chronic captopril and losartan effects, H833
 interstitial diltiazem infusion and, kidney medulla, R1064
 pressure-induced, renal kinin antagonism and, F77
 saline, awake state, H792
 Neonate: *see also* Infant; Newborn
 brown fat, adrenergic regulation of adenylyl cyclase in, R34
 calcium efflux, β_2 -microglobulin-induced, F540
 development, production of PTH-related protein in mammary gland during pregnancy and lactation, E1077
 epidermal growth factor administration, early metabolic consequences of, E920
 fasting plasma creatine in (seal), E570
 low-birth-weight, glucose kinetics in, E844
 myosin degradation, heart cells, C642
 pulmonary vasodilation, ATP-sensitive potassium channel and (pig), H1532
 renin-angiotensin system, cardiac, C838
 selective transport of macromolecules, plasma and lymph (pig), R976
 Neostigmine, noradrenergic neuronal activity, stress hyperglycemia and, E823
 Nephrectomy
 cAMP, extrarenal vasopressin receptors and, H1888
 potassium depletion and, cellular morphology of outer medullary collecting duct, F1119
 remnant kidney after, distribution and content of renin in, F731
 Nephritis
 Heymann
 angiotensin II receptor effects, F311
 peripheral chylomicron catabolism in, F335
 passive Heymann, selenium-deficient diet, F56
 Nephron
 distal
 α - and β -ATPase isoforms along, C810
 prostaglandin E_2 -induced cell swelling, F824
 insulin, antinatriuretic action in, F175
 isolated segments, lipid peroxidation in, F201

protein handling, fractional micropuncture techniques, F601
 urea and ornithine production, localization of, F878
 Nephropathy
 adriamycin, pregnancy effects on renal disease, F711
 aging, microalbuminuria, F554
 obstructive, enhanced intrarenal angiotensin generation and, F527
 Nephrosis
 experimental
 cholesterol effects, macrophage mediation of, F776
 erythropoietin metabolism in, F812
 high-protein diet in, arginine effects on albumin synthesis, F907
 peripheral chylomicron catabolism, hepatic uptake and, F335
 Nephrotic syndrome
 experimental, erythropoietin metabolism in, F812
 oncotic pressure, gene transcription and, C397
 tubule fluid iron, toxicity of, F637
 Nephrotoxicity, gentamicin, epidermal growth factor effects, model, F806
 Neural control
 cardiovascular system, input to nucleus tractus solitarius, R368
 electrophysiology and, proximal duodenum, G887
 Neural mechanisms, neurohypophysial resistance arteries, H1605
 Neuraminidase, sarcolemmal, removal effects, H147
 Neurohormonal mechanism, pancreatic exocrine secretion, sodium oleate and L-tryptophan, G12
 Neurohumoral control, coronary vasoconstriction, thromboxane A_2 effects, H1045
 Neurohypophysis
 oxytocin inhibition, angiotensin-induced salt appetite, R1347
 resistance arteries, neural mechanisms regulating, H1605
 vasopressin and ACTH, awake state, R382
 Neuroimmunology, substance P-induced whole cell current transients, RBL-2H3 cells, C736
 Neurokinin, receptor: *see* Receptors
 Neurokinin A, neutrophil chemotactic activity, bronchial epithelial cells, L226
 Neurons
 A5, splanchnic nerve response, R437
 A1 area, chemoreceptor and baroreceptor responses, R310
 adrenergic, diabetic hypothalamus, E335
 cholinergic, intestinal anaphylaxis and, G847
 enteric
 NADPH diaphorase colocalization in, colon, G277
 vagally innervated, stomach (guinea pig), G709
 motor, TRH effects, G508
 myenteric, 5-hydroxytryptamine actions, gastric antrum (guinea pig), G838
 pontine reticular, tonic vasomotor control from, H1567
 preganglionic, spinal stimulation to locate, kidney, spleen, and intestine, H1026

submucosal, distension-induced secretion, colon, G108
 supraoptic
 baroreflex inhibition of, catecholamines and, R363
 depolarization, angiotensin II receptors and, R1333
 sympathoexcitatory, midbrain central gray effects, R24
 thermosensitive, networks, diencephalon, R670
 Neuropeptides
 electrolyte transport and, intestine, G502
 neutrophil adherence and, endothelial cell monolayers, G678
 post-nerve stimulation hyperemia, intestine, G29
 relaxation induced by, smooth muscle, protein kinase A role in, G360
 release, pancreatic, during hypoglycemia, E8
 vascular responses and, PACAP and VIP, H1659
 Neuropeptide Y
 coronary vasoconstriction and, thromboxane A_2 effects, H1045
 hypothalamic, gastric acid output and, G726
 Neurotensin, inhibition, ileal smooth muscle, G767
 Neurotransmitters
 sympathetic, insulin secretion and, E72
 whole cell current transients, substance P-induced, C736
 Neutral endopeptidase, inhibition, pharmacokinetics of urodilatin and ANF, E870
 Neutropenia, glucose uptake, sepsis- and endotoxin-induced increase in, R1324
 Neutrophil-activating factor, hemoprotein-dependent production of, from arachidonic acid, H1546
 Neutrophil-activating peptide-2, generation, cathepsin G and cathepsin G-treated platelets, L249
 Neutrophils
 accumulation, interleukin-8 effects, trachea, L708
 adherence
 EDRF dysfunction in reperfusion injury, heart, H850
 hypoxia induced, endothelial cells, PAF and, H956
 neuropeptide-induced, endothelial cell monolayers, G678
 adhesion, L-selectin function in, physiological shear rates, H1034
 blood and bone marrow, downregulation of, acute lung injury (sheep), H1492
 chemotaxis, bronchial epithelial cells, L226
 glucose metabolism, granulocyte colony-stimulating factor and, R1122
 intracoronary L-arginine, reperfusion injury, H1650
 permeabilized, anion role in activation, C78
 PMA-activated
 aortic endothelial ectoenzyme activities, L657
 pulmonary endothelial ectoenzyme activities, L650
 sequestration, lung, circulating xanthine oxidase effects, L394

SUBJECT INDEX TO VOLUME 263

- Newborn: *see also* Infant; Neonate
 baroreflex control, renal nerve activity and heart rate (sheep), H1819
 catecholamine responses, free and sulfoconjugated (sheep), E23
 gaseous metabolism, hypoxia and ambient temperature effects, R267
 smooth muscle mechanics, pulmonary and systemic vascular (sheep), H881
 tissue oxygen uptake, effects on autoregulation, postnatal intestine (swine), G690
- NHE-1, immunolocalization of, kidney, F833
- Nicotinamide adenine dinucleotide, fluorescence spectroscopy, heart, H972
- Nifedipine
 action potential conduction, ventricular cells (guinea pig), H1591
 diverse effects, glucose transport, skeletal muscle, R70
 electrical activity, atrial, G880
- Nigericin, regulation, intracellular pH, Saos-2 cells, C1266
- Nisoldipine, spontaneous depolarizations and, colonic smooth muscle cells, C691
- Nitric oxide
 cerebrovasodilation and, cerebellar fastigial nucleus, R1156
 collateral flow and, after arterial occlusion, ear, H752
 cysteine-containing, SPM-5185 effects, myocardial ischemia-reperfusion, H771
 decreased serotonin contraction and, carotid and uterine arteries during pregnancy (guinea pig), H1764
 dietary arginine effects, nephrosis, F907
 endothelium-derived
 gastric hyperemia and acid secretion in renal failure, G75
 hemodynamic response to amino acids and, R510
 myocardial reactive hyperemia and, H8
 exogenous, transitional pulmonary circulation and, H875
 heterogeneity of, nitro-L-arginine resistance and, H1090
 infarct size and, middle cerebral arterial occlusion, spontaneous hypertension, H1632
 intracoronary, reperfusion injury, H1650
 mechanism related to, coronary venular permeability, H641
 modulation of, femoral arteries, H103
 neural control, electrophysiology and, gastric emptying, G887
 platelet, adhesion to pulmonary vascular endothelium, H606
 production, myocytes, contractility in endotoxemia and, H1963
 prostacyclin and, myocardial ischemia, H1390
 renin release and, F256
- Nitric oxide synthase, colocalization, enteric neurons, proximal colon, G277
- Nitroarginine, renin release and, F256
- Nitro-L-arginine
 resistance, heterogeneity of endothelium-dependent relaxation, H1090
 response to hypoxia and, pulmonary arteries, H141
- Nitrocysteine, modulation of cGMP, vascular cells, L113
- Nitrogen, urinary excretion, intensively treated diabetes mellitus, E173
- Nitrogen dioxide, exposure, impairment of surfactant protein A after, L177
- Nitroglycerin
 after partial baroreceptor denervation, awake state, H697
 vascular reactivity, methylene blue and, lung, H587
- Nitroprusside
 baroreflex responsiveness, long-term caloric restriction effects, H1021
 vascular reactivity, methylene blue and, lung, H587
- Nitrovasodilators, arterial smooth muscle relaxation, C461
- Nonepithelial cells, small liner chloride channels endogenous to, C708
- Nonsteroidal anti-inflammatory drugs, blood flow and, ulcer site, stomach, G155
- Noradrenergic cells, A5, splanchnic nerve response, R437
- Norepinephrine
 α_1 -adrenoceptor density, brown fat, hypothyroidism, E654
 age-related changes, resistance arteries, H1190
 amino acid imbalance and, prepyriform cortex, R885
 blood oxygen content relations, during hypoxia (trout, eel), R240
 brown fat responses, strain differences in rats, R59
 cerebrospinal fluid, behavioral arousal and myocardial ischemia, H83
 clearance, congestive heart failure, H56
 cold and diet effects, sympathetic nervous system activity, kidney, F586
 corticosterone and, role during anoxia and recovery (turtle), R770
 depletion of diagonal band, baroreflex inhibition of supraoptic neurons and, R363
 economy of pressure and, heart, H715
 EDRF-angiotensin II interactions, renal microvascular, F900
 endothelin sensitivities, renal arterioles, F894
 energy expenditure, moderate cold exposure effects, women, E1040
 fluid absorption stimulated by, ANF inhibition of, proximal straight tubules, F581
 free and sulfoconjugated, responses at birth (sheep), E23
 galanin and, release, pancreatic sympathetic nerves during hypoglycemia, E8
 glycogenolysis and, hepatic nerve, G353
 hypertension, sympathetic stimulation, cerebral blood flow and, H511
 hypertrophic growth, protein kinase C and, cardiomyocytes, C319
 insulin release, hypertension and, E935
 lipoprotein lipase gene expression, brown fat, E500
 lymphatic constriction, adrenoceptors and, H473
 myocardial, chronic coronary arterial stenosis effects, H929
 noradrenergic neuronal activity, stress hyperglycemia and, E823
 overflow, cardiac nerve stimulation, H153
- passive autoregulation, portal venous pressure, G702
- portal-systemic collaterals, portal hypertension, G544
- protein synthesis stimulated by, brown adipocytes, R1003
- regulation, neurohypophyseal resistance arteries, H1605
- selective activation, adrenal medulla, R716
- sympathetic innervation, brown adipocyte proliferation and, R1176
- thermogenesis after surgery and, E441
- training and, coronary arterial vascular smooth muscle (pig), H372
- venoconstriction, pial, α_2 -adrenoceptors in (pig), H1907
- Nuclear magnetic resonance ³¹P-
 control of muscle cell respiration, C598
 high-energy phosphates, heart during metabolic acidosis, H903
 hypocapnic-hypoglycemic interactions in cerebrum, H1864
 maturational changes in cardiac respiratory control, C453
 metabolic responses to forced dives (duck), R1309
 visceral fat accumulation, obesity, E913
- Nucleotides
 adenine, CCK binding affinity states, pancreatic acini, G44
 extracellular, calcium and, osteoblastic cells, C1040
- Nucleotides, cyclic
 DHP-sensitive calcium conductance, ANP receptor subtypes, C334
 regulation of myoplasmic calcium ions, arterial smooth muscle relaxation, C468
- Nucleus, calcium transients, smooth muscle cells, C978
- Nucleus tractus solitarius
 arterial chemoreceptor input to, R368
 blood pressure control and, chronic sinoaortic denervation, R258
 excitatory amino acid mediation, input to parabrachial neurons, R324
- Nutrients
 intake, sympathetic nervous system activity and, kidney, F586
 intestinal absorption
 basolateral membrane in, R482
 diverticula, invertebrates, R472
 intestinal transport, R457
 apical membrane mechanisms of, R458
 dietary control of, R496
 during ontogeny, vertebrates, R496
 maintenance during hibernation, R517
 pyloric motility, duodenal intramural nerves and, G1
 transporters, ontogenetic development of, intestine, G593, G605
- Nutrition
 luminal, intestinal secretion after jejunal bypass (squirrel), R1209
 protein metabolism, intensively treated diabetes mellitus, E173
 total parenteral
 amino acid infusion in sepsis, E129
 gastric mucosa and, E368
- Nystatin
 currents induced by, T84 cells, C780
 protein kinase C activation, chloride-secreting epithelia, C140

O

- Obesity
 - body temperature, metabolic rate and, interindividual variations, E730
 - body weight regulation, underfeeding and, normal-weight young men, R251
 - dietary
 - adipose tissue lipolysis and, female, R1248

 - renal osmolytes and, F594
 - sympathetic nervous system activity and, kidney, F586
- dietary deficiency, muscle protein turnover and amino acid degradation with, E317
- fatty acid binding, liver, sex differences in, G380
- folate-binding, proximal tubule cells, F841
- guanine-nucleotide binding, renal mesangial cells, F411
- guanine nucleotide regulatory, membrane permeability and, renal brush-border membrane, F144
- heat shock, after renal ischemia, F769
- heparin-binding, hepatocyte growth factor and, G642
- inositol trisphosphate-gated channel, olfactory cilia, C667
- intrarenal handling of, fractional micropuncture techniques, F601
- lymph flux, extravascular uptake and, skin, H895
- membrane, NHE-1 immunolocalization, kidney, F833
- metabolism
 - intensively treated diabetes mellitus, E173
 - whole body and skeletal muscle, leucine effects, E928
- nutrient composition effects, postprandial blood flow and oxygenation, developing intestine, G254
- parathyroid hormone-related, production in mammary gland, pregnancy and lactation, E1077
- phosphorylation, hydrosimotic effect of vasopressin, C147
- purification, amiloride-binding subunit, C1111
- renin mRNA and, remnant kidney, F731
- surfactant-associated, endosomal/lysosomal compartment, L479

Proteins (continued)

- synthesis
 - amino acid stimulation of, skeletal muscle, E453
 - aortic perfusion pressure and, heart, H1537
 - gastric mucosal healing and, model, G426
 - gut, sepsis effects, E368
 - longitudinal variations in, developing intestine (lamb), R1318
 - modulation of intracellular calcium and, liver, E958
 - norepinephrine-stimulated, brown adipocytes, R1003
 - thyroid hormone effects on cardiac gene expression, E534
 - transvascular flux, bradykinin infusion effects, skin, H1064
 - turnover, pregnancy, E624
- Protein genes, mucin, pulmonary disease, L413
- Protein kinase
 - ANP effects, E181
 - cAMP-dependent
 - activation by cGMP, chloride transport, intestine, C607
 - hydrosmotic effect of vasopressin and, collecting duct, C147
- Protein kinase A
 - phosphorylation, enhancement of sodium currents and, *Xenopus* oocytes, C660
 - protooncogene expression, A5 cells, G934
 - regulation, calcium ion mobilization, myocytes, C933
 - relaxation induced by, smooth muscle, G360
- Protein kinase C
 - acetylcholine release and, myenteric plexus, G659
 - activation, development of tight junction after, F293
 - ANF and bradykinin interaction, transport of M-1 cortical collecting duct cell line, F1
 - angiotensin II effects, kidney cells (opossum), C1141
 - arteriolar constriction induced by, reversal by hydrogen and potassium in CSF (piglet), H1455
 - calcium-activated phosphatidylcholine-specific, MDCK cells, C1216
 - calcium-independent isoforms, smooth muscle, C714
 - carbachol's secretory action and, T84 cells, C140
 - cardiac α_1 -adrenoceptors, streptozotocin-induced diabetes, E425
 - excitation-contraction coupling and, gastric smooth muscle, C1160
 - hypoxic contraction, pulmonary arterial, L73
 - ICAM-1 induction and, endothelial cells, C767
 - induction of early growth response gene and, mesangial cells, F623
 - inhibitors, basilar artery constriction and, H1643
 - mechanisms, isolated nephron segments, F201
 - myosin degradation, contractile arrest and, heart cells, neonate, C642
 - osteoclast function and, C130
 - pepsinogen secretion, permeabilized chief cells, G452
 - phorbol ester effects and, potassium and chloride conductance, HT-29c1.19a cells, C759
 - protooncogene expression, A5 cells, G934
 - regulation
 - calcium ion mobilization, myocytes, C933
 - ornithine decarboxylase, IEC-6 cells, G742
 - prostacyclin production, aortic smooth muscle cells, E800
 - S6 kinase activity and, proximal tubules, F127
 - translocation of, cardiomyocyte growth and, C319
 - vascular myogenic response and, H647
- Proteinuria
 - angiotensin II receptor antagonist effects, Heymann nephritis, F311
 - arginine effects, high-protein diets in nephrosis, F907
 - erythropoietin metabolism, pharmacokinetics and, F812
 - peripheral catabolism, in nephrosis, F335
 - pregnancy effects, adriamycin nephropathy model, F711
- Proteoglycans, altered synthesis of, polycystic kidneys, F697
- Proteolysis, phenylalanine metabolism, type 2 diabetes, E877
- Proteolytic pathways, protein deficiency and, muscle, E326
- Proton-adenosine triphosphatase
 - bicarbonate-secreting intercalated cells, C521
 - outer medullary collecting duct cells, F1004
 - vacuolar, cDNA sequence and tissue expression, F171
- Protooncogenes, early response, differential expression, A5 cells, G934
- PTH: see Parathyroid hormone
- Pulmonary artery
 - calcium and potassium channel-mediated relaxation, chronic hypoxia effects, L88
 - catecholamine reactivity, sodium-potassium-ATPase inhibition of, H910
 - endothelial cells
 - ACE gene expression, converting enzyme inhibitor effects, C743
 - restricted diffusion of macromolecules, L27
 - hypoxic contraction, L73
 - mechanical characteristics, newborn (sheep), H881
 - novel prostaglandin effects, H660
 - relaxation, guanylyl cyclase-mediated, chronic hypoxia effects, L325
 - response to hypoxia, cGMP mechanisms in, H141
 - smooth muscle cells, contractile responses of, L384
 - stimulation of ACE, dexamethasone and, endothelial cells, L645
 - transendothelial albumin flux, IL-1 effects, L128
- Pulmonary disease, mucins in, L413
- Pulmonary epithelium
 - air- and fluid-filled, urea exchange in, L619
 - fluid, quantitative assessment, L617
- Pulmonary fibrosis
 - collagen and fibronectin production, fibroblast subpopulations, L283
 - PDGF production, fibroblasts, L185

- Pulmonary vascular bed, methylene blue effects, neurogenic cholinergic vasodilator responses, L575
- Pulmonary vascular response, platelet-activating factor, H234
- Pulmonary vascular tone, ATP-sensitive potassium channels, fetus, H1363
- Pulmonary veins
 - endothelin-1 effects (sheep), L15
 - flow, pericardial constraint effects on atrioventricular interactions, H125
- Pump
 - calcium
 - gestational changes, placenta, R930
 - peroxide effects, coronary artery (pig), H537
 - transport activity, kidney cortex, F192
 - calcium ion-ATPase, localization, kidney, F7
- proton
 - hydrogen-ATPase expression, osteoclasts, F277
 - mantle epithelium (clam), R76
 - outer medullary collecting duct cells, F1004
 - plasma membrane of epididymis, C913
- sodium
 - isoform expression, heart (ferret), H1430
 - oxidant stress alterations of, vascular endothelial cells, H96
 - ventricular myocytes, H866
- sodium-potassium
 - erythrocyte membranes, C1007
 - potassium depletion in vasopressin resistance, F705
- sodium-potassium-ATPase, rapid recruitment of, cortical collecting tubule, C61
- Purinergic agonists, vasomotor effects of, afferent arterioles, F1026
- Purkinje cells, membrane and synaptic activity, during anoxia (turtle), R1057
- Puromycin aminonucleoside, selenium-deficient diet and, experimental glomerular disease, F56
- Putrescine
 - effect on S-adenosylmethionine decarboxylase, small intestine crypt cell line, G494
 - lipid-induced mucosal injury and, jejunum, G224
 - nuclear, during spermatogenesis, C343
 - transport systems, hepatocytes, G169
- PVN: see Hypothalamus, paraventricular nucleus
- Pylorus, innervation, motility and gastric emptying, G161
- Pyrogens, endogenous, TNF- α attenuation of, R987
- Pyruvate carboxylase, stimulation of urea-gene, gluconeogenic substrates and, E493

Q

- Quinidine
 - block, basolateral potassium channels, HT-29 cells, C674
 - inhibition, renal digoxin secretion, F613
 - isomotic cell swelling, vestibular dark cells, C616
- Quinine
 - chloride activity and, during osmotic stress, hepatocytes, G566
 - isomotic cell swelling, vestibular dark cells, C616

Quinuclidinyl benzilate, muscarinic cholinergic receptors, adrenal gland, H1208

R

Radiation, ionizing, colonic motor activity and, G518
 Radioligands, characterization of opioid receptors, intestinal muscle cells, G269
 RBL-2H3 cells, whole cell current transients, substance P-induced, C736
 Receptors
 adenosine
 gene expression, kidney, F991
 localization, LLC-PK₁ cells, C729
 adenosine A₁
 cell line (28A) from collecting tubule, C502
 postischemic recovery and, H1460
 adrenergic
 calcium mobilization, aorta (hamster), H68
 local temperature effects on vasoconstriction, H1197
 pulmonary artery smooth muscle cells, L384
 α -adrenoceptor
 age changes in, resistance arteries, H1190
 during estrogen-induced vasodilation, E837
 β -adrenoceptor
 fetal growth retardation, neonatal adaptation and, E575
 responses in coronary arteries, H1472
 α_1 -adrenoceptor
 cardiac, diabetes, E425
 increased density, brown fat, E654
 signaling, chronic coronary arterial stenosis effects, H929
 trophic effects of catecholamines on PTH, H1739
 α_2 -adrenoceptor
 norepinephrine constriction of pial veins (pig), H1907
 stress hyperglycemia and, E823
 β -adrenoceptor
 insulin effects, lung, fetus, L562
 modulation of renin response, pressure reduction, hypertension, R405
 β_1 -adrenoceptor
 gap junctions and calcium mobilization, smooth muscle cells, C373
 sodium-potassium-chloride cotransport and, lymphocytes, C1015
 β_2 -adrenoceptor
 activation, clenbuterol anabolic effects on muscle and, E50
 fibroblast, sodium-chloride sensitivity, C623
 α_1 - and α_2 -adrenoceptors, catecholamine-mediated lymphatic constriction, H473
 angiotensin II
 albuminuria and renal function, Heymann nephritis, F311
 antagonism, heart failure (sheep), H250
 depolarization of supraoptic neurons and, R1333
 angiotensin II subtypes, renal mesangial cells, F411
 apamin, colchicine-induced increase, skeletal muscle, C794

baroreceptors
 artificial, arterial pressure into carotid sinus nerve, H307
 denervation, vasopressin suppression of neural system, R1187
 nucleus tractus solitarius and sinoaortic denervation, R258
 partial denervation, arterial pressure after, awake state, H697
 sinoaortic, denervation, R639
 suppression of discharge by endothelin, R103
 bombesin, attenuation of pancreatic GTP-binding proteins by, G240
 CCK, CCK-8 effects on satiety (baboon), R863
 CCK type A, gastric acid secretion and, G287
 chemoreceptors
 arterial, input to nucleus tractus solitarius, R368
 nasal stimulation and, R1049
 responsiveness, fetus (sheep), H162
 cholinergic, submucosal reflexes, distal colon (guinea pig), G91
 connexin, development, hepatic acinus, G650
 dopamine
 natriuresis mediated by, R631
 renal, spontaneous hypertension, F1105
 renal response to (sheep), R868
 endothelin, PGE₂ synthesis and, mesangial cells, C200
 endothelin-1-specific, testicles, R15
 extrarenal vasopressin, cAMP and, H1888
 gastrin, CCK-A and CCK-B with, vagus nerve, R591
 glucagon, development, hepatic acinus, G650
 H₂ histamine, adenylate cyclase and calcium signaling systems, G967
 5-hydroxytryptamine, ascending contraction and, intestine, G306
 interleukin-1, LPS fever suppression, R653
 internalization, calcium signaling in endothelium, C1029
 kinin, renal responses to volume expansion and, R1136
 leukotriene D₄, lipoxin actions and, kidney, F436
 mechanoreceptors, intestinal, sensory pathways in, G673
 membrane, aldosterone, mineralocorticoid action, E974
 muscarinic
 acetylcholine release, trachea (guinea pig), L142
 calcium sensitivity and, trachea, C1258
 cAMP messenger system, MDCK cells, C1289
 muscarinic cholinergic, adrenal gland, H1208
 neurokinin, acetylcholine release and, myenteric plexus, G659
 opioid
 cardiac nerve stimulation, H153
 intestinal muscle cells, G269
 prostaglandin, signal transduction pathways and, myometrium, C257
 prostanoid, mechanism of action, F181
 purinergic
 ATP stimulation of mesangial cell proliferation, F374

calcium elevation, osteoblasts, C1040
 constriction of afferent arterioles, F1026
 renal, ANP and C-type natriuretic peptides, F89
 right atrial, renin, vasopressin, and cortisol secretion, R1071
 ryanodine, isoforms, skeletal or cardiac muscle relations (frog), C365
 secretin, pepsinogen release and, chief cells, G901
 T-cell, signal transduction by, C1119
 thromboxane, cyclooxygenase inhibitors and, placental arteries, E718
 vasopressin, upregulation by glucocorticoids, E1054
 Red blood cells: *see* Erythrocytes
 Reflexes
 autonomic, lower body suction, blood volume changes and, H1270
 baro- and ventricular, chronic tachycardia and, awake state, H1084
 baroreflexes
 arterial, transfer function analysis in hypertension, R524
 carotid, head-up tilt, R318
 carotid sinus, microcirculatory capacity changes, H1939
 CGRP effects, R874
 control, renal nerve activity and heart rate (sheep), H1819
 function during diving (duck), R693
 midbrain central gray effects, R24
 modulation by centrally infused angiotensin peptides, R89
 regulation of forearm vascular resistance after exercise, H1523
 regulation of sympathetic activity, aging effects, H798
 renal nerve activity, spontaneous hypertension, R109
 reproducibility of responses, R215
 responsiveness, long-term calorie restriction effects, H1021
 venous capacitance and, H1755
 Bezold-Jarisch, medullary pathway of, R1195
 cardiac, blood pressure and, development of (frog), R602
 cardiovascular
 exercise, circulating vasopressin modulation of, R1104
 glycogen depletion, exercise and, H1499
 enteric, 5-hydroxytryptamine-mediated, G306
 intramural secretory, stimulation by luminal distension pressure, distal colon, G108
 peristaltic
 duodenal wall and tone during migrating myoelectric complex, G795
 5-hydroxytryptamine-mediated, G306
 regulation
 ACTH, glucocorticoids, and renin, R762
 heart rate, angiotensin II and vasopressin in function of, R756
 renorenal, sodium-hydrogen exchange, denervation effects, F328
 submucosal, ion transport, distal colon (guinea pig), G91
 Renal nerve
 activity
 hypoxia, hyperoxia, and hypercapnia effects, H1839

- Renal nerve (*continued*)
 spontaneous hypertension, converting enzyme inhibitor effects, R109
 afferent, input to ventrolateral medulla, R412
 influence on renal function and arterial pressure, spinal transection, R1265
- Renin
 age and blood pressure effects, response to hypoxia, fetus (sheep), R880
 aldosterone secretion, interleukin-1 stimulation of, R840
 distribution and content, remnant kidney, F731
 dopamine receptors and, fetus (sheep), R868
 expression, renal growth and, high protein diet, F427
 localization and release, renal cortical cells, F363
 plasma activity, renal nerve effects, spinal transection, R1265
 release
 ANP effects, awake state, R529
 EDRF effects, F256
 response
 hemorrhage, hypoxia attenuation of, R664
 reduction in pressure, β -adrenoceptor modulation of, hypertension, R405
 salt intake, angiotensin II and, microvessel density in cremaster muscle, H664
 secretion
 autoregulation and, remnant kidney, F1057
 inhibition by HETE, renal cortical slices, F665
 right atrial receptor control of, R1071
 vasopressin and angiotensin II control of, water deprivation effects, R762
- Renin-angiotensin-aldosterone system, carotid baroreflexes and vasopressin, head-up tilt, R318
- Renin-angiotensin system
 autoregulation, remnant kidney, F1057
 cardiac, neonatal heart, C838
 interleukin-1 stimulation, aldosterone secretion, R840
 local, production at tissue sites (pig), H429
 physiological and pharmacological concentrations, interactions, awake state, R537
- Renin mRNA, expressions, reciprocal feedback regulation of, angiotensin II, E863
- Reperfusion, ion recovery during, glucose effects, ischemic heart, C17
- Repolarization, transient aortic occlusion-induced, ventricular loading change effects, H816
- Reproduction, cold tolerance and, R820
- Resistance
 antroduodenal, changes induced by Cissapride, awake state, G202
 coronary, adenosine deaminase effects, H1322
 hepatic, distensible, passive autoregulation, G702
 insulin
 epinephrine-induced, muscle, E199
 gender and aging effects, E780
 whole body, low- or high-fat diet effects, R785
 lymphatic, adrenoceptors and, H473
 microvascular, endoneurial ischemia, sciatic nerve, H1806
 pulmonary vascular
 methylene blue and, lung, H587
 PMA-activated neutrophils in ectoenzyme activities, L650
 renal vascular
 ANP effects on vasopressin metabolism, R273
 cyclooxygenase inhibition effects, F534
 prostaglandin buffer of, genetic hypertension, F573
 total peripheral vascular, pregnancy, awake state, H1911
 transepithelial electrical, MDCK cells, unidirectional calcium fluxes, C313
 vascular
 blood pressure during diving and (duck), R693
 cardiovascular effects of peptide YY, E740
 forearm, baroreflex regulation after exercise, H1523
 nasal mucosa (seal), R1291
 pial caliber and, global ischemia, H533
 regional, splanchnic nerve response to A5 area stimulation, R437
 vasopressin, potassium depletion, F705
 Resistance arteries, vascular contractility, aging effects, H1190
 Resistance vessels, neurohypophyseal, neural mechanisms regulating, H1605
- Respiration
 after oxygen exposure, lung mitochondria, L439
 ambient temperature, hypoxia and, neonate, R267
 dynamics, fractal properties of, fetus (sheep), R141
 phases of, coordination of deglutition and, G750
 phosphorylating, dietary fish oil effects, H1479
 sodium acetate and, R1271
 swallowing and, coordination of, R624
- Respiratory burst, neutrophil activation, chloride and, C78
- Respiratory control
 arterial chemoreceptors, input to nucleus tractus solitarius, R368
 cellular, muscle cells, C598
 entrainment, periodic lung inflation, R292
 maturational changes, creatine kinase in heart and, C453
 rhythmicogenesis, network model, R962
- Respiratory distress syndrome
 adult
 cathepsin G and, L249
 circulating xanthine oxidase and neutrophil sequestration, L394
 IL-1 effects, albumin flux, L128
 surfactant proteins and lipids during, L291
 TNF- α -induced alterations, WEB 2086 and SRI 63-441 effects, H761
- Respiratory nerve, activity, during fictive vomiting, R339
- Respiratory pattern, swallowing and, R624
- Respiratory tract, beat cycle, control by calcium and cAMP, L232
- Resynchronization, aging effects, circadian locomotor activity, R1099
- Reticulocytes, membranes, kidney sodium-potassium pumps in, C1007
- Retinoic acid, expression, intestinal cells, E374
- Rhythmogenesis, respiratory, network model of, R962
- Rhythms
 circadian
 absence of suprachiasmatic nucleus and (hamster), R353
 adaptation, high-intensity light for, R428
 adrenergic regulation of, harderian gland, E884
 feeding, advance shift, obesity and, R1169
 feeding schedules and (hamster), R116
 irradiance responsivity and unequivocal type-1 phase responsivity, R1110
 neuronal activity, suprachiasmatic nucleus, R51
 pulsatile, fetal glucocorticoid (sheep), R936
 respiratory, entrainment by periodic lung inflation, R292
 sympathetic nerve, forced oscillations in, R564
- Ribonucleic acid
 hepatocytes, insulin-induced changes, E1106
 messenger
 angiotensinogen levels, estradiol effects, pituitary, E355
 cystic fibrosis gene during liver regeneration, C55
 oncotic pressure and gene transcription, C397
 renal expression of ANF gene, F974
 β -subunit, regulation of, proximal tubules, C436
 ribosomal, hypertrophic growth and protein kinase C, C319
- Rostral ventrolateral medulla, pathway, Bezold-Jarisch reflexes, R1195
- RU 38486, ACE activity and, pulmonary artery endothelial cells, L645
- Rubidium
 absorption, proton secretion and, outer medullary collecting duct, F849
 efflux, hydrogen-potassium-ATPase enhancement, cortical collecting duct, F43
 permeation, during potassium restriction, cortical collecting duct, F1134
 transport, bumetanide-sensitive, preimplantation conceptuses, C773
 uptake, kidney, antidiuretic action of insulin, F175
- Ryanodine
 receptors: *see* Receptors
 response, failing heart, H1710
- S**
- Safflower oil, feeding, subcellular glucose transporter in adipocytes and, E94
- Salbutamol, anabolic effects, skeletal muscle, E50
- Saline
 diuresis and natriuresis, awake state, H792
 hyponcotic infusion, response to hypervolemia, F284
- Salivary cells, chloride fluxes, ammonium effects, G558
- Salivary gland
 acinar cells, regulation of electrolyte and fluid secretion, G823
 acini, calcium and magnesium in, C300

SUBJECT INDEX TO VOLUME 263

- basolateral membrane of, cation channels (sheep), G786
- functional changes, autoimmune disease-prone NOD mice, E607
- Salt: *see also* Sodium
 - appetite, angiotensin-induced, oxytocin effects, R1347
 - dietary, renal osmolytes and, F594
 - intake, microvessel density and, cremaster muscle, H664
 - sensitivity, β_2 -adrenoceptor density in fibroblasts and, C623
 - taste discrimination, chorda tympani denervation and, R169
- Saos-2 cells, intracellular pH, thrombin regulation of, C1266
- Saphenous vein, myogenic tone, H315
- Sarcolemma
 - developing heart, sodium-calcium exchange in, H1506
 - functioning and integrifetal-maternal fluid relations, chronic fetal urine loss and (sheep), F671
 - functioning and integrity, sialic acid residue removal and, H147
 - phospholipase C, C1021
- Sarcomere
 - dynamics, arterial load, cardiac adaptation to, H1054
 - length, capillary geometry and, H1369
 - myocardial, lengths, beating hearts, H293
- Sarcoplasmic reticulum
 - calcium overload, recovery from, cardiomyocytes, H1262
 - calcium waves, myocytes, H327
 - inositol phosphate synthesis, calcium modulation of, smooth muscle cells, C535
 - sodium-calcium exchange-mediated contractions, ventricular myocytes, H1161
 - thapsigargin effects, endothelin-1 action, atrial cells, H1689
- Satiety
 - bombesin-induced, mediation by luminal somatostatin, R84
 - CCK, abdominal vagal mediation, R1354
 - CCK-8 effects, women, R452
 - CCK receptors, vagus nerve, R591
 - duodenal preabsorptive origin, gustatory alliesthesia, R1013
- food intake
 - intraventricular CCK-8 effects (baboon), R863
 - suppression of, near-arterial CCK, R572
 - gastric emptying, during and after stomach fill, R813
- Sch 28080, acid-base transporter, OMCD cells, F996
- Sciatic nerve
 - endoneurial ischemia, induced by epineurial endothelin, H1806
 - regional hematocrit and blood flow, diabetes, H945
- Scintigraphy, kinetic modeling and, organ perfusion, F963
- Seasonal variations, performance correlates, swimming (fish), R1042
- Secretin
 - bile ductular secretory activity and, cAMP system, G527
 - gallbladder mucosal function, absorption and secretion (human, dog), G69
- Secretory granules, surfactant protein D, bronchiolar epithelial cells, L60
- L-Selectin, neutrophil adhesion and, physiological shear rates, H1034
- Selenate, stimulation, ovulation and signal transduction pathways (goldfish), E943
- Selenium, diet deficient in, glomerular disease, experimental, F56
- Semitendinosus muscle, fatigue, phosphate role in (frog), C803
- Sensory nerves, goblet cell secretion, cigarette smoke-induced, L161
- Sepsis
 - amino acid infusion, thermogenic and hormonal responses, E129
 - Candida*, TNF- α production during, L526
 - depression, gut absorptive capacity, R19
 - endotoxin exposure, vascular tissue contractile function and, H1628
 - gastric mucosa and, E368
 - increased glucose uptake and, leukocyte depletion, R1324
 - insulin resistance induced by, catecholamine effects, E703
 - intra-abdominal, calcium ion-related hepatocellular alterations during, R553
 - microvascular perfusion in, various organs, G38
- Serine, fluxes, liver, hindlimb, and placenta, fetus (sheep), E786
- Serotonin: *see also* 5-Hydroxytryptamine
 - contraction induced by, carotid and uterine arteries, pregnancy effects (guinea pig), H1764
 - diet selection, dietary fat effects, R559
 - distension-evoked ion transport, distal colon (guinea pig), G91
 - endocrine cell differentiation, pathways of, colon, G174
 - induction of early growth response gene and, mesangial cells, F623
 - platelet-released factor, endothelial barrier, L670
 - vascular reactivity, methylene blue and, lung, H587
- Serum
 - fetuin, fetus (calf), C551
 - linoleic acid-enriched triglycerols, retention during fasting, R233
- Sex differences
 - body composition and equilibration time effects, deuterium and oxygen-18 dilution space ratio, E1119
 - fatty acid uptake, liver, G380
 - insulin resistance and, aging effects, E780
 - postnatal expression, GLUT-4, E102
 - prenatal dexamethasone, postnatal effects on alveoli formation, L37
 - vasopressin release, central control of, R1030
- Shift work, high-intensity light, circadian adaptation and, R428
- Shock
 - endotoxic, myocyte contractility in, nitric oxide effects, H1963
 - heat, calcium increase, epidermoid A 431 cells, C30
 - hemorrhagic
 - after traumatic brain injury, H1276
 - left ventricular dimensions during, H1554
 - pressure-driven, H1402
- hypotonic, pH regulation of potassium conductance, proximal convoluted tubules, F453
- hypovolemic, head-up tilt, pituitary-adrenal response to, R156
- septic, hepatic regulation of, R553
- Shunt
 - aortocaval
 - localization and secretion of brain natriuretic peptide, R301
 - regulation of ANF, high-output heart failure, H1790
 - portosystemic
 - cardiac performance in portal vein stenosis, G181
 - portal hypertension and intestinal myoelectrical activity, G474
- Sialic acid, sarcolemmal, removal effects, H147
- SIDS: *see* Sudden infant death syndrome
- Signal transduction
 - angiotensin II and nonpeptide receptor agonists, proximal tubule, C750
 - intracellular, four dimensions, C723
 - myometrium, diverse prostaglandin receptors and, C257
 - pathways, ovulation and, oxoanion stimulation of (goldfish), E943
 - T-cell receptors, calcium mobilization, C1119
- Silicate, lung inflammation induced by, surface complexed iron in, L511
- Simian virus 40, renal cells, calcitonin regulation of sodium-potassium-chloride cotransport, C563
- Sinoaortic denervation, arterial pressure lability, renal sympathetic nerve activity and, R639
- Sinoatrial node cells, single, desensitization to acetylcholine in, H1779
- Sjögren's syndrome, autoimmune diseases, salivary glands in, E607
- SK&F 104078, sympathetic nerve stimulation and, α -adrenergic vasoconstriction in myocardium, H1682
- Skin
 - albumin, interstitial exclusion of, H1222
 - calcium channel blocker effects, amiloride-stimulated short-circuit current (frog), R827
 - forskolin effects, conductive anion pathways (toad), C166
 - principal cells, intracellular pH, extracellular potassium effects (frog), F722
 - surface, suction effusion fluid from, H1623
 - venous pressure, protein lymph flux and extravascular uptake during, H895
- Sleep
 - changes, influenza virus and, R1115
 - deprivation, growth hormone-releasing hormone antibodies and, R1078
 - induction, TNF- β , R703, R708
 - modulation of, cortisone, bacteria infection and, R1339
 - schedule, high-intensity light for adaptation to, R428
- Sodium
 - absorption, aldosterone-induced, glucocorticoid effects, colon, F443
 - conductance of, fatty acid modulation, skeletal muscle, C308
 - conductive pathways, tracheal epithelium, L519
 - efflux mechanisms, ventricular myocytes, H866

Sodium (*continued*)

excretion
 ANP and angiotensin II interactions, awake state, R537
 ANP effects on renin release, awake state, R529
 ANP effects on vasopressin metabolism, R273
 diltiazem effects, medullary, R1064
 left ventricular mass and, hypertension, H177
 missing atrial factor and, awake state, H792
 renal nerve effects, spinal transection, R1265
 glucose and phosphate binding and, renal brush-border membranes, C509
 heat-induced calcium increase, epidermoid A 431 cells, C30
 intake
 microvessel density and, cremaster muscle, H664
 urinary output and blood pressure relations, pregnancy (sheep), R1141
 intracellular concentration, cortical collecting tubule, C61
 modulation, hypertonicity, working heart, H1154
 potassium restriction and, rubidium permeation, cortical collecting duct, F1134
 reabsorption
 chloride transport and, proximal tubules, F784
 cortical collecting tubule, model, F1063
 reduction, flow-sensor characteristics and, H182
 retention, reversal of, verapamil, F642
 transport
 amiloride-binding subunit, C1111
 amiloride-blockable, aldosterone effects, A6 cells, C825
 angiotensin II and, proximal tubules, F135
 calcium channel blockers and, tadpole skin (frog), R827
 direct inhibition of, intrarenal pressure during, R1182
 membrane, aldosterone effects, TBM cells, C384
 transport defect, renal dopamine receptors and, spontaneous hypertension, F1105
 uptake, amiloride-sensitive, ANP effects, brain, R279
 Sodium acetate, metabolic and respiratory effects, R1271
 Sodium-calcium exchange
 calcium influx via, aortic myocytes, C628, C635
 contractions mediated by, ventricular myocytes, H1161
 sarcolemmal, developing hearts, H1506
 Sodium-calcium exchanger
 expression, diverse tissues, C1241
 gene, proximal tubule, F945
 heat-induced calcium increase, epidermoid A 431 cells, C30
 immunofluorescence localization of, heart cells, C545
 prostaglandin E₂-induced cell swelling and, distal nephron, F824
 renal, identification by polymerase chain reaction, F680

Sodium channels
 activity, amiloride-binding subunit, C1111
 amiloride-blockable
 aldosterone effects, A6 cells, C825
 insulin effects, renal epithelium, F392
 kinetics, perforated-patch recordings, C1234
 Sodium chloride
 appetite, angiotensin-induced, oxytocin effects, R1347
 inhibition, gastric motility and food intake, R9
 sensitivity, β_2 -adrenoceptor density in fibroblasts and, C623
 taste discrimination, chorda tympani denervation and, R169
 Sodium currents, enhancement of, protein kinase A and, *Xenopus* oocytes, C660
 Sodium-dicarboxylate, cotransport, liver, G871
 Sodium-D-glucose cotransport, kinetic heterogeneity, gastrointestinal tract (teleost), R1018
 Sodium-glucose cotransporter, cDNA and, kidney, F459
 Sodium-glucose transport, comparative studies, intestinal, R489
 Sodium-hydrogen antiporter, cytoplasmic pH regulation and, esophageal cells, G407
 Sodium-hydrogen antiporter, dopamine receptor-mediated, ontogeny of, R631
 Sodium-hydrogen-ATPase, activity, renal denervation effects, F328
 Sodium-hydrogen exchange
 activation of, intracellular lithium, muscle fibers (barnacle), C246
 activity, modulation by angiotensin II, kidney cells (opossum), C1141
 α -adrenergic stimulation of, myocytes, C1096
 angiotensin II activation of, proximal tubules, F135
 denervation effects, kidney, F328
 inhibitors of, stimulus-provoked pineal melatonin synthesis and, E481
 Sodium-hydrogen exchanger
 cystine dimethyl ester, LLC-PK₁ cells, C516
 isoform, immunocytochemical characterization, kidney, F833
 metabolic acidosis effects on, LLC-PK₁ cells, F83
 Sodium-hydrogen ion antiporter, phosphonoformic acid action on, kidney cells (opossum), F301
 Sodium-inositol cotransporter, osmoregulation of, brain glial cells, C1282
 Sodium-iodide cotransport, thyroid, plasma membrane vesicle study, C590
 Sodium ions
 glutamine and, jejunal metabolism and absorption, G960
 intracellular, interleukin-1 β production and, monocytes, C1073
 transport, salivary acinar cells, G823
 Sodium nitroprusside
 baroreflex and, heart rate and renal sympathetic nerve activity, R874
 effects on cGMP, aortic and coronary smooth muscle cells, H710
 modulation of cGMP, vascular cells, L113

relaxation induced by, smooth muscle, protein kinase A role in, G360
 Sodium oleate, stimulation, pancreatic exocrine secretion, G12
 Sodium-phosphate cotransport, phosphonoformic acid action on, kidney cells (opossum), F301
 Sodium-potassium-ATPase
 α_1 - and α_2 -isoforms, expression, neonatal and adult heart (ferret), H1430
 cystine dimethyl ester, LLC-PK₁ cells, C516
 dissociation from actin cytoskeleton, during ischemia, proximal tubule, F488
 expression, low potassium effects, proximal tubule, C436
 inhibition, catecholamine reactivity and, pulmonary artery, H910
 low potassium, red blood cell membranes, kidney, C1007
 mRNA expression, adrenalectomy effects, distal nephron, C810
 ouabainlike factor, hypertension, F739
 oxidative enzymes and, development in thick ascending limbs, F237
 sodium-induced, time course, cortical collecting tubule, C61
 Sodium-potassium-chloride cotransport
 β -adrenergic inhibition of, lymphocytes, C1015
 calcitonin regulation of, thick ascending limb cell line, C563
 ischemia, cardiac, H333
 oxidant stress alteration of, vascular endothelial cells, H96
 Sodium-proton exchange, maturation stages and, proximal tubule cells, F716
 Sodium vanadate, potentiation of twitch contraction, ureter (guinea pig), C953
 Soleus muscle
 dose-response, amylin and insulin, E274
 fat availability effects, acetyl-CoA and acetylcarnitine metabolism, C653
 function, hypothyroidism effects, C86
 Solitary tract
 nucleus
 Bezold-Jarisch reflexes, R1195
 sympathetic responses, forebrain, R544
 Somatomedin, lipid metabolism and, adipose tissue (pig), E637
 Somatomedin C, IGF-I and, mucosal growth, E282
 Somatostatin
 CCK receptors and, inhibition of gastric acid secretion, G287
 CGRP and, modulation of chronic hypoxic pulmonary hypertension, H681
 gastrin secretion and, monoclonal antibody immunoneutralization, G908
 glycine-extended, pharmacokinetics of, G802
 luminal, bombesin-induced satiety and, R84
 release, pancreatic, during hypoglycemia, E8
 Somatotropes, growth hormone secretion from, differences in fast and slow growth, E748
 Somatotropin, effects on lipid metabolism, adipose tissue (pig), E637

SUBJECT INDEX TO VOLUME 263

- Sonomicrometry
 β -adrenergic blockade and afterload effects, nonischemic myocardial contraction pattern, H1716
 biventricular, measurement, H968
 inner and outer wall thickening and, ventricular, H109
- Sorbinil, hematocrit and blood flow, diabetes, H945
- Sorbitol
 aldehyde reductase and polyol production, kidney, F799
 dietary protein changes, renal osmolytes, F594
- SPARC, antibodies to, albumin binding and, microvascular endothelium, H1872
- Species differences
 gallbladder mucosal function, absorption and secretion (human, dog), G69
 transient outward current, rate dependence (rabbit, human), H1747
- Spectrometry
 flameless atomic absorption, renal lithium reabsorption, F1128
 mass, substrate oxidation in exercise, E64
- Spectrophotometry
 reflectance
 estimation of gastric mucosal blood flow, G810
 ischemia-reperfusion injury, bowel, G301
- Spectroscopy
 fluorescence, suppression of motion artifacts in, heart, H972
- ³¹P-NMR
 chloride potential, heart, H1958
 exercising forearm muscle, C357
 substrate and contractility changes, heart, H497
- Sperm, maturation, proton ATPase in plasma membrane, C913
- Spermatogenesis, nuclear polyamines during, cell differentiation, C343
- Spermidine
 lipid-induced mucosal injury and, jejunum, G224
 nuclear, during spermatogenesis, C343
 transport systems, hepatocytes, G169
- Sphincter of Oddi, bile flow regulation, G683
- Spinal cord, microcirculatory changes, laser-Doppler flowmetry in, H285
- Spinal cord transection, renal function and arterial pressure in, renal nerve influences on, R1265
- Splanchnic nerve
 least, input to ventrolateral medulla, R412
 response, A5 area stimulation, R437
- Splanchnic tissues, leucine kinetics, low-birth-weight infants, E214
- Spleen, preganglionic neuron control of, spinal stimulation, H1026
- SRI 63-441, effects on TNF- α , cardiopulmonary function, H761
- Staphylococcus aureus*, basolateral membrane and, chloride-secreting epithelium, T84 cells, L104
- Starvation: see Fasting
- Staurosporine
 hypertrophic growth, protein kinase C and, cardiomyocytes, C319
 protein kinase C activation, chloride-secreting epithelia, C140
- Steele's equation, two-compartmental model, rate of appearance in, E400
- Stellectomy, development of cardiac innervation, SIDS and, H1514
- Stem cells
 gastric, regulation of gene expression, G186
 liver, lineage system and, G139
- Stenolol, mediation, sepsis-induced insulin resistance, E703
- Stenosis, portal vein, splanchnic blood flow in, EDRF role in, G149
- Stomach
 axial forces, measurement during gastric emptying, G230
 emptying and motility, pylorus innervation in control of, G161
 erythromycin effects
 gastric myoelectric activity, G24
 motor, G52
 fill, gastric emptying during and after, R813
 hyperemia, capsaicin-induced, mast cells in, G209
 myenteric neurons, 5-hydroxytryptamine actions in (guinea pig), G838
 pepsinogen secretion, permeabilized chief cells, G452
 ulcer site, aspirin effects on blood flow, G155
 vagally innervated enteric neurons, electrophysiological identification of (guinea pig), G709
- Streptolysin O, chief cells permeabilized with, pepsinogen secretion from, G452
- Streptozotocin
 blood perfusion and, pancreatic islets, E57
 insulin-dependent control, creatine kinase mRNAs, striated muscle, E310
- Stress
 chronic, vasopressin and, hypoglycemia, E394
 habituation to, cerebral lactate release and, R722
 mechanical, downregulation of endothelin-1 mRNA and, aortic endothelium, C389
 orthostatic, circulatory control during, aging effects, R1147
 osmotic, chloride activity during, hepatocytes, G566
 oxidant
 effects on intestinal interstitial fluid, G573
 PEG-SOD and postischemic recovery, H1243
 routine handling and (bird), R775
- Stretch
 calcium influx and, pulmonary arterial smooth muscle cells, L602
 mechanical, lung cell growth and, L376
- Stromal cells, in vitro differentiation in, hydrogen-ATPase expression during, F277
- Subfornical organ, cholinergic activation of, AV3V lesion effects, R1277
- Submandibular glands, calcium interaction, magnesium-fura-2, C300
- Substance P
 endocrine cell differentiation, pathways of, colon, G174
 magnesium deficiency and, R734
 neutrophil adherence and, endothelial cell monolayers, G678
- neutrophil chemotactic activity, bronchial epithelial cells, L226
 whole cell current transients and, RBL-2H3 cells, C736
- Substrates
 gluconeogenic, stimulation of ureagenesis by, E493
 metabolic, postischemic recovery and, heart, C17
 oxidation
 exercise, E64
 metabolic and respiratory effects, R1271
 moderate cold exposure effects, women, E1040
 porous filter, intestinal cells, E374
- Succinate, respiratory activities supported by, oxygen exposure effects, lung mitochondria, L439
- Suckling, macromolecular transport, synthetic trypsin inhibitor effects, intestine, R996
- Sucrose, contractile and conductive elements, heart, H168
- Sudden infant death syndrome, development of cardiac innervation and, H1514
- Sugar
 metabolism, human body, E268
 transport
 intestinal, maintenance during hibernation, R517
 ontogenetic development of, intestine, G593, G605
 transmucosal impedance and, small intestine, C480
- Sulfate, transport, pancreas epithelial cells, C176
- Sulphydryl, gastric hydrogen-potassium-ATPase activity and, β -subunit, C39
- Superoxide
 calcium pump inactivation, coronary artery (pig), H537
 circulating, lung neutrophil sequestration and, L394
 cytochemical detection, cerebral inflammation and ischemia, H1234
 endothelial cells, C5a and TNF- α , L51
 neutrophil activation, chloride and, C78
 posthypoxic injury, renal epithelial cells, F251
- Superoxide anion
 bioassay of EDRF, diabetic aorta, H676
 blood and bone marrow neutrophils, downregulation of, acute lung injury (sheep), H1492
 mesangial cells, glomerulus and, F466
- Superoxide dismutase
 bioassay of EDRF, diabetic aorta, H676
 gene regulation, lung, L466
 glutathione S-transferase, immunolocalization, lung, L679
 liposome-entrapped, alveolar distribution of, L585
 mRNA levels, TNF- α and IL-1-induced increase in, IL-6 effects, L22
 myocardial dysfunction, after multiple brief coronary occlusion, H1703
 pulmonary, kinetics in oxygen intolerance, L342
 regional dysfunction and, exercise-induced ischemia, H392
 spontaneous EDRF release and, diabetic aorta, H257
- Suprachiasmatic nucleus
 absence of, daily torpor (hamster), R353

- Suprachiasmatic nucleus (*continued*)
 circadian rhythms, feeding schedules and (hamster), R116
 isoperiodic neuronal activity in, R51
- Supraoptic nucleus
 A1 neurons projecting into, chemoreceptor and baroreceptor responses, R310
 neurons, depolarization, angiotensin II receptors and, R1333
- Surfactants, clearance, alveolar, lung cells, L201
- Surfactant-like particles, alkaline phosphatase cDNA, Caco-2 cells, G756
- Surfactant protein A
 adsorption and surface sorting, lipid extract surfactant, L210
 lipids and, during hyperoxia, L291
 structural and functional impairment, nitrogen dioxide exposure, L177
- Surfactant protein B
 binding and uptake, alveolar type II cells, L333
 lipids and, during hyperoxia, L291
 processing of, cathepsin D-like protease, L95
 pulmonary, endosomal/lysosomal compartment, L479
- Surfactant protein C
 alternative splicing and regulation, L634
 lipids and, during hyperoxia, L291
 properties and metabolism, L151
 recycling, alveoli to lamellar bodies, L607
- Surfactant protein D, subcellular localization, bronchiolar epithelial cells, L60
- Surfactant protein gene, pulmonary, cloning, sequence, and transcription, L546
- Swallowing, respiration and, coordination of, R624
- Sweating, exercise thermoregulation, hydration state effects (goat), R201
- Swimming: *see* Exercise
- Sympathetic activity, baroreflex regulation of, aging effects, H798
- Sympathetic nerve activity
 arterial baroreflex dynamics, hypertension, R524
 baroreflex control of, CGRP effects, R874
 converting enzyme inhibitor effects, spontaneous hypertension, R109
 spectrum analysis of, awake state, H1348
 synchronized, H1311
 vasomotor control and, pontine reticular neurons, H1567
 discharge, forced oscillations in, R564
 glucose transport system, ventromedial hypothalamic stimulation effects, R1228
 influence on renal function and arterial pressure, spinal transection, R1265
 pancreatic, galanin and norepinephrine release, during hypoglycemia, E8
 post-nerve stimulation hyperemia, intestine, G29
 regional discharge, splanchnic nerve response, R437
 renal
 arterial pressure lability and, R639
 baroreflex control of (sheep), H1819
 vasopressin and, R1187
- responses to anesthetics, cerebellar uvula in decerebration, H1285
- stimulation
 α -adrenergic vasoconstriction in myocardium during, H1682
 autoregulation of flow during, H1177
 dynorphin, naloxone, and norepinephrine overflow during, H153
 enhanced myogenic response in arterioles, H1185
 zymosan and, effects on glycogenolysis, cold-exposed liver, G353
- Sympathetic nervous system
 activity, cold and nutrient effects, kidney, F586
 differing insulin levels, response to equivalent hypoglycemia, E688
 innervation, brown adipocyte proliferation and, R1176
 insulin release, hypertension and, E935
 isoproterenol clearance, congestive heart failure, H56
 left ventricular shape changes, evolving heart failure, H266
 massive activation, left ventricular dysfunction after, H784
 microcirculatory capacity changes, baroreflexes and, H1939
 muscle metaboreceptors, glycogen depletion and, H1499
 renal responses, ANP-mediated volume depletion and, R1303
 sympathoexcitation, midbrain central gray and, R24
- Sympathetic responses, forebrain, medullary relay of, R544
- Sympathetic stimulation, acute hypertension and, changes in cerebral blood flow, H511
- Sympathoadrenal activity, platelet catecholamines and, E245
- Sympathoexcitation, midbrain central gray and, R24
- Synaptic depression, during anoxia, cerebellum (turtle), R1057
- Syncope, head-up tilt, pituitary-adrenal responses to, R156
- Syrosingopine, insulin secretion and, during sympathetic stimulation, pancreas, E72
- System A carrier, hepatic, glucagon-induced, E1021
- Systemic vascular response, platelet-activating factor, H234
- Systole
 coronary flow, time-varying elastance, H484
 ventricular vascular, time-varying wall stress, H597
- Systolic function
 chronic experimental aortic regurgitation, H226
 stunned myocardium (pig), H544
- T**
- Tachycardia
 chronic, baroreflexes with, awake state, H1084
 ventricular
 anisotropic conduction and reentry in, H1466
 heptanol or potassium perfusion effects, H1382
- Tachykinins, neutrophil chemotaxis by, bronchial epithelial cells, L226
- Tachyphylaxis, sodium-potassium-ATPase inhibition, pulmonary artery, H910
- Tachypnea, deglutition and respiration, coordination, G750
- Tamponade, atrioventricular interactions and, H125
- Taste: *see* Gustatory response
- Taurine
 anion channels for, MDCK cells, C1200
 transporter, constitutive expression, colon carcinoma cell line, G625
- TBM cells, membrane conductance in, aldosterone effects, C384
- T cells, acetylcholine release and, inflamed intestine, G198
- T84 cells
 chloride-secreting epithelium, α -toxin permeabilizes basolateral membrane, L104
 potassium and chloride currents, carbachol-induced, C780
 protein kinase C, secretory action of carbachol and, C140
- Temperature
 ambient, hypoxia and, effects on gaseous metabolism, newborn, R267
 dependence, electrophysiological properties of myocytes (guinea pig, squirrel), R177
 local, modulation of adrenergic vasoconstriction, H1197
- regulation
 delayed firing rate and, diencephalon, R679
 loci and roles of acetylcholine in (goldfish), R596
 neural networks and, diencephalon, R670
- Temperature, body
 absence of suprachiasmatic nucleus, daily torpor (hamster), R353
 adrenergic receptors and, R915
 blood, exercise thermoregulation effects (goat), R201
 brain, sleep and sleep deprivation, R1078
 CCK reduction of, capsaicin effects, R1215
 high-intensity light, circadian adaptation and, R428
 hypoxia and, effects on gaseous metabolism, newborn, R267
 LPS fever, interleukin-1 suppression of, R653
 metabolic rate and, variations in, E730
 skin, epidermal growth factor and, neonate, E920
 surgery, perioperative heat conservation and epidural anesthesia effects, E441
- Tendon
 albumin, interstitial exclusion of, H1222
 torque profile and, hip joint (frog), R586
- Testicles, endothelin-1-specific receptors in, R15
- Testosterone, erectile and copulatory dysfunction, chronic diabetes, E151
- Tetrabromosulfonephthalein, uptake, liver plasma membrane vesicles, G338
- Tetrabutylammonium, electrical activity, antral, G880
- Tetraethylammonium
 organic cation transport, liver plasma membrane vesicles, G775
 peristalsis, esophageal smooth muscle (opossum), G953
 spontaneous depolarizations and, colonic smooth muscle cells, C691

- transport, hepatocyte basolateral membrane vesicles, G939
- TGF- β : see Transforming growth factor- β
- Thalamus, opioid binding sites, ovarian hormone effects, castrated females, E507
- Thapsigargin
endothelin-1 action and, atrial cells, H1689
stored calcium effects, smooth muscle cells, C535
volume-sensitive calcium transport, gastric parietal cells, C584
- Thermogenesis
brown fat, strain differences in rats, R59
central actions of cytokines, lipocortin inhibition, E632
diet-induced, visceral fat accumulation and, obesity, E913
epinephrine and, adipose tissue, E850
nonshivering
 α_1 -adrenoceptor density, brown fat, E654
energy expenditure and, women, E1040
lipoprotein lipase gene expression, brown fat, E500
protein synthesis, brown fat, R1003
reproductive function and, R820
nutrient-induced, amino acid infusion in sepsis, E129
protein turnover, resting energy expenditure and, pregnancy, E624
responses to isoproterenol, β -adrenergic antagonists and, R915
surgery, perioperative heat conservation and epidural anesthesia effects, E441
- Thermoregulation
adrenergic vasoconstriction and, H1197
behavioral, loci and roles of acetylcholine in (goldfish), R596
central vasopressin, regulation of fever in bacterial infections and, R1235
cold tolerance, reproductive function and, R820
exercise, hydration state effects (goat), R201
gaseous metabolism, hypoxia and ambient temperature effects, newborn, R267
responses to isoproterenol, β -adrenergic antagonists and, R915
TNF- β induction, sleep, fever, anorexia and, R703, R708
- Thiobarbituric acid
mechanisms, isolated nephron segments, F201
reaction, detection of lipid peroxidation, H981
- Thiols, stimulation, glutathione synthesis, R348
- Thirst: see Drinking
- Thrombin
calcium signaling, endothelial, C1029
increase induced by, endothelial permeability, L219
megakaryocytic desensitization and, C864
receptor peptide, endothelial cells and calcium transients, L595
regulation, intracellular pH, Saos-2 cells, C1266
- Thromboxane
action, cyclooxygenase inhibitor effects, placental arteries, E718
biosynthesis, mechanism of action and, F181
C5a contractile actions and, isolated myocardium (pig), H740
inhibition, glomerulonephritis and, F228
proliferation induced by, airway smooth muscle cells, L555
respiratory epithelium, smooth muscle interaction, L137
- Thromboxane A₂
circulation and, intrapulmonary arteries and veins (sheep), L15
megakaryocytic desensitization and, C864
pulmonary and systemic vascular response, platelet-activating factor, H234
regulatory effects, vascular smooth muscle cells, H1331
role in coronary vasoconstriction, H1045
- Thymidine
sympathetic innervation, brown adipocyte proliferation and, R1176
uptake, thromboxane A₂ effects, vascular smooth muscle cells, H1331
- Thyocyte, spatial and temporal response, thyrotropin, E231
- Thyroid
epithelium, spatial and temporal response to thyrotropin, E231
iodide channel, plasma membrane vesicle study, C590
membrane currents, calcitonin-secreting C cell line, C986
status, effect on metabolic enzymes during chronic stimulation, C788
- Thyroid cells, spatial and temporal response, thyrotropin, E231
- Thyroidectomy, thyroid hormone effects, urinary and renal kallikreins, E430
- Thyroid hormones
apolipoprotein expression, intestinal cells, E374
gene expression and, cardiac, E534
intracellular transport, G733
kallikreins and, urinary and renal, E430
oral kinetics, multiple cold air exposure effects, E85
regulation of lactase, intestinal, G538
- Thyrotropin, spatial and temporal response, thyrocytes, E231
- Thyrotropin-releasing hormone, motor neurons and, dorsal motor nucleus of vagus, G508
- Thyroxine
binding, TNF- α reduction of, pituitary-thyroid axis, E1099
regulation of lactase, intestinal, G538
- Thyroxine 5'-monodeiodinase, decreased conversion, brown fat before obesity, E115
- TNF: see Tumor necrosis factor
- TNF- α : see Tumor necrosis factor- α
- Tomography
positron-emission, insulin responsive-ness, working heart, E556
X-ray computed, dynamic intramyocardial blood volume, H963
- Torpor, suprachiasmatic nucleus and (hamster), R353
- Torque profile, hip, determinants (frog), R586
- Toxicology, nitrogen dioxide, impairment of surfactant protein A after, L177
- α -Toxin, basolateral membrane and, T84 cells, L104
- Tracer methodology
dual stable, lactose hydrolysis in premature infants, E1002
fetal leucine kinetics, hyperinsulinemia effects (sheep), E696
organ perfusion, kinetic modeling and scintigraphy, F963
sites of infusion and sampling, steady state, E817
stable isotope, mass spectrometry, E584
turnover of blood-borne compounds, aortic arch, E417
V-A and A-V modes, whole body and regional kinetics, E597
- Trachea
acetylcholine release, measurement of (guinea pig), L142
membrane vesicles, chloride-transporting, immunolocalization, C888
muscarinic stimulation, calcium sensitivity during, C1258
neutrophil accumulation, interleukin-8 effects, L708
smooth muscle, maturation of 1,4,5-trisphosphate receptor binding, L501
smooth muscle-contracting factor, respiratory epithelial cells, L137
- Tracheal epithelium
membrane fraction
chloride channel-enriched, C879
tracheal gland cells in primary culture, L264
sodium- and chloride-conductive pathways, L519
- Tracheal gland, cell in primary culture, L264
- Transaminases, ammoniogenesis and, LLC-PK₁ cultures, C47
- Transferrin
degradation, iron uptake relations, brain, R924
iron toxicity, tubule, F637
- Transforming growth factor- α , fibrin turnover and, fibroblasts, L487
- Transforming growth factor- β , elastin and, lung fibroblasts and aortic smooth muscle cells, L257
- Transforming growth factor- β_1 , smooth muscle proliferation and, aortic, C420
- Transmembrane conductance regulator, cystic fibrosis, light scattering assay, C530
- Transmembrane signaling, energetics and, chronic administration of cardiovascular drugs (turkey), H1576
- Transplantation, heart, APE-LM fluorochromic emulsion in preservation, H730
- TRH: see Thyrotropin-releasing hormone
- Triacylglycerol
incorporation into VLDL, high-fat diet effects, E615
linoleic acid-enriched, retention, liver and serum during fasting, R233
- Tricarboxylates, citrate transport and, proximal cell line, C220
- Tricarboxylic acid, rates of hepatic gluconeogenesis, carbon dioxide use in estimation of, E36
- Trigeminal nerve, stimulation, chemoreceptor drive and, R1049
- Triglycerides
adipose tissue, uptake of glucose carbon, E473
peripheral catabolism, in nephrosis, F335

Triiodothyronine
decreased conversion, brown fat before obesity, E115
oral kinetics, multiple cold air exposure effects, E85
3,5,3'-Triiodothyronine, intracellular transport, G733
1,4,5-Trisphosphate
gated channel protein, olfactory cilia, C667
thromboxane-induced cell proliferation and, airway, L555
D-myo 1,4,5-Trisphosphate, superoxide responses to, endothelial cells, L51
Trypsin, pancreatic secretion, CCK mechanism of, G102
Trypsin inhibitor, synthetic, cessation of macromolecular transport and, suckling, R996
Tryptase, mast cell mediation, tobacco smoke effects, L67
L-Tryptophan, stimulation, pancreatic exocrine secretion, G12
TSH: *see* Thyrotropin
Tumor necrosis factor
cardiovascular dysfunction patterns and, H668
differential effects, ketogenesis, E301
pulmonary fibroblast-derived, expression and regulation of, L536
regulation, cyclooxygenase synthesis, mesangial cells, F97
tight junction permeability and, LLC-PK₁ cells, F915
Tumor necrosis factor- α
alterations induced by, cardiopulmonary function, H761
antibodies to, liver regeneration after partial hepatectomy and, G579
chronic infusion, pituitary-thyroid activity and, E1099
fibrin turnover and, fibroblasts, L487
increased endothelial permeability induced by, extracellular matrix effects, L627
induction of ICAM-1, after protein kinase C, endothelial cells, C767
induction of intracellular adhesion molecule-1, airway epithelial cells, L79
inhibition, hepatic ketogenesis, E897
intrapulmonary production, during *Candida* sepsis, L526
superoxide dismutase mRNA increase induced by, interleukin-6 effects, L22
superoxide responses to, endothelial cells, L51
systemic injection, interleukin-1 β and LPS fever, R987
Tumor necrosis factor- β , sleep, fever, anorexia and, R703, R708
Tungstate, stimulation, ovulation and signal transduction pathways (goldfish), E943
Tungsten, posthypoxic injury, renal epithelial cells, F251
Tyrosine, phosphorylation, PDGF induced, osteoblast-like cells, E205
Tyrosine kinase, calcium mobilization, signal transduction by T-cell receptors, C1119

U

Ulcer, gastric, aspirin effects on blood flow, G155

Ultrasound, intracavitary, left ventricular performance and, H857
Ultraviolet B radiation, TPA interaction, ODC gene expression and, keratinocytes, C1103
Umbilical artery, ligation, growth retardation induced by, fetus, E575
Undernutrition: *see* Fasting; Feeding
Uninephrectomy, sodium-hydrogen exchange after, renal denervation effects, F328
Urea
concentration, high-protein diet effects, F1051
epithelial lining, lung, L617
exchange, air-filled and fluid-filled lungs, L619
localization of production, nephron, F878
production, glucagon effects, glomerular filtration, F24
Ureagenesis, stimulation, gluconeogenic substrates, E493
Uremia, erythropoietin secretion rate and, F939
Ureter
obstruction, enhanced intrarenal angiotensin generation and, F527
twitch contraction, sodium vanadate and (guinea pig), C953
Uridine 5'-diphosphate-glucose pyrophosphorylase, glycogen synthesis regulation, E43
Uridine triphosphate, extracellular nucleotide elevation of calcium, osteoblasts, C1040
Urinary bladder
epithelial cells
cytochalasin D effects on actin cytoskeleton (toad), C995
endosomes from (toad), F62
granular cells, vasopressin effects on immunogold actin labeling (toad), C908
mineralocorticoid action and, protective mechanisms (toad), F759
obstructed, detrusor hyperplasia in (guinea pig), R1284
water channel retrieval, antidiuretic hormone, cytoplasmic dilution (toad), F163
Urinary clearance, ANP effects, vasopressin metabolism, R273
Urinary excretion
folate, proximal tubule cells, F841
leukotriene C₄, vascular compartment, H244
potassium, rapid renal adaptation, F1098
Urinary output, arterial pressure relations, pregnancy and (sheep), R1141
Urine
acidification
hydrogen secretion, β -adrenergic regulation of, F1011
outer medullary collecting duct cells, F1004
chronic loss, fetal, fetal-maternal relations during (sheep), F671
concentration and dilution, kinin receptor antagonist effects, R1136
EGF prohormone secretion in, E142
flow rate, glucagon effects, glomerular filtration, F24
Urine concentrating mechanism, urea and ornithine production, nephron, F878

Urotilatin, ANF and, pharmacokinetics of, E870
Uterine artery, serotonin-induced contraction, pregnancy effects (guinea pig), H1764
Uterus
arterial occlusion, chemoreceptor responsiveness, fetus (sheep), H162
blood flow: *see* Blood flow,
endothelin in, during pregnancy, E158
prostaglandin production, during pregnancy (sheep), H188

V

Vagotomy
development of cardiac innervation, SIDS and, H1514
duodenal preabsorptive origin, gustatory alliesthesia, R1013
intra gastric copper sulfate effects (ferret), R284
satiety and, CCK, R1354
Vagus nerve
abdominal, mediation of CCK satiety effects, R1354
baroreflex reproducibility, R215
CCK-A and CCK-B, gastrin receptors with, R591
control, pyloric function, G161
dorsal motor nucleus of, TRH effects on motor neurons in, G508
innervated enteric neurons, electrophysiological identification, stomach (guinea pig), G709
input, central processing of, periodic lung inflation, R292
near-celiac CCK, satiety and, R572
neuropeptide Y, gastric acid output and, G726
Valine, protein metabolism and, whole body and skeletal muscle, E928
Valinomycin, thyroid iodide channel, plasma membrane vesicle study, C590
Vanadate
hypoxic vasoconstriction and, lung, H383
stimulation, ovulation and signal transduction pathways (goldfish), E943
Vascular response, differential regional, hypoxia, EDRF effects, R45
Vascular tissue, contractile function, sustained endotoxin exposure, H1628
Vascular tone
endothelial cells and, C-type natriuretic peptides in, H1318
sodium reduction, flow-sensor characteristics and, H182
Vas deferens, neural regulation of, electrophysiological analysis, R331
Vasoactive agents, induction of early growth response gene and, mesangial cells, F623
Vasoconstriction
adrenergic, local temperature modulation of, H1197
 α -adrenergic, myocardium, during sympathetic nerve stimulation, H1682
ATP effects, juxtamedullary microvasculature, F886
coronary, neuropeptide Y and, H1045
eicosanoid release during hypoxia, growth oxygen level effects, lung cells, L454
endothelin sensitivities, renal arterioles, F894

- hypoxia-induced, EDRF effects, R45
hypoxic, almitrine and, lung, H383
hypoxic pulmonary
cytochrome P-450 and, L446
signal transduction, L73
renal, prostaglandin buffer of, genetic hypertension, F573
systemic, endothelin effects, heart failure, H951
- Vasoconstrictors**
mitogenic, lipoproteins and mesangial cell function, F686
secretion of ANP induced by, fetus (sheep), E526
- Vasodilation**
albumin coating, extracorporeal circuits and autoregulation, H1397
ATP-sensitive potassium channel and, hypertension, lung, neonate (pig), H1532
calcium and cGMP, arterial smooth muscle relaxation, C461
calcium ion channels, aortic endothelial cells, H1827
cerebral, L-arginine effects, spontaneous hypertension, H1632
CGRP-induced, ophthalmic artery, H359
cholinergic, methylene blue effects, pulmonary vascular bed, L575
conducted, control, arterioles, H1
endothelium-dependent, oxygen radicals and, cerebral ischemia, H1356
estrogen-induced, angiotensin II and α -adrenergic receptors during, E837
luminal and adventitial adenosine and, ear artery, H1437
pulmonary, potassium channel activation and, H1363
regulation of myoplasmic calcium ions, arterial smooth muscle relaxation, C468
- Vasodilator responses**, neurogenic cholinergic, methylene blue effects, pulmonary vascular bed, L575
- Vasomotor control**, tonic, pontine reticular neurons, H1567
- Vasomotor reactivity**, exercise training effects, coronary arteries (pig), H372
- Vasomotor responses**, adrenergic, nasal mucosa (seal), R1291
- Vasopressin**: *see also* Antidiuretic hormone
ACTH responses and, response to hypoglycemia, awake state, R382
age and blood pressure effects, response to hypoxia, fetus (sheep), R880
arginine
cAMP formation stimulated by, inner medullary collecting duct, F268
oxytocin comparison, cell culture system, F222
response to hemorrhage and hypoxia, R664
calcium and membrane potential, simultaneous measurement, C1302
calcium waves and calcium release, vascular smooth muscle cells, H576
central, regulation of fever in bacterial infection, R1235
central control of, sex differences, R1030
cerebrovascular regulation and, fetus, R376
chronic stress effects, hypoglycemia, E394
circulating, modulation of cardiovascular responses to exercise, R1104
- constriction induced by, basilar artery, protein kinase C and, H1643
endosomes, bladder epithelial cells (toad), F62
enhanced myogenic response, arterioles, during sympathetic nerve stimulation, H1185
hydrosomatic effects of, cAMP-dependent protein kinase mediation of, C147
immunogold actin labeling and, bladder granular cell (toad), C908
induction of early growth response gene and, mesangial cells, F623
input to A1 neurons, projecting into supraoptic nucleus, R310
magnesium mobilization and, vascular smooth muscle cells, C873
metabolism, ANP effects, kidney, R273
nucleus tractus solitarius, sinoaortic denervation and, R258
opioid-induced increase in, prostanoid effects, cerebrospinal fluid, H1670
plasma, carotid baroreflexes and, during head-up tilt, R318
potassium channel activities and, smooth muscle cells, coronary artery (pig), H491
receptors: *see* Receptors
reflex regulation and
ACTH, glucocorticoids, and renin, R762
heart rate, R756
resistance: *see* Resistance
secretion, right atrial receptor control of, R1071
sodium chloride inhibition, gastric motility and food intake, R9
stimulation, cAMP formation, cortical collecting tubules, F1093
stored calcium effects, smooth muscle cells, C535
suppression of renal sympathetic outflow, baroreceptor inputs and, R1187
water channel retrieval, urinary bladder (toad), F163
water diuresis, induction by endothelin, F516
- Vasoreactivity**, methylene blue effects, lung, H587
- Vasospasm**, platelet amplification of, H349
- Velocimetry**, laser-Doppler, estimation of gastric mucosal blood flow, G810
- Vena cava**
flow, pericardial constraint effects on atrioventricular interactions, H125
inferior, occlusion, after partial baroreceptor denervation, awake state, H697
turnover of blood-borne compounds, tracers, E417
- Venoconstriction**, pulmonary, anaphylaxis and, R1024
- Ventilation**, alveolar, sodium acetate and, R1271
- Ventrolateral medulla**
renal afferent input to, R412
supraoptic nucleus, A1 neurons projecting into, inputs to, R310
- Ventrolateral pons**, stimulation, splanchnic nerve response, R437
- Verapamil**
calcium influx and, pulmonary arterial smooth muscle cells, L602
contractile response to, 17 β -estradiol effects, coronary artery, H271
- diverse effects, glucose transport, skeletal muscle, R70
isotonic cell swelling, vestibular dark cells, C616
renal hemodynamics and, after protein feeding, F1044
sodium retention, reversal of, F642
volume-induced secretion of ANF and, H939
- Veratrine**, massive sympathetic activation, left ventricular dysfunction and, H784
- Vestibular labyrinth**, isotonic cell swelling, mechanism for, C616
- Vibration**, diastolic, effect on ischemic heart, H88
- Vinculin**, immunofluorescence localization of, heart cells, C545
- VIP**: *see* Peptides, vasoactive intestinal
- Viscoelastic properties**, structure and, pericardium, four mammalian species, H1095
- Vitamin D**, bone histology, magnesium deprivation, osteocalcin relations, E107
- Vitamin D₃**
1,25-dihydroxycytosolic calcium and, osteoblast-like cells, E1070
expression in intestinal cells, E374
serum concentration of, metabolic acidosis effects, E1164
- VLDL**: *see* Lipoproteins, very-low-density
- Volume blood**
biphasic changes, lower body suction and, H1270
determination, microsphere and dilution techniques for, R728
during isovolemic hemodilution, H75
dynamic intramyocardial, H963
intestine, carotid sinus baroreflex effects, H1939
- bolus**
coordination of deglutition and phases of respiration, G750
respiration and swallowing, R624
- cell**
basolateral potassium channels, HT-29 cells, C674
betaine transport, gill (mussel), R226
potassium-chloride cotransport, erythrocytes, C917
regulation, calcium in, proximal tubule cells, R1086
regulation, calcium ion channels, H1827
regulation, thin ascending limb of Henle's loop, F353
depletion, ANP-mediated, renal responses and, R1303
- expansion**
filtration dynamics and natriuretic response to, F284
renal responses to, kinin receptor antagonist effects, R1136
microvascular, ANP infusion effects on albumin transport, R945
plasma, small-vessel, continuous infusion method of measurement, H1222
- regulation**
cochlear outer hair cells, C1088
decrease, channels for amino acids, MDCK cells, C1200
decrease, potassium fluxes, erythrocytes (trout), C1057

SUBJECT INDEX TO VOLUME 263

Volume (continued)

- hepatocytes in hyperosmotic solution, G913
- intracellular calcium in, collapsed proximal convoluted tubule, F656
- recovery from chronic hypertonicity, glial cells, C412
- salivary acinar cells, G823
- stressed, baroreflex control, α -adrenergic blockade and, H1755
- stroke, left ventricular dimensions during shock, H1554
- Vomiting, fictive, respiratory nerve activity during, R339

W

Water

- deprivation
 - vasopressin and angiotensin control of ACTH, glucocorticoids, and renin, R762
 - vasopressin and angiotensin II control of heart rate and, R756
- doubly labeled, underfeeding and body weight regulation, R251

- excretion, diltiazem effects, medullary, R1064
- extravascular, ANP infusion effects on albumin transport, R945
- flow, nasal, cardiovascular responses, R1049
- intake, cholinergic activation of subfornical organ, AV3V lesion and, R1277
- permeability: *see* Permeability
- total body, deuterium and oxygen-18 dilution space ratio, E1119
- Water channels
 - CHIP28, localization, kidney, C1225
 - immunogold actin labeling, vasopressin effects, bladder granular cells (toad), C908
- Wax ester, assimilation, physiological correlates of, R464
- WEB 2086, effects on TNF- α , cardiopulmonary function, H761
- Weight
 - body
 - loss, intrahypothalamic metallothionein and, R805
 - loss, visceral fat accumulation and, obesity, E913

- reversal of high-fat diet-induced obesity, female, R790
- spontaneous physical activity and, E296

X

- Xanthine oxidase
 - circulating, lung neutrophil sequestration and, L394
 - ischemic injury, bowel, G301
 - posthypoxic injury, renal epithelial cells, F251
- Xerostomia, autoimmune diseases, salivary glands in, E607

Y

- Yohimbine, noradrenergic neuronal activity, stress hyperglycemia and, E823

Z

- Zinc, metabolism, aging changes, R1162
- Zymosan, nerve stimulation and, effects on glycogenolysis, cold-exposed liver, G353
